

Rating Rationale

June 01, 2026 | Mumbai

Man Industries India Limited

Long-term rating upgraded to 'Crisil A+/Stable'; Short-term rating reaffirmed

Rating Action

Total Bank Loan Facilities Rated	Rs.3120 Crore
Long Term Rating	Crisil A+/Stable (Upgraded from 'Crisil A/Stable')
Short Term Rating	Crisil A1 (Reaffirmed)

Note: None of the Directors on Crisil Ratings Limited's Board are members of rating committee and thus do not participate in discussion or assignment of any ratings. The Board of Directors also does not discuss any ratings at its meetings.

1 crore = 10 million

Refer to Annexure for Details of Instruments & Bank Facilities

Detailed Rationale

Crisil Ratings has upgraded its rating on the long-term bank loan facilities of Man Industries India Limited (MIIL) to '**Crisil A+/Stable**' from 'Crisil A/Stable'. The short-term rating has been reaffirmed at 'Crisil A1'.

The upgrade reflects a significant improvement in MIIL's business risk profile following the strategic acquisition of National Pipe Company (NPC), Saudi Arabia, which was completed on May 21, 2026. This acquisition is expected to significantly improve MIIL's scale of operations by over 50-60% and operating profit before depreciation, interest, and tax (OPBDIT) margins to around 14-15% (12.3% in fiscal 2026). It will also enhance geographic diversification and add 430,000 metric tonnes (MT) of LSAW/HS AW capacity in Saudi Arabia. NPC, which was acquired at an attractive valuation of 1.5x EV/Ebitda, is expected to be revenue and earnings accretive from day one, given its fully operational status. The acquisition will also provide MIIL with an immediate entry into the growing Saudi Arabian market.

The upgrade also factors in the improvement in MIIL's operating performance, supported by OPBDIT margins improving to 12.3% in fiscal 2026, from 8-10% in the past, driven by better product mix focused on exports and value-added products.

The NPC acquisition, valued at Rs 1,000 crores (USD 102 million), was funded through a mix of debt (USD 70 million) and equity (USD 32 million). Despite the incremental debt, MIIL's financial risk profile is expected to remain comfortable, with gearing of around 0.6-0.7 times and a Total Outstanding Loans to Tangible Net Worth (TOL/TNW) ratio of 2-2.2 times in fiscal 2027, as against 0.25 times and 1.45 times, respectively, in fiscal 2026. Liquidity is expected to remain strong, with net cash accruals of over Rs 450 crores against repayment obligations of Rs 240-250 crores.

The ratings continue to reflect MIIL's established market position in the submerged arc welding (SAW) pipes industry, along with a healthy financial risk profile. These strengths are partially offset by the integration risks associated with the NPC acquisition, the working capital-intensive nature of operations, and the company's susceptibility to cyclicity in end-user industries, along with volatility in raw material prices and foreign exchange (forex) rates.

Analytical Approach

For arriving at its ratings, Crisil Ratings has consolidated MIIL and its wholly owned subsidiaries - Man USA INC, and Man Overseas Invest FZCO, Merino Shelters Private Limited, Man Offshore and Drilling Limited, Man International Steel Industries Company (MISIC) and Man Stainless Steel Tubes Limited as there are financial fungibilities between the companies. The entities are collectively referred to as the Man group. The subsidiaries are strategic to MIIL in view of their strong integration with its operations.

Please refer Annexure - List of Entities Consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers - Strengths

Improved business risk profile following acquisition of NPC:

On 21st May 2026, MIIL acquired 100% stake in National Pipe Company (NPC), a Saudi Arabia based, API certified large pipe manufacturer, through its wholly owned subsidiary Man International Steel Industries Company (MISIC) for a total consideration of ~Rs 1000 crores (USD 102 million). NPC is a debt free company and has recorded revenues of Rs 2000 crores (USD 211 million) and OPBDIT margins of 25% in CY25.

NPC with its installed manufacturing capacity of 4,30,000 MTPA of HSAW and LSAW pipes, will increase MIIL's combined group capacity to ~ 16,00,000 MTPA and will position MIIL's positioning as one of the larger pipe manufacturing groups in India and the Middle East.

The acquisition will enable MIIL to directly participate in Saudi Arabia's growing demand for uncoated pipelines across oil and gas, water transmission, desalination, and industrial projects. This is significant given the scale of infrastructure investment under Saudi Vision 2030 and the Saudi's expanding energy and water infrastructure program. MIIL is also in process of setting up a coating plant in Saudi Arabia (expected to be completed by March – 2027) thereby making MIIL a fully integrated player in Saudi Arabia and enhancing its product offering and margins going forward.

