INTRODUCTION ...

THE MARKET: A STRUCTURAL SHIFT, NOT A CYCLICAL UPTURN

India's commercial real estate market just recorded its highest-ever gross leasing volume. That number is not the story. The story is why, and what it has permanently changed about the way enterprise India thinks about the spaces where its people work.

In CY2025, India's office market absorbed 82.6 million square feet of gross leasing, a 25% year-on-year increase and an all-time national record. In Q1 2026, absorption reached ~21.9 million square feet, the best single quarter on record, with GCCs, BFSI, and flex operators together accounting for over 75% of incremental demand across the top six cities.

Within this expanding market, the flexible workspace segment has moved from a peripheral product category to a dominant strategic format. Flex operators captured 21% of the overall office market in 2025 and 18 to 21% of gross leasing in Q1 2026. India's total flex stock stood at approximately 110 million square feet in early 2026 and is projected to reach 125 million square feet by CY2027.

Two forces are driving this structural shift. The first is the GCC imperative: India now hosts 2,100+ Global Capability Centres employing more than 2.36 million professionals. GCCs and the Technology sector together accounted for 38% of

office leasing in 2025. These organisations require environments that are brand-compliant, technology-integrated, and scalable across cities, requirements that the traditional long-term lease cannot serve with the agility they demand. The second is the modern workforce: professionals who need spaces designed for deep focus and open collaboration, located closer to where they live, and built around human wellbeing and not just occupancy efficiency. Together, these forces have made purpose-designed, managed flexible workspace the rational first choice for enterprise India.

AWFIS GROWTH

FY 2025-26 is Awfis' third year as a listed company and its most telling. Not because of any single metric, but because of what the full picture reveals: a platform where every expansion decision, every product launch, and every new city entry was made before the market demanded it, not in response to it. This is what Designed with Purpose, Defined by Growth means in practice. The objective is the decision-making framework. Growth is its measurable, auditable consequence.

When GCC demand for premium, brand-compliant environments intensified, Awfis had already

launched Elite by Awfis, a workspace format built specifically for Global Capability Centres and multinationals, featuring Private Alcoves, Lounges, Biophilic Pods, Zen Rooms, and Executive Suites, with concierge-level service standards and LEED and WELL-aligned design principles embedded from the first brief. These are not aesthetic choices. They are evidence-based design decisions: WELL-certified workspace principles are linked to measurable improvements in cognitive performance, retention, and workforce wellbeing; outcomes that matter to every CXO evaluating a workspace partner.

When enterprise India began looking beyond the top six metros, Awfis had already established its Tier II centres in Lucknow, Kochi, Guwahati, Ahmedabad, Indore, Chandigarh, Jaipur and Bhubaneswar, each entering only when client pipeline and enterprise demand visibility met Awfis criteria. When the market moved from transactional coworking to customised, long-term managed office strategies, Awfis had already built the capability: Managed Office and Design & Build Solutions, where space design becomes the critical enabler of corporate productivity and workforce wellbeing, freeing organisations to focus entirely on their business rather than their buildings. Every one of these moves was planned. None of them were reactive. Awfis' growth is the proof of intent made real.

Every space Awfis creates begins with intent. Every number it reports is the proof of that intent made real. Purpose is the design philosophy. Growth is its consequence. Together, they define what Awfis has become – and what it is building next.

INSIDE AWFIS ●●● ONE PLATFORM FOR ALL WORKSPACE NEEDS

Awfis Space Solutions Limited is India's largest and only integrated flexible workspace platform. Its three-tier brand architecture is built on one conviction: that a true workspace partner takes care of every workspace need across sectors and size, so that businesses can focus purely on productivity and growth.

The company serves individuals, SMEs, and growing businesses with India's largest coworking network, superior quality, flexible pricing, and availability across Tier-I and Tier-II cities. Awfis Gold delivers premium environments with elevated design and service for enterprises that demand a refined, productive address. Elite by Awfis offers curated excellence for GCCs and multinationals: Grade A

locations, LEED and WELL-aligned design, and a service environment that meets global benchmark standards for occupier experience.

