The risks and uncertainties described below are not the only risks that we currently face; additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business, financial condition, results of operations, and cash flows. If any or some combination of the following risks, or other risks that are not currently known or believed to be adverse, occur, our business, financial condition, and results of operations could suffer, the trading price and the value of your investment in, our Equity Shares could decline, and you may lose all or part of your investment. RISKS RELATING TO THE ISSUE AND OBJECTS OF THE ISSUE & RISKS MATERIAL TO THE ISSUER AND ITS BUSINESS:

ISSUE RELATED RISK

1. Risk of Illiquidity in Odd Lot Trading and Fractional Entitlements Potentially Affecting Investor Value.

Investors may be allotted equity shares in odd lots or fractional entitlements pursuant to this Issue. Currently, trading in odd lots is subject to restrictions and may not be as liquid as marketable lots, thereby potentially impacting the ability of such investors to dispose of their holdings at their desired time and price.

Further, investors holding odd lots may not derive immediate benefit from corporate actions or secondary market liquidity in the same manner as investors holding marketable lots. The benefit of consolidation of such odd lot holdings will only accrue once the Company migrates to the Main Board of the stock exchange(s), or if the National Stock Exchange of India Limited ("NSE") reduces the market lot size in the future.

Accordingly, investors subscribing to odd lots in this Issue face a risk of reduced liquidity, delayed benefit from consolidation, and potential difficulty in realizing full value of their investment until such migration or change in lot size occurs.

2. Investors will be subject to market risks until the Equity Shares credited to the investor's demat account are listed and permitted to trade.

Investors can start trading the Equity Shares allotted to them only after they have been credited to an investor's demat account, are listed and permitted to trade. Since the Equity Shares are currently traded on NSE, investors will be subject to market risk from the date they pay for the Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that the Equity Shares allocated to an investor will be credited to the investor's demat account in a timely manner or that trading in the Equity Shares will commence in a timely manner.

3. Applicants to the Issue are not allowed to withdraw or revise downwards their Bids after the Bid /Issue Closing Date.

In terms of the SEBI ICDR Regulations, applicants in the Issue are not allowed to withdraw their Bids after the

Bid/Issue Closing Date. The Allotment of Equity Shares in this Issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately seven days and up to 10 days from the Bid/Issue Closing Date. However, there is no assurance that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operations and financial condition, or other events affecting the applicant's decision to invest in the Equity Shares, would not arise between the Bid/ Issue Closing Date and the date of Allotment of Equity Shares in the Issue. The occurrence of any such events after the Bid/Issue Closing Date could also impact the market price of the Equity Shares. The applicants shall not have the right to withdraw their Bids in the event of any such occurrence. Our Company may complete the Allotment of the Equity Shares even if such events may limit the applicants' ability to sell the Equity Shares after the Issue or cause the trading price of the Equity Shares to decline

4. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see "Terms of the Issue" on page 65.

5. Our business is geographically located in one area, Mumbai, Maharashtra. Any loss or shutdown of operations at any of our facilities in this area may have an adverse effect on our business and results of operations.

Majority of our business is based in Mumbai, Maharashtra. This concentration of our business in Mumbai Metropolitan Region, subjects us to various risks, including but not limited to the following risks:

- regional natural disasters;
- vulnerability to change of policies, laws and regulations or the political and economic environment of Western Indian and mainly Mumbai;
- constraints on our ability to diversify across states;
- perception by our potential clients, that we are a regional advertising and marketing company, which hampers us from competing against other large companies at a national level.

Further, any political disruptions, natural calamities or civil disruptions, opposition and protests, particularly in locations where we operate, could adversely affect our business operations or strategy. There is no assurance that such disruption in business operations would not bring any hindrance in the functioning of our manufacturing Units. Consequently, our business, results of operations, cash flows and financial condition have been and will continue to be heavily dependent on the performance of, and the prevailing conditions affecting the advertising and marketing industry and overall economy in Mumbai and Maharashtra.