NPC has maintained a longstanding relationship of over two decades with Saudi Aramco, one of the world's largest oil producers and is on the approved vendor list of Saudi Aramco and its EPC contractors, Saudi Water Authority (SWA), Saudi Water Partnership Company (SWPC), Water Transmission & Technologies Co. (WTTTCO), Kuwait Oil Company (KOC), Qatar Petroleum etc. The breadth of this clientele provides significant revenue stability and reduces counterparty concentration risks

Established position in the SAW pipes industry:

The domestic pipes industry is consolidated, with the top four players accounting for approximately 80% of capacity. Limited competition is due to the large capital requirements and the necessity to have critical accreditations and customer approvals. MIIL is one of the largest SAW pipe players in India, with over 30 years of operations, and produces both helically submerged arc welded (HSAW) and longitudinal submerged arc welded (LSAW) pipes. It has been manufacturing SAW pipes, branch pipes, and coatings since 1995

MIIL had also set up a 175,000 MT capacity ERW plant in Fiscal 2024, which enabled it to cater to the small diameter pipes space. With its upcoming 20,000 MT stainless steel tubes plant in Jammu (expected to be completed by September 2027), MIIL's customer base and revenue profile are expected to broaden further. However, the commissioning and ramp-up of this plant remain monitorable.

MIIL's operating performance continues to remain healthy, with revenue of Rs 3,564 crores and margins of 12.3% in Fiscal 2026, compared to Rs 3,507 crores and 9.6% in the previous year. OPBDIT margins improved by approximately 275 basis points in Fiscal 2026, driven by a better product mix focused on exports and value-added products. The revenue growth prospects for the India business continue to remain strong, supported by a healthy order book of approximately Rs 3,000 crores (execution timeline of 6-8 months) and the expected ramp-up of the upcoming plants."

Healthy financial risk profile:

The financial risk profile is expected to remain healthy, despite debt funded acquisition of Rs 1000 crores and upcoming capex of ~ Rs 600 crores, supported by a sizeable adjusted networth of Rs 2017 crores in fiscal 2026. Gearing is expected to increase temporarily but nonetheless remain comfortable at 0.6-0.7 times in fiscal 2027 (0.25 times as on March 31, 2026).

TOL/TNW is expected to peak to 2-2.2 times respectively in fiscal 2027 (1.45 times in fiscal 2026), while interest coverage which stood at ~3.1 times in fiscal 2026 is expected to improve to ~3.3-4 times over the medium term supported by higher profitability.

Liquidity is expected to remain healthy over the medium term, as expected cash accruals of over Rs 450 crores is expected to comfortably meet the yearly debt obligation of Rs 230-240 crores. The company's ability to manage the incremental working capital requirement while maintaining comfortable debt coverage ratios remains crucial, given the moderate-to-high utilisation of the fund-based limit.

Key Rating Drivers - Weaknesses

Susceptibility to cyclicality in end-user industries and to volatility in raw material prices and forex rates:

The Man group has historically derived majority of the revenue from the oil and gas segment and the remaining from the water and irrigation segment. Slowdown in the oil and gas industry because of a significant decline in crude prices impacted operations in the past. Strong demand from new projects in the oil and gas segment in key markets of India and the Middle East is critical for improvement in overall operations. Any major and continued slowdown in end-user industries will weaken demand for line pipes and impact performance.

Furthermore, operations remain exposed to government policies and preferences with respect to factors such as local supply and trade duties. Consequently, the group's order inflow and operating performance are highly linked to the demand prospects from these sectors. Moreover, there is a lead time of 2-4 months between the application and the final award of a tender. Because these contracts are of a fixed-priced nature, the Man group cannot pass on increases in input costs to customers after applying for the tender.

The company is also exposed to forex functions as reflected by the forex losses incurred by the company during fiscal 2023 and fiscal 2026. The company hedges its forex exposures, thereby mitigating the risk.

Working capital-intensive operations:

Gross current assets have been around 200 days in the past, driven by debtors of over 100 days. However, in the past two years, inventory and debtor days have remained stretched. In Fiscal 2025, working capital was impacted due to several factors, including a delay in the execution of a Taiwan order, which led to inventory buildup. The execution of this order was completed in Q1 of Fiscal 2026. In Fiscal 2026, inventory and debtor days increased to approximately 180 and 128 days, respectively, due to the Middle East conflict, which hindered the delivery of ships to the United Arab Emirates. However, working capital levels are expected to normalize in the current fiscal year, as MIIL has received approval to deliver the shipment to the eastern port of UAE - Fujairah port.

