Encl.: As mentioned above

For immediate release

**KP Group, in collaboration with Fabtech Group, announces a global alliance to build next-generation green infrastructure across the pharma, biotech, and healthcare sectors.**

**Surat, India, October 28, 2025:**

KP Group, a leading renewable energy conglomerate through its flagship companies, has entered into a Memorandum of Understanding (MoU) with Fabtech Group to collaboratively develop and implement green energy powered life sciences projects globally. Under this partnership, all such projects executed by Fabtech Group (conventional/stick-built) will be powered by clean, renewable energy supplied by KP Group across the world.

Under this strategic collaboration, KP Group will provide and integrate solar, wind, hybrid, Battery Energy Storage System (BESS) and green hydrogen-based power solutions for Fabtech Group's conventional, pharma, biotech and healthcare solutions. The initiative aims to create a new generation of sustainable, and low-carbon digital ecosystems - **worldwide**.

Both groups will work together to design and deploy green-powered pilot and demonstration projects and explore commercial rollouts and global deployment opportunities for renewable-energy-based infrastructure. The partnership represents a significant step towards carbon-neutral digital transformation and aligns with our commitment to sustainable infrastructure development.

*"This collaboration marks another milestone in KP Group's vision of driving sustainability through innovation. By integrating our renewable energy capabilities with Fabtech Group's Life science projects, we aim to enable greener and more efficient digital infrastructure for the future,"* said **Dr. Faruk Patel, Founding Promoter KP Group**.

Commenting on the partnership, **Mr. Aasif Ahsan Khan, Founding Promoter, Fabtech Group**, said, *"Through this Partnership we are uniting renewable energy with our conventional turnkey solutions and innovations at scale. Together KP Group and Fabtech Group are redefining how global advance and life science facilities are built – faster, cleaner and smarter."*

*"This partnership is not just a collaboration; it's a convergence of energy and innovation"*

The MoU establishes a framework for both groups to jointly explore opportunities in India, the Middle East, and Africa, focusing on sustainability, digitalisation, and renewable-powered data infrastructure.

This collaboration reinforces the shared vision of KP Group and Fabtech Group in driving innovation that bridges the renewable energy and Healthcare sectors, contributing to the global movement toward net-zero and sustainable growth.

## About KP Group

Established in 1994, by Dr. Faruk G. Patel, KP Group has grown into a multi-faceted conglomerate with core expertise in renewable energy, infrastructure, and innovation. Over the past three decades, the group has championed sustainability by spearheading transformative projects in wind, solar, hybrid

energy, Battery Energy Storage System (BESS) and green hydrogen, thereby contributing to India's green energy mission. With a strong portfolio of renewable energy projects, KP Group has earned a reputation as a trusted partner for companies committed to reducing their carbon footprint. The group remains steadfast in its mission to contribute meaningfully to India's energy transition while setting new benchmarks in the renewable energy sector.

#### About Fabtech Group

Fabtech Group is an international turnkey solutions provider for Lifesciences, Healthcare, and cleanrooms for Advanced Technology sectors. With operations across MENA and GCC. Together supporting the world's transition toward sustainable, high-performance industrial ecosystems.