6. Investors may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will be subject to long term capital gains tax in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the stock exchanges, the quantum of gains and any available treaty exemption. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of securities transaction tax ("STT"), on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

8. It may not be possible for investors to enforce any judgment obtained outside India against us, our Promoter, Directors, or any of their directors and executive officers in India respectively, except by way of a lawsuit in India.

The Company is a limited liability company incorporated under the laws of India. Our Company's assets are primarily located in India and our Company's Promoter, and majority of the Directors and Key Managerial Personnel are residents of India. The enforcement of civil liabilities by overseas investors in the Equity Shares, including the ability to effect service of process and to enforce judgments obtained in courts outside of India may be adversely affected by the fact that the Company is incorporated under the laws of the Republic of India and majority of its executive officers and directors reside in India. As a result, it may be difficult to enforce the service of process upon the Company and any of these persons outside of India or to enforce outside of India, judgments obtained against the Company and these persons in courts outside of India. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Recognition and enforcement of foreign judgments is provided for under Section 13, 14 and Section 44A of the Code of Civil Procedure, 1908 ("Civil Code") on a statutory basis. Section 44A of the Civil Code provides that where a certified copy of a decree of any superior court, within the meaning of that Section, obtained in any country or territory outside India which the government has by notification declared to be in a reciprocating territory, may be enforced in India by proceedings in execution as if the judgment had been rendered by a district court in India. However, Section 44A of the Civil Code is applicable only to monetary decrees and does not apply to decrees for amounts payable in respect of taxes, other charges of a like nature or in respect of a fine or other penalties and does not apply to arbitration awards (even if such awards are enforceable as a decree or judgment). The United Kingdom, United Arab Emirates Singapore and Hong Kong have been declared by the government to be reciprocating territories for the purposes of Section 44A of the Civil Code. The United States has not been declared by the Government of India to be a reciprocating territory for the purposes of Section 44A of the Civil Code. A judgment of a court of a country which is not a reciprocating territory may be enforced in India only by a suit upon the judgment under Section 13 of the Civil Code, and not by proceedings in execution. Section 13 of the Civil Code provides that foreign judgments shall be conclusive regarding any matter directly adjudicated upon except: (i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or refusal to recognize the law of India in cases to which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; and/ or (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. The suit must be brought in India within three years from the date of judgment in the same manner as any other suit filed to enforce a civil liability in India. Further, there are considerable delays in the disposal of suits by Indian courts. It may be unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India. Furthermore, it may be unlikely that an Indian court would enforce foreign judgments if it viewed the number of damages awarded as excessive or inconsistent with public policy in India. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI under FEMA to repatriate any amount recovered pursuant to execution and any such amount may be subject to income tax in accordance with applicable laws. Any judgment or award in a foreign currency would be converted into Indian Rupees on the date of the judgment or award and not on the date of the payment.

9. Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such a conversion may reduce the net dividend for foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

10. Risk of Non-Compliance with Anti Money Laundering (“AML”) And KYC procedures may expose us to penalties and reputational harm.

We may not be able to detect money laundering and other illegal or improper activities fully or on a timely basis, which could expose us to additional liability. We are required to comply with applicable AML and anti-terrorism laws and other regulations in India. In the ordinary course of our operations, we run the risk of failing to comply with the prescribed KYC procedures and the consequent risk of fraud and money laundering by dishonest customers and assessment of penalties or imposition of sanctions against us for such compliance failures despite having implemented systems and controls designed to prevent the occurrence of these risks. Although we believe that we have adequate internal policies, processes, and controls in place to prevent and detect any AML activity and ensure KYC compliance, there can be no assurance that we will be able to fully control instances of any potential or attempted violation by other parties and may accordingly be subject to regulatory actions including the imposition of fines and other penalties by the RBI and other relevant governmental authorities to whom we report. If any party uses or attempts to use us for money laundering or any other illegal or improper purposes and such attempts are not detected or reported to the appropriate authorities in compliance with applicable legal requirements, our reputation could suffer and could result in a material adverse effect on our business, financial condition and results of operations.

11. Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.

The Indian securities markets are smaller and more volatile than securities markets in more developed economies. The Indian stock exchanges have, in the past, experienced substantial fluctuations in the prices of listed securities. Prices of listed securities are subject to volatility linked among other factors to the uncertainty in the global markets and the rising inflationary and interest rate pressures domestically. The governing bodies of the Indian stock exchanges have, from time to time, imposed restrictions on trading in certain securities, limitations on price movements, and margin requirements. Future fluctuations or trading restrictions could have a material adverse effect on the price of our Equity Shares

12. The Issue Price of our Rights Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.

The Issue Price of Rights Equity Share may not be indicative of the market price for our Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. There can be no assurance that the Investors will be able to sell their Equity Shares at or above the Issue Price. The factors that could affect our share price are: a) quarterly variations in the rate of growth of our financial indicators such as earnings per share; b) changes in revenue or earnings estimates or publication of research reports by analysts; c) speculation in the press or investment community; d) general market conditions; and, e) domestic and international economic, legal, and regulatory factors unrelated to our performance.

We cannot assure you that the market price of Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Issue Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholders will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

13. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Issue which would in turn affect our revenues and results of operations.

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the section titled 'Objects of the Issue' beginning on page 40. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

OBJECT RELATED RISK:

14. We have not identified any alternate source of financing the 'Objects of the Issue'. If we fail to mobilize resources as per our plans, our growth plans may be affected.

We have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue which may delay in the implementation schedule and could adversely affect our growth plans. For further details of object of Issue and schedule of implementation please refer to the chapter titled "Objects of the Issue" on page 40 of this Letter of Offer.

15. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control.

We intend to use the Net Proceeds for the purposes described in the chapter titled 'Objects of the Issue' on page 40. The funding requirements mentioned as part of the Objects of the Issue have not been independently appraised. The utilization of the funds, as stated in the chapter 'Objects of the Issue', is at the discretion of our Board of Directors. The proposed utilization of the Net Proceeds is based on our current business plan, management estimates, prevailing market conditions, and other commercial considerations, all of which are subject to change and may not be within the control of our management. Given the competitive nature of our industry, we may need to revise our business plan and/or management estimates from time to time, which could result in changes to our funding requirements. Our internal management estimates may exceed fair market value or the value that could have been determined by third-party appraisals, which may require us to reschedule, reallocate, or modify our utilization plan.

RISK MATERIAL TO THE COMPANY AND ITS BUSINESS:

16. We procure our products manufactured from third party manufacturers or suppliers. Hence, we have to rely on third parties for procuring the products sold by our Company. If these manufacturers or suppliers are unable or unwilling to manufacture our products, or if these organizations fail to comply with FDA or other applicable regulations or otherwise fail to meet our requirements, our business will be adversely affected.

Our Company is engaged in the marketing and distribution of medical and healthcare devices and accessories. We procure our products manufactured from third party manufacturers or suppliers. Hence, we have to rely on third parties for procuring the products sold by our Company. Our Company has no formal supply agreement or contract with our vendors/suppliers for the uninterrupted supply of traded or marketed products. There can be no assurance that such parties shall continuously provide their products to us or would not cater to demand of our competitors directly. We are also exposed to fluctuations in the prices of these traded/ marketed products as well as its unavailability, particularly as we typically do not enter into any long-term supply agreements with our suppliers and our major requirement is met in the spot market. In the event of any disruption in the supply or the non-availability of products, the purchase and distribution schedule may be adversely affected impacting the sales and profitability of the Company.

Further, we have launched our brand "Q-Devices", the manufacturing of which is outsourced by us to third parties and hence we have to rely on third parties for manufacturing the products, which are marketed by us under our own brand names. Any decline in the quality of products manufactured by third parties or delay in delivery of products by such parties, may adversely affect our operations. In the event the prices of such goods were to rise substantially, we may find it difficult to make alternative arrangements, on the terms acceptable to us, which could materially affect our business, results of operations and financial condition.