Beyond the workspace itself, the Awfis ecosystem is a fully integrated one-stop platform offering Coworking, Enterprise Solutions, and Transform by Awfis (Design & Build). Alongside these workspaces, we also offer Allied Services: TechLabs delivers enterprise-grade IT infrastructure and single-window support across the network; Awfis Go addresses the first- and last-mile connectivity through partnerships with reputed providers; Awfis Café, with 200+ outlets and 65+ partnerships

onboarded, forms the community layer that makes centres feel like destinations, and our events vertical hosts more than 1,000 events annually, with 35% year-on-year growth in participation, activating the network as a platform for business, learning, networking and community. Additionally, we also offer on-demand workspace solutions, accessible anytime, anywhere across India.

Across 250+ centres, 18 cities, and 58 micro-markets, this is not a workspace company; it is a workspace ecosystem, designed with a clear vision of customer delight and defined, every year, by growth.

MANAGEMENT'S LETTER ...

Awfis Chairman & MD's message

At Awfis, every space we create begins with a clear understanding of our clients—their ambitions, their people, and the evolving needs of the modern workplace. That understanding shapes how we design, execute and operate, and ultimately, how we create value.

Our financial performance is a reflection of that philosophy. The growth we have achieved is not merely the outcome of scale or expansion, but consistently creating value for our clients, partners, and stakeholders. Every milestone we have reached reinforces our belief that when vision guides execution, sustainable growth follows.

It gives me immense pride to present our third Annual Report, at a time when Awfis has completed more than a decade of building, learning and scaling. This report marks the progress of a company that has evolved from validating its model to scaling it with consistency and confidence. Through

performance and execution, Awfis has scaled to profitability, served enterprise clients to global standards, and expanded in a disciplined manner. We now move forward from a position of demonstrated strength to building on a foundation that is, by every meaningful measure, the strongest in the industry.

India's workplace landscape is undergoing a once-in-a-generation transformation. Flexible and managed workspaces are increasingly becoming a strategic part of how enterprises plan, grow and manage their real estate portfolios. At the same time, Global Capability Centres are expanding rapidly across India and seeking partners who can match their ambitions with design capability, execution excellence, flexibility and scale.

Awfis was built for exactly this moment, and this year, we proved it. We delivered our strongest year yet, our highest-ever

revenue, our highest-ever profitability, and an industry-leading RoCE. But what I am most proud of is not a single figure. It is the shape of our growth: profitable, disciplined, and prudent. We expanded into new business avenues, deepened our presence in existing ones, upgraded our portfolio, and strengthened our financial foundation rather than stretching it.

This is a business compounding on its own terms. Our focus through FY26 was deliberate and sharply defined: deepening our leadership with GCCs, accelerating premiumisation across our portfolio, and scaling our Design & Build business into a robust growth engine in its own right. Every strategic choice we made this year reflected the same underlying philosophy: scale with purpose. We elevated our premium formats to serve the world's most demanding enterprises. We strengthened our relationships with Global Capability Centres, but as a unified workplace experience partner. We stayed disciplined about the quality of space we added, choosing better assets and better partners over faster growth.

At the same time, Transform by Awfis, together with our Design & Build and allied

services businesses, has matured into an important growth engine. These capabilities allow us to participate across a much larger part of the workplace value chain, while deepening the very client relationships that anchor our core workspace business. Increasingly, Awfis is not just providing space; we are designing, building, managing and enabling the workplace experience.

We also set a new benchmark for responsible design in India, becoming the country's first coworking platform to be triple WELL-certified. For us, that is not a badge. It is proof that purpose and performance can and should be the same thing.

As we enter FY27, I am even more confident in the platform we have built. Every growth engine is thriving; our foundation has never been stronger, and the opportunity ahead across GCCs, enterprise India, and our own diverse businesses is larger than anything we have pursued before. We are not simply participating in

the transformation of India's workplace. We intend to help shape it.

