Fabtech Technologies Limited Secures ₹52 Crore Contract to Build Next-Generation Veterinary Formulations Facility in North Africa

Mumbai, November 03, 2025 – Fabtech Technologies Limited (FTL), a global turnkey solutions provider to the life sciences and healthcare sectors, has secured a ₹52 crore project to establish a veterinary medicines manufacturing facility in the Maghreb region.

Transforming Veterinary Manufacturing in the Maghreb Region

The project covers complete design, engineering, cleanroom systems, utilities, and process equipment for a modern veterinary dosage manufacturing plant. With this order, FTL's cumulative order book now stands at ₹983.05 crore, enhancing revenue visibility and reinforcing momentum in international markets.

FTL continues to expand across human and animal healthcare and biotech, leveraging its in-house design, manufacturing, and automation capabilities.

The Maghreb region is witnessing strong growth, driven by rising demand for livestock and companion animal health products. Increasing focus on animal health management and disease prevention is fueling market expansion, creating significant opportunities for FTL's turnkey solutions, supporting future projects, and opening new avenues for regional growth.

The veterinary formulation TAM in the Maghreb is projected to reach USD 500–700 million by 2030, driven by growing demand, food security goals, and rising exports North Africa.