Furthermore, the manufacturing facilities and processes used by our vendors must be approved by the FDA or other regulatory norms and their respective regulators, where applicable, before the healthcare products manufactured by such vendor can be sold. After approval, vendors must meet certain ongoing regulatory requirements for product testing and stability of our commercially marketed products. We do not control the manufacturing processes of our vendors and depend on them to comply with current good manufacturing practices and obtain and maintain regulatory approval. If approval for a vendor is not received or ongoing testing does not continue to meet approved standards and approval is withdrawn, the vendor's production would be delayed or suspended, which could adversely affect our products commercialization efforts. In the event that any of our third-party vendors were to become unable or unwilling to continue to provide the products in our required volumes, we would need to identify and obtain acceptable replacement sources on a timely basis. There is no guarantee that we would be able to obtain such alternative sources of supply on a timely basis, if at all. An extended interruption in the supply of our products, especially any high sales volume product, could have a material adverse effect on our results of operations.

17. As the Equity Shares of our Company are listed on the NSE, our Company is subject to certain obligations and reporting requirements under the SEBI (LODR) Regulations, 2015 and comply with other SEBI Regulations. Any non-compliances/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties.

The Equity Shares of our Company are listed on NSE, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI (LODR) Regulations, SEBI Insider Trading Regulations, SEBI Takeover Regulations and SEBI Listing Regulations, to the extent applicable, and have to adhere to and comply with other applicable Regulations framed by SEBI. Though our Company has complied with the Regulations till date we cannot assure you that there will be no further actions taken or penalties or fines imposed against our Company by SEBI and/or any other regulatory authority. Further, any adverse regulatory action or development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

18. Any non-availability of technical, skilled, semi-skilled and un-skilled manpower and / or increased employee costs could negatively affect our ability to operate efficiently and result in disruptions to our operations.

Our operations are dependent on access to a large pool of technical, skilled, semi-skilled and un-skilled manpower. Our dependence on such technical, skilled, semi-skilled and un-skilled manpower may result in significant risks for **our operations, relating to the availability of such manpower. There can be no assurance that we will have adequate** access to the required manpower at reasonable rates, as and when required, or at all. As a result, we may be required to incur additional costs to ensure smooth running of our operations. Our inability to pass the increased costs to customers may impact our profitability and future growth prospects.

The availability of look-alikes, counterfeit healthcare devices, primarily in our domestic market, of the products marketed and distributed by us or our manufactured by our suppliers and passed off as our products/ products marketed by us, could adversely affect our goodwill and results of operations.

We are exposed to the risk that entities in India and elsewhere could pass off their products as ours by imitating our brand name, packaging material and attempting to create counterfeit healthcare devices, including spurious or pirated products. For example, certain entities could imitate our brand name, packaging material or attempt to create lookalike products. Similarly, we may be unable to protect our trade secrets, including product specifications, which if obtained by counterfeiters, could be used to create products that are substantially similar to ours. As a result, our market share could be reduced due to replacement of demand for our products and adversely affect our goodwill. The proliferation of counterfeit and pirated products, and the time and attention lost to defending claims and complaints about counterfeit products could have an adverse effect on our goodwill and our business, prospects, results of operations and financial condition could suffer.

19. We have not entered into long-term contracts with our major customers and typically operate on the basis of purchase orders, which could adversely impact our revenues and profitability.

We generate sales generally by our continuing relationships with our customers as we do not enter in any long-term contract with of customers. We manage a wide range portfolio of products which are being sold under our registered brand name "QDevices" and are also sold under the brand name of the manufacturers.

