Detailed rationale

Due to inadequate information and in line with the Securities and Exchange Board of India guidelines, Crisil Ratings had migrated the ratings on the bank facilities of MMP Industries Ltd (MMPIIL; part of the MMPIIL group) to 'Crisil BBB+/Stable/Crisil A2 Issuer Not Cooperating'. However, the company's management has subsequently shared the information necessary for a comprehensive review of the ratings. Consequently, Crisil Ratings is migrating the ratings to '**Crisil BBB+/Stable/Crisil A2**'.

The ratings reflect the established position of the group and the extensive experience of the promoters in the aluminium powder products industry, an established clientele, efficient working capital management and a healthy financial risk profile. These strengths are partially offset by vulnerability to volatility in raw material prices.

Analytical approach

Crisil Ratings has combined the business and financial risk profiles of MMPIIL and its subsidiaries. This is because these entities, collectively referred to as the MMPIIL group, are strategically important to, and have significant operational linkages with, MMPIIL.

Please refer Annexure - List of entities consolidated, which captures the list of entities considered and their analytical treatment of consolidation

Key rating drivers - Strengths

Established market position and healthy clientele: The group has diversified presence in aluminium powder, aluminium foils and conductor cables, and an established clientele consisting of UltraTech Cement Ltd, Shree Cement Ltd, Torrent Pharmaceuticals Ltd and Cadila Pharmaceuticals Ltd. Owing to diversified presence and well-established clientele, operating income is estimated to have grown by around 20% on-year in fiscal 2026 from Rs 691 crore in fiscal 2025.

Extensive experience of the promoters: The promoters have been in the aluminium powder products industry for over three decades. Arun Bhandari, the key promoter, is a chemical engineer and has significant technical expertise and capabilities. Over the years, the promoters have upgraded technology through continuous research and development and leveraged this to build a strong clientele.

Efficient working capital management: The working capital cycle is managed efficiently, as reflected in gross current assets (GCAs) of around 126 days as on March 31, 2025, as against 109 days a year earlier. The GCAs are estimated to

have increased slightly as on March 31, 2026. While receivables were small at 48 days as on March 31, 2025, inventory was large at 78 days. The GCAs are likely to improve over the medium term.

Healthy financial risk profile: Capital structure is supported by healthy networth and low total outside liabilities to adjusted networth ratio of Rs 323 crore and 0.70 time, respectively, as on March 31, 2025, which are estimated at similar levels as on March 31, 2026. Debt protection metrics were comfortable, as reflected in interest coverage and net cash accrual to adjusted debt ratios of 6.78 times and 0.28 time, respectively, in fiscal 2025 and are estimated to be slightly lower in fiscal 2026 owing to increase in finance cost. The group has planned solar expansion which will cut energy cost and boost the operating margin, which will be partially funded. Furthermore, it is expected to enhance its cable range to include low tension (LT) power in phases in the subsidiary, MMP Cables Pvt Ltd, which will entail capital expenditure (capex) of Rs 85-90 crore over the next 2-3 years. The first investment of Rs 40 crore will be made in fiscals 2027 and 2028, which will be partly debt-funded. The financial risk profile will likely remain healthy over the medium term despite debt-funded capex over the medium term.

Key rating drivers - Weaknesses

Vulnerability to volatility in raw material prices: Cost of raw material, such as aluminium ingots and foils, accounts for 75-80% of sales; the prices of raw materials are volatile and governed by demand-supply dynamics. The group is able to pass on increase in prices with lag of 3-4 months. The operating margin was 6.55-9.29% over the three fiscals through 2025 and is estimated to be slightly lower in fiscal 2026 from fiscal 2025 level owing to higher input costs, direct and indirect costs from the fire incident resulting in extraordinary expenses of Rs 17.3 crore, and higher operational costs in the subsidiary MMP Electricals Ltd owing to initial years of operation. The operating margin is likely to improve over the medium term with higher capacity utilisation and backward integration in wire rod manufacturing, which is expected to lower external dependence and ensure stable supply chain. Improvement in the operating margin over the medium term will remain monitorable.

Liquidity Adequate

Expected cash accrual of Rs 31-50 crore per fiscal will comfortably cover yearly debt obligation of Rs 8-15 crore over the medium term. Fund-based bank limit was utilised 89% on average during the 12 months through March 2026. Current ratio was healthy at 1.38 times as on March 31, 2025. Cash and bank balance was Rs 10.95 crore as on that date.

Outlook Stable

Crisil Ratings believes MMPIL will continue to benefit from its established market position and the extensive experience of the promoters.

Rating sensitivity factors

Upward factors:

- Steady growth in revenue, backed by volume growth, and stable operating margin leading to cash accrual above Rs 40 crore
- Sustained working capital cycle and financial risk profile

Downward factors:

- Decline in volume sales leading to fall in revenue or operating margin, resulting in net cash accrual of less than Rs 20 crore
- Stretched working capital cycle or any large, debt-funded capex weakening the financial risk profile and liquidity

About the group

MMPIL was incorporated in 1984 by Arun Bhandari and P M Lodha. Based in Nagpur, Maharashtra, the company manufactures aluminium-based products such as pyro and flake aluminum powder, atomised aluminium powder, aluminium paste and aluminium conductors. It is listed on the National Stock Exchange of India Ltd.

MMP Electricals Pvt Ltd, a wholly owned subsidiary, manufactures composite insulators. It started commercial production in phase 1 in fiscal 2026.

MMP Cables Pvt Ltd is a wholly owned subsidiary. It is setting up a greenfield low voltage power cable and covered conductor facility at Umred MIDC.

MMP Alutech Pvt Ltd is wholly owned subsidiary and has no operations as on date.

About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