None of this would be possible without the thousands of clients who trust us with the spaces where their people do their best work; our employees, whose energy and commitment bring our vision to life every day; our property and business partners, who continue to build alongside us; and our shareholders, whose confidence and long-term perspective make this journey possible.

India's workplace revolution is still in its early chapters. Awfis enters the next phase with greater scale, stronger capabilities and the same entrepreneurial conviction with which we began more than a decade ago.

We intend to keep leading—with purpose, discipline and confidence.

Our focus through FY26 was deliberate and sharply defined: deepening our leadership with Global Capability Centres, accelerating premiumisation across our portfolio, and scaling our Design & Build business into a robust growth engine in its own right.

FY26 at a glance

DRIVING GROWTH THROUGH TAILORED SOLUTIONS ...

During FY2025-26, we accelerated growth by matching every client's stage of scale with the right format. We scaled Partial MO as a distinct growth mode, unlocking the best of coworking and managed offices within a single structure. We deepened Transform by Awfis, design-and-build capability, delivering large-format, multi-city fit-outs for marquee enterprises across sectors. We positioned our premium centres - Gold and Elite as the natural entry point for GCCs, offering

hospitality-grade design built for compliance and experience strengthening our focus on premiumisation. We also ventured into Frame by Awfis, our capex-light furniture and interiors model, extending customisation beyond workspace. As client relationships matured, we enabled a clear pathway from flex to managed office to design and build, capturing greater wallet share with every stage of their growth.

Scaling the Network

We Already Own

FY26 growth came from deepening within the existing network: 41 new centres and ~30K seats added, taking signed supply to 250+ centres / 175K+ seats across those 18 cities.

GCC Momentum Building Across Sectors

14 GCC mandates were closed in FY 26 including a Fitness and Wellness platform in Hyderabad, a Fintech & Loyalty Services Provider among others. contributing ₹8 Cr MRR and ₹18 Cr in allied services billing. A further 13 large mandates are in the pipeline, expected to go live over the next 2-3 quarters.

Premiumisation at Scale

The portfolio stood at 35 centres total (27 Gold + 8 Elite) as of March 2026.

Expanding the Service Ecosystem

Frame by Awfis the Company's furniture and contract manufacturing arm, went from concept to a capex-light, partnership-based model with 5+ manufacturing vendors, completed rollout across new Awfis centres, and closed its first external corporate deals.

Awfis Transform (D&B) — Third-party D&B revenue grew to ₹152 Cr (27% CAGR from FY24-26); share of third-party projects jumped to 59% in FY26 from 46% in FY25; ₹130 Cr already won for delivery over the next 6-7 months.

GCC Strong Growth Engine - AI-led GCC expansion driving larger, premium-led requirements, 40% of CRE leasing. Clear leadership in Micro & Nano GCC segment, now moving up the curve, with multiple 2,000+ seater mandates closed

Premiumisation at Scale - Gold and Elite to scale meaningfully in FY27, with Awfis 6.0 next gen format also rolling out. Deepening presence in marquee IT parks and Grade A/A+ assets with institutional developers

WELL certification — Awfis became the first coworking brand in India to hold three WELL certifications simultaneously (Health-Safety and Equity Ratings across 35 centres; Coworking Rating across 15), via a partnership with The Instant Group.

Committed to Scalable Growth

Kept the supply mix flexible across Managed Aggregation, Partial MO, and Strategic Leasing, scaling in step with demand quality, not a fixed target.

HOW WE OPERATE: Our Supply Framework ...

We operate through three distinct workspace acquisition models: the Managed Aggregation (MA) Model, the traditional Straight Lease (SL) Model, and the fast-scaling Partial Managed Office (Partial MO) Model. Our capital-light supply strategy continues to evolve: MA remains the backbone of our expansion, SL is deployed

selectively for premium enterprise mandates, and Partial MO has emerged as a prominent growth mode, unlocking the best of coworking and managed office within a single structure. Together, these models let us match the acquisition structure to the quality of demand.