Our existing client relationships help us to get repeat business from our customers. This has helped us maintain a long term working relationship with our customers and improve our customer retention strategy. Through these efforts, we aim to become the "first choice vendor" for all large and small pharmaceutical and medical companies which intend to procure products and services we offer. We combine our expertise with an understanding of the

healthcare market developed through market feedback and extensive interaction with various companies. We constantly try to address customer needs with a variety of products.

However, any change in the buying pattern of our end users or disassociation of major customers can adversely affect our business. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations. Although we believe that we have satisfactory business relations with our customers and have received continued business from them in the past, there is no certainty that the same will continue in the years to come and may affect our profitability.

20. Introduction of alternative pharmaceutical products caused by changes in technology or consumer needs may affect demand for our existing products which may adversely affect our financial results and business prospects.

Our business is affected by change in technology, consumer needs, market perception of brand, convenience, health and safety norms. Our ability or our suppliers ability to anticipate such changes and to continuously develop and introduce new and enhanced products successfully on a timely basis will be a key factor in our growth and business prospects. There can be no assurance that we/ our suppliers will be able to keep pace with the technological advances that may be necessary for us/ them to remain competitive. Further, any substantial change in preference of consumers who are end users of our products will affect our customers businesses and, in turn, will affect the demand for our products. Any failure to forecast and/or meet the changing demands of pharmaceutical businesses and consumer needs may have an adverse effect on our business, profitability and growth prospects.

Additionally, our operating results and competitive position depend substantially upon our ability to continuously develop, introduce and market new and innovative products, services and platforms under our brand name "Q-Devices", to customize products and services and to anticipate and respond to market and technological changes driven by trends such as increased digitization or automation. A failure to adequately market-based or to accurately forecast customer demand and industry trends, may adversely affect our delivery of products, services and outcomes in line with our projected financial performance or cost estimates and ultimately may result in excess costs, build-up of inventory that becomes obsolete, lower profit margins and an erosion of our competitive position.

21. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition.

Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

22. Our operations are subject to high working capital requirements. Our inability to maintain an optimal level of working capital required for our business may impact our operations adversely.

Our business requires significant amount of working capital and major portion of our working capital is utilized towards debtors and inventories. Our, Trade Receivables for the period ended June 30, 2025, March 31, 2025 and March 31, 2024 were ₹ 4412.74 lakhs, ₹ 4126.69 lakhs and ₹ 4139.21 lakhs respectively and our inventories for the period ended June 30, 2025, March 31, 2025 and March 31, 2024 were ₹ 4049.83, ₹ 3927.70 lakhs and ₹ 3758.31 lakhs respectively.

The results of operations of our business are dependent on our ability to effectively manage our inventory and trade receivables. To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if our management fails to accurately evaluate the terms and conditions with our customers, it may lead to write-offs bad debts and/ or delay in recoveries which could lead to a liquidity crunch,

thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

Our inability to maintain sufficient cash flow, credit facility and other sourcing of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. In the event we are not able to recover our dues from our trade receivables or sell our inventory, we may not be able to maintain our Sales level and thus adversely affecting our financial health.

23. Our Promoter and Managing Director, Mahesh Makhija plays key role in our functioning and we heavily rely on his knowledge and experience in operating our business and therefore, it is critical for our business that our Promoter remain associated with us. Our success also depends on our key managerial personnel and our ability to attract and retain them. Any loss of our key person could adversely affect our business, operations and financial condition.

The success of our business operations is attributable to our Promoter and Directors and the key managerial team. We believe that our relation with our Promoter, who has rich experience in markets, managing customers and handling overall businesses, has enabled us to experience growth and profitability. Our Promoter, Mahesh Makhija has industry experience of around 34 years. He has been actively involved in the day to day operations and management since the incorporation of the Company. Further, our Promoter/ Directors have also promoted other companies/ firms/ ventures and may continue to do so. If they divert their attention to the other companies, we may not be able to function as efficiently and profitably as before. We may have to incur additional costs to replace the services of our Promoter or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business. The loss of service of the Promoter and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and key managerial personnel, please refer to Section “Our Management” on page 50 of this Draft LOF.