Also, concentration in receivables renders MIIL susceptible to steady increase in the working capital requirement, and hence, remains a key monitorable. As of March 31, 2026, out of the total debtors of Rs 1,250 crores, Rs 109 crores remained under arbitration. According to the company, this amount has a high chance of recoverability.

Integration risks associated with large acquisition:

The acquisition of a NPC, a large overseas manufacturing company, presents integration challenges, including operational alignment, management bandwidth, and timely ramp-up of the combined platform. While MIIL's management has articulated a clear strategy for integrating NPC's operations, the company's ability to realize the anticipated synergies remains a key monitorable.

Liquidity Strong

Liquidity is aided by moderate fund-based working capital lines utilization and internal cash accruals; the company also avails need-based project-specific limits. MIIL is expected to earn NCA of Rs 450 crores to Rs 580 crores against repayments of Rs 230-250 crores each year in the next 3 fiscals. The working capital limit of over Rs 2180 crore (fund based Rs 310 and non-fund-based limits of Rs 1870 crores) were utilized ~77% on average over the 11 months through April 2026. Cash and cash equivalents were around Rs 657 crores (unencumbered of ~Rs 300 crores) as on March 31, 2026. Crisil Ratings expects internal accrual, cash & cash equivalents, and unutilized bank lines to be sufficient to meet repayment obligations as well as incremental capex requirements.

Outlook Stable

Crisil Ratings believes that MIIL's credit profile will sustain in the medium term driven by healthy order book position and operating margins.

Rating sensitivity factors**Upward factors**

- Improved operating performance leading to operating margin of above 13-14%.
- Improvement in business risk profile aided by diversification of product profile.
- Considerable improvement in liquidity on account of realization of non-current assets / non-core investments.

Downward factors

- Weak operating performance resulting in a fall in operating margins below 10%.
- Weakening of scale owing to reduction in scale of operations and substantial reduction in outstanding order book
- Deterioration in financial risk profile due higher than expected debt funded capex or any support provided to non-business-related entities.
- Any liability due to SEBI audit observations impacting the business or financial risk profile of the company.

About the Company

MIIL is one of the largest SAW pipe players in India with combined capacity of 11.75 lakh tonne per annum, distributed equally between HSAW and LSAW and ERW. Incorporated in 1988, it commenced operations with the production of aluminum extrusion products. In 1995, it diversified into manufacturing SAW pipes. In March 2008, MIIL bought 55% stake in Man Infraprojects Pvt Ltd (Man Infraprojects), which undertook real estate development and increased its stake to 100% after acquiring the promoter shareholding in September 2011. In September 2013, MIIL announced a restructuring of its businesses. As part of the arrangement, with effect from April 1, 2014, Man Infraprojects was hived off from MIIL.

Annexure: List of instruments and names of regulators of the instruments

As required by SEBI CRA Circular dated Feb 10, 2026, a list of activities or instruments falling under the purview of various FSRs, along with the names of respective FSRs, is being disclosed below:

A. Rating activities

Sr. No.	Instrument / activity Name	Regulator of the instruments
1	Listed/Proposed to be listed bonds/debentures/preference share (all securities)	SEBI
2	Unlisted/Proposed to be unlisted Bonds/Debentures/ Preference share (all securities)	MCA
3	Listed PTCs / Securitisation Notes (originated by entities regulated by RBI)*	SEBI
4	Listed PTCs / Securitisation Notes (originated by entities not regulated by RBI)*	SEBI
5	Unlisted PTCs / Securitisation Notes (originated by entities regulated by RBI)*	RBI
6	Listed Commercial Paper and NCDs with original maturity less than 1 year	RBI
7	Unlisted Commercial Paper and NCDs with original maturity less than 1 year	RBI
8	Loan Facilities (Fund/Non-Fund Based) from Bank/NBFCs/NHB/FIs ^	RBI
9	External Commercial Borrowings and other similar borrowings	RBI
10	Certificates of Deposit	RBI
11	Fixed Deposits raised by NBFC's, Banks, HFCs, Fis	RBI
12	Fixed Deposits raised by corporates other than NBFCs, Banks, HFCs, FIs	MCA