STRAIGHT LEASE MODEL (SL)

Under the conventional arrangement, we lease premises from developers or property owners on standard market terms. This model entails a fixed monthly rental, with all associated fit-out and capital expenditure obligations borne entirely by us. In FY26, SL continues to be deployed selectively, reserved for premium enterprise mandates where full control over the asset and its fit-out is a client requirement.

Features of Straight Lease Model

- Fixed rental
- Full capex by operator
- High upfront investment
- Greater control
- Higher financial risk

MANAGED AGGREGATION MODEL (MA):

Our Managed Aggregation model redefines workspace procurement through collaborative partnerships with developers and space owners. Instead of a fixed rental, partners co-invest in fit-out infrastructure and participate in a revenue or profit-sharing arrangement. In most cases, they contribute 50–90% of the fit-out capital expenditure, while we cover the remaining investment, enabling a more flexible, capital-efficient growth strategy.

Features of Managed Aggregation Model

- Shared capital investment
- Revenue or profit-sharing model
- Lower upfront capital requirement
- Flexible and scalable structure
- Reduced financial risk
- Anchored by Developer Partnerships

The next phase of MA is centred on Developer Partnerships, securing Grade A/A+ properties at shared capex with top developers, further lowering capital intensity while locking in prime micro-market inventory, including Pune (Baner, Viman Nagar) and Bengaluru (ORR, North Bengaluru).

PARTIAL MANAGED OFFICE (MO) MODEL

Partial Managed Office combines the flexibility of coworking with the structure of a fully managed office within a single centre. Enterprise and GCC clients occupy dedicated, brand-compliant space layered with long-tenured commitments and premium fit-outs, while retaining access to shared amenities and community infrastructure. Premium MO mandates, largely from Fortune 500 and GCC clients, are driving large, long-tenured, high-realisation requirements, giving Awfis clear revenue visibility without the capital intensity of a dedicated built-to-suit asset.

Features of Partial MO Model

- Hybrid of coworking and managed office
- Long-tenured, high-realisation mandates
- Fortune 500 / GCC client focus
- Shared community and amenity access
- Lower capex than a dedicated MO
- Marquee mandates: Global Logistics Major (Pune), Global Electronics Major (Mumbai), Indian Fintech Major (Bengaluru)

PREMIUM BY DESIGN (NEW FOR FY26)

Our fourth pillar governs not how we acquire supply, but the quality bar every centre must clear once acquired. We now operate 35 Gold & Elite centres and growing, commanding the highest realisations and the strongest GCC pull in the portfolio. FY26 saw 10+ marquee IT parks added, with 60%+ of that leasing secured through institutional landlords — validating Awfis as the operator of choice for premium, GCC-led micro-markets.

Features of Premium by Design

- 35 Gold & Elite centres and growing
- Highest realisations in the portfolio
- Strongest GCC pull
- 60%+ new leasing with institutional landlords
- Key IT parks entered in FY26: Embassy Tech Village, DLF Cybercity, Gigaplex IT Park

DISCIPLINED, RISK-MITIGATED SUPPLY ACQUISITION (NEW FOR FY26)

Beyond the choice of model, every supply decision is filtered through a consistent risk discipline. Our portfolio is built to perform across cycles — with agility across formats, and asset-liability mismatch validation carried out before every deal is signed. Where we take on land assets or early-stage, under-construction opportunities, we do so only against pre-validated demand and return signals, locking in the best assets ahead of the market rather than chasing them once they're proven.

Features of Disciplined, Risk-Mitigated Acquisition

- Cross-format agility
- Asset-liability mismatch validation pre-signing
- Under-construction assets locked in early
- Entry only against pre-validated demand & return signals
- Cycle-proof, unfazed by economic conditions
- Marquee assets secured early: Prestige Trade Centre, Aerocity; Prestige 101, BKC

Our Demand Mechanism ...