24. Substantial portion of our revenues has been dependent upon limited number of customers.

We do not have firm commitment supply agreements with most of our customers and instead rely on purchase orders to govern the volume and other terms of our sales of products. The loss of any significant client would have a material effect on our financial results. We cannot assure you that we can maintain the historical levels of business from these clients or that we will be able to replace these clients in case we lose any of them. While we are constantly striving to increase our customer base and reduce dependence on any particular customer, there is no assurance that we will be able to broaden our customer base in any future periods or that our business or results of operations will not be adversely affected by a reduction in demand or cessation of our relationship with any of our major customers.

25. Our business requires us to obtain and renew certain registrations, licenses and permits from government and regulatory authorities and the failure to obtain and renew them in a timely manner may adversely affect our business operations.

We require several statutory and regulatory permits, licenses, and approvals to operate our business. As of the current date, we confirm that all necessary permits, licenses, and registrations required for our business operations have been obtained. These documents are also confirmed to be valid and up-to-date. If we fail to maintain such registrations and licenses or comply with applicable conditions, or a regulatory authority claims we have not complied, with these conditions, our certificate of registration for carrying on a particular activity may be suspended and/or cancelled and we will not then be able to carry on such activity. This could materially and adversely affect our business, financial condition, and results of operations. For more information about the licenses required in our business and the licenses and approvals applied for, please refer “Government and Other Approvals” of this LOF, respectively.

26. Because we operate in a highly competitive industry, our revenues, profits or market share could be harmed if we are unable to compete effectively.

The segments of the industry in which we operate are subject to intense competition. Our principal competitors are other manufacturers or suppliers of the similar products we market or distribute, including other major manufacturers with well-established and recognized brands. We also compete against smaller traders and independent and local suppliers and operators. If we are unable to compete successfully, our revenues or profits may decline or our ability to maintain or increase our market share may be diminished.

We compete primarily on brand name recognition and reputation, customer satisfaction, quality of service etc. Some of our competitors are larger than we are in terms of size of operations and our competitors may also have greater

financial and marketing resources than we do, which could allow them to improve their properties and expand and improve their marketing efforts in ways that could affect our ability to compete for guests effectively. In addition, industry consolidation may exacerbate these risks.

27. Operational risks are inherent in our business as it includes rendering products and services at high quality standards. A failure to manage such risks could have an adverse impact on our business, results of operations and financial condition.

Certain operational risks are inherent in our businesses due to the nature of the industry in which we operate. Our operations are subject to various operating and business risks. Our products require proper packaging and labelling and the careful and hygienic handling of products, which if improperly packaged or handled may have an adverse impact on the health of the end users. Consequently, our business is associated with certain safety, privacy and public health concerns. Failure to effectively implement our corporate, crisis response, training and management policies and protocols and to adequately address and manage risks inherent in our business, or a failure to meet the requirements of our guests, or a failure to develop effective risk mitigation measures, could have an adverse effect on our reputation, guest loyalty and consequently, our business, results of operations and financial condition.

28. We could become liable to customers, suffer adverse publicity and incur substantial costs as a result of deficiency in our products, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.

Any deficiency in the medical and healthcare devices or products marketed and distributed by us could result in a claim against us for damages, regardless of our responsibility for such a failure or defect. We cannot assure that all our products would be of uniform quality, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity. Also, our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products, including any mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations.

29. Our Promoter Group Entities have objects similar to our Company. There are no non- compete agreements between our Company and such Promoter Group Entities. We cannot assure that our Promoter will not favor the interests of such entity over our interest or that the said entities will not expand which may increase our competition and may adversely affect business operations and financial condition of our Company.

Our Promoter Group Entities namely, Queens Marketing Services and UMC Medical Allied Services Private Limited have objects similar to our Company. We have not entered into any non-compete agreement with the said entities. We cannot assure that our Promoter/ Promoter Group who has common interest in said entities will not favour the interest of the said entity. As a result, conflicts of interests can arise on account of common suppliers/ customers and in allocating business opportunities amongst our Company and our Promoter Group entity in circumstances where our respective interests diverge. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations.