13	Inter Corporate Deposits/Loans extended by Corporates	MCA
14	Borrowing programme ~	-
15	Issuer Ratings #	-
16	Credit Ratings for Capital Protection Oriented Schemes (by Mutal Funds and AIFs)	SEBI
17	Credit quality ratings (CQRs) for Mutual Fund Schemes and Schemes of AIFs	SEBI
18	Listed Security Receipts	SEBI
19	Unlisted Security Receipts	RBI
20	Independent Credit Evaluation (ICE)	RBI
21	Expected Loss Ratings (for Loan Facilities (Fund/Non-Fund Based) from Bank/NBFCs/NHB/Fis)	RBI
22	Expected Loss Ratings (Listed/Proposed to be listed bonds/debentures/preference share (all securities))	SEBI
23	Expected Loss Ratings (Unlisted/Proposed to be unlisted Bonds/Debentures/Preference share (all securities))	MCA
24	Unlisted PTCs / Securitisation Notes (originated by entities not regulated by RBI) *	Investor-side regulator such as IRDAI, PFRDA @

* Includes securitisation transactions involving assignee payout, acquirer's payout.

~ The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, commercial paper (listed or otherwise), etc. The regulator of the instrument may accordingly be SEBI, RBI or MCA and can only be determined upon issuance. In PRs subsequent to issuance(s), Crisil Ratings Limited shall separately capture the rated quantum details along with names of respective regulators.

^ Includes bank facilities such as liquidity facility, second loss facility that are part of securitisation transactions.

There is no instrument being rated and hence, Regulator of the Instrument is not applicable. The rating scale and definitions are being followed as stipulated in SEBI Master Circular for CRAs.

@ These ratings were assigned during regulatory regime prior to introduction of SEBI CRA Circular dated Feb 10, 2026 and the investor side regulators have accordingly been included.

Note: Kindly note that for activities or instruments falling under the purview of FSRs other than SEBI, the grievance/dispute redressal mechanisms and investor protection mechanisms provided by SEBI shall not be available.

About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").

Crisil Ratings may receive compensation for its ratings and certain credit-related analyses, normally from issuers or underwriters of the instruments, facilities, securities or from obligors.

Crisil Ratings has in place a ratings code of conduct and policies for managing conflict of interest. For more detail, please refer to: <https://www.crisilratings.com/en/home/our-businesses/ratings/regulatory-disclosures/highlighted-policies.html>. Public ratings and analysis by Crisil Ratings, as are required to be disclosed under the Securities and Exchange Board of India regulations (and other applicable regulations, if any), are made available on its websites, www.crisilratings.com and <https://www.ratingsanalytica.com> (free of charge). Crisil Ratings shall not have the obligation to update the information in the Crisil Ratings report following its publication although Crisil Ratings may disseminate its opinion and/or analysis. Reports with more detail and additional information may be available for subscription at a fee. Rating criteria by Crisil Ratings are available on the Crisil Ratings website, www.crisilratings.com. For the latest rating information on any company rated by Crisil Ratings, you may contact the Crisil Ratings desk at crisilratingdesk@crisil.com, or at (0091) 1800 267 3850.

Crisil Ratings shall have no liability, whatsoever, with respect to any copies, modifications, derivative works, compilations or extractions of any part of this [report/ work products], by any person, including by use of any generative artificial intelligence or other artificial intelligence and machine learning models, algorithms, software, or other tools. Crisil Ratings takes no responsibility for such unauthorized copies, modifications, derivative works, compilations or extractions of its [report/ work products] and shall not be held liable for any errors, omissions of inaccuracies in such copies, modifications, derivative works, compilations or extractions. Such acts will also be in breach of Crisil Ratings' intellectual property rights or contrary to the laws of India and Crisil Ratings shall have the right to take appropriate actions, including legal actions against any such breach.

Crisil Ratings uses the prefix 'PP-MLD' for the ratings of principal-protected market-linked debentures (PPMLD) with effect from November 1, 2011, to comply with the SEBI circular, "Guidelines for Issue and Listing of Structured Products/Market Linked Debentures". The revision in rating symbols for PPMLDs should not be construed as a change in the rating of the subject instrument. For details on Crisil Ratings' use of 'PP-MLD' please refer to the notes to Rating scale for Debt Instruments and Structured Finance Instruments at the following link: <https://www.crisilratings.com/en/home/our-business/ratings/credit-ratings-scale.html>