30. We are subject to risks arising from interest rate fluctuations, which could adversely affect our results of operations, planned expenditures and cash flows.

As of June 30, 2025, a part of our indebtedness was at floating interest rates. If the interest rates of our existing or future borrowings increase significantly, our cost of funds will increase. A further increase in interest rates (or the current high interest rate environment not changing) may have an adverse effect on our results of operations and financial condition. While we could consider refinancing the loan or hedging interest rate risks in appropriate cases, there can be no assurance that we will be able to do so on commercially reasonable terms, that our counterparties will perform their obligations, or that these agreements, if entered into, will protect us adequately against interest rate risks. Further, if such arrangements do not protect us adequately against interest rate risks, they would result in higher costs.

31. We have referred to the data derived from internal Company reports and industry and government publications, publicly available information, and sources.

Unless stated otherwise, industry and market data used throughout this Draft LOF has been obtained or derived from internal Company reports and industry and government publications, publicly available information, and sources. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed, and their reliability cannot

be assured. Although, our Company believes that industry data used in this Draft LOF is reliable, it has not been independently verified. Further, the extent to which the industry and market data presented in this Draft LOF is meaningful depends on the reader's familiarity with and understanding of, the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

32. Our inability to manage growth could disrupt our business and reduce our profitability.

A principal component of our strategy is to continue to grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial, and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values, and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition, and adversely affect our results of operations.

33. Certain filings of our Company under the Companies Act have been filed post the prescribed date of filing. There may also be certain inadvertent errors in these filings.

Certain filings of our Company under the Companies Act, have been filed post the prescribed date of filing under the Companies Act. There may also be instances where there are inadvertent errors in secretarial records and filings which have been rectified by us. We cannot assure you that these filings and errors will not be subject to any penalties imposed by the relevant authority in this respect.

34. Our results of operations are likely to vary from year to year and be unpredictable, which could cause the market price of the Equity Shares to be volatile.

Our results of operations in any given year can be influenced by a number of factors, many of which are outside of our control and may be difficult to predict, including:

- maintaining high levels of customer satisfaction;
- costs relating to our operations;
- adhering to our high quality and process execution standards;
- pricing policies introduced by our competitors;
- the timing and nature of, and expenses incurred in, our marketing efforts;
- recruiting, training, and retaining sufficient skilled technical and management personnel;
- developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, and other internal systems;

Also, please refer “Management's Discussion and Analysis of Financial Condition and Results of Operations” on page 180 for details on the factors affecting our financial results. All of these factors, in combination or alone could negatively impact our revenues and may cause significant fluctuations in our results of operations. This variability and unpredictability could materially and adversely affect our results of operations and financial condition.

35. We have in the past entered into related party transactions and may continue to do so in the future.

Our Company has undertaken related party transactions with our Promoters, Promoter Group, Group Entities, and Directors. We confirm that all such transactions have been conducted in compliance with Section 188 of the Companies Act, 2013, read with Rule 15 of the Companies (Meetings of Board and its Powers) Rules, 2014, and the applicable provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. We confirm that we remain committed to ensuring continued compliance with all statutory requirements for related party transactions in future, as we have diligently adhered to such norms in the past. We further confirm that related party transactions entered into the past have been conducted on an arm's length basis and are in compliance with all applicable laws and regulations.

36. Any variation in the utilization of the Net Proceeds as disclosed in this Draft LOF shall be subject to certain compliance requirements, including prior Shareholders' approval.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft LOF without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations. Further, our

Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Offer as prescribed in the SEBI (ICDR) Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Offer to use any unutilized proceeds of the Offer, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition, and may adversely affect our business and results of operations.

37. Our funding requirements and deployment of the Offer Proceeds are based on management estimates and have not been independently appraised by any bank or financial institution.

Our funding requirements and the deployment of the proceeds of the Offer are based on management estimates and our current business plan. The fund requirements and intended use of proceeds have not been appraised by bank or financial institution and are based on our estimates. In view of the competitive and dynamic nature of our business, we may have to revise our expenditure and fund requirements as a result of variations including in the cost structure, changes in estimates and other external factors, which may not be within the control of our management. This may entail rescheduling, revising, or cancelling the planned expenditure and fund requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our board. In addition, schedule of implementation as described herein are based on management's current expectations and are subject to change due to various factors some of which may not be in our control. The utilization of issue proceeds will be done in compliance with all applicable laws and regulations.

38. We have paid dividend of 5% for the Financial Year 2023-24 and Financial Year 2024-25 and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.

Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors.

39. Our Promoters and members of the Promoter Group will continue to jointly retain majority control over our Company after the Rights Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

Our Promoters are committed to act in the best interests of the shareholders and will not undertake any actions that may adversely affect or impede the interests of the shareholders of the Company. Even after the completion of this Rights Issue, the Promoters and Promoter Group will hold the majority stake and will have the ability to control our business, including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends, and the election or termination of appointment of our officers and directors. This control could delay, defer, or prevent a change in control of the Company, impede a merger, consolidation, takeover, or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company.

40. Our Promoter and members of Promoter Group have mortgaged their personal properties and provided personal guarantees for our borrowings to secure our loans. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected by the revocation of all or any of the personal guarantees provided by our Promoter and members of Promoter Group in connection with our Company's borrowings.

Our Promoter and Managing Director, and our Promoter Group have mortgaged their personal properties and provided personal guarantees for our borrowings to secure our loans. If any of these guarantees are revoked, our lenders may require alternative guarantees or collateral or cancellation of such facilities, entailing repayment of amounts outstanding under such facilities. If we are unable to procure alternative guarantees satisfactory to our lenders, we may need to seek alternative sources of capital, which may not be available to us at commercially reasonable terms or at all, or to agree to more onerous terms under our financing agreements, which may limit our operational flexibility. Accordingly, our business, financial condition, results of operations, cash flows and prospects may be adversely affected by the revocation of all or any of the personal guarantees provided by our Promoter and Promoter Group in connection with our Company's borrowings.

41. Our insurance coverage may not adequately protect us against all material hazards and the policies do not cover all risks. In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.

Our business could suffer damage from fire, natural calamities, misappropriation or other causes, resulting in losses, which may not be fully compensated by insurance. We maintain insurance for burglary policy and standard fire and special perils policy, which provides insurance cover against loss or damage by fire, earthquake, terrorism etc. and also, which we believe, is in accordance with customary industry practices. Our insurance policies, however, may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. Further, with respect to the insurances maintained by us, we cannot assure you that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. Further, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. To the extent that we suffer loss or damage, or successful assertion of one or more large claims against us for events for which we are not insured, or for which we did not obtain or maintain insurance, or which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, financial performance and cash flows could be adversely affected.

42. Any further issuance of Equity Shares by Our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.

Any future issuance of Equity Shares by our Company could dilute the investors' shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares, and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

43. We may decide not to proceed with this Issue at any time before the announcement of the Record Date.

The Company reserves the right not to proceed with this Issue at any time before the announcement of the record date. However, if we withdraw the rights issue after announcing the record date, we will not be eligible to make an application for listing of any of its specified securities on any stock exchange for a period of twelve months from the record date announced under provisions of Regulation 68 of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the “automatic route”, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “government route”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“FDI”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“DPIIT”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the consolidated FDI Policy Circular of 2020 (‘FDI Circular 2020’), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that:

- (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations;
- (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and
- (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue. Our Company will not be responsible for any allotments made by relying on such approvals.

Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB

is required not to be under the adverse notice of RBI and in order to apply for this issue as an incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