Our client base spans the full spectrum of workspace needs, from short-term, on-demand access to long-term, large-format occupancy. A growing share of our clients now occupy more than one centre, reflecting confidence in the platform beyond a single location. Occupancy across the portfolio continues to strengthen as centres mature, with older, more established centres consistently performing. Total and lock-in tenures are also lengthening, particularly among larger seat cohorts, as more clients commit to Awfis for extended, high-visibility engagements rather than short-term access.

Our client base reflects the range of India's enterprise landscape, from multinationals and large enterprises to SMEs and start-ups, each served through formats matched to its scale, maturity, and sector requirements. This diversity extends across industries, with technology, professional services, manufacturing, healthcare & life sciences, and BFSI

clients all represented in meaningful proportion, reducing our dependence on any single sector. Our client base is similarly diverse by domicile, spanning Indian enterprises alongside a substantial base of multinational clients headquartered across North America, Europe, and Asia Pacific.

BUILT FOR EVERY DIMENSION OF HOW ENTERPRISES WORK

Three business segments, one uncompromising design standard. A platform engineered so that every client interaction, every desk booked, every office designed, every service delivered, is a demonstration of the same conviction: that space, when designed with intent, makes organisations more capable, enabling ease of business

Awfis is not in the real estate business. It is in the productivity business. The distinction matters because it shapes every decision about where we expand, what we build, and how deeply we embed ourselves in the way our clients operate. Our three business segments – Workspace Solutions, Design and Build, and Allied Services are not separate offerings. Coworking: Flexibility, a strategic asset. ...

The Awfis coworking offering gives professionals, startups, SMEs, and enterprise teams access to high-quality, operationally ready workspace without the capital commitment of a conventional lease. Available by the day, month, or year, across 250+ operational centres and 18 cities, it is designed for the reality that the best companies no longer predict their space requirements years in advance. They expect their

workspace to be as responsive as their business. Awfis coworking is responsive, consistent in quality, accessible in structure, and productive from day one. In FY26, the coworking business grew 35% year-on-year, outpacing total platform growth. Q4 FY26 alone delivered ₹342 crore from coworking, growing 27% year-on-year, the highest-ever quarterly coworking revenue.

ENTERPRISE & GCC SOLUTIONS

For Global Capability Centres and large enterprises, the Awfis Enterprise proposition is built on a foundational insight: the organisations best positioned to compete globally are the ones that focus entirely on their core business. Awfis takes accountability for everything else. Each engagement is a bespoke mandate: environments carrying the client's brand, technology systems integrated through TechLabs, access managed through exclusive entry points, and governance frameworks meeting the standards of global parent organisations.

In FY26, this mandate has scaled meaningfully. Awfis now serves 100+ unique GCC clients, contributing 23% of

rental revenue, across 9 cities. India is adding 20-30 first-time GCCs every quarter, and Awfis is positioned to capture this demand from entry to scale. Gold and Elite centres serve first-time GCCs at 25-50 FTEs, with a clear pathway to 30-40K sq. ft. managed offices as they grow. The 500+ seat cohort alone represents 37% of the total portfolio, validating the depth of enterprise penetration. AI-led GCC expansion is now driving larger, premium-led requirements, with multiple 2,000+ seater mandates already closed in FY26. GCCs now account for more than 40% of India's CRE leasing; Awfis is their single end-to-end partner of choice.

Mobility solutions: Workspace without boundaries ...

Hybrid and distributed work have created a new class of workspace requirement: the professional who needs productive, professional space in multiple cities, on varying schedules, without a fixed anchor. Our Mobility solution offerings address this through on-demand access to the full network, day passes, meeting rooms, private cabins, weekend access, virtual offices, and training rooms. The Mobility vertical provides flexible access to a network of over 1000 meeting rooms,

lounges, and hot-desking spaces across multiple cities. Designed to support dynamic teams and distributed workforces, it enables seamless access to professional workspaces without compromising on consistency or reliability. Fully integrated with digital booking platforms, the offering delivers intuitive reservations, real-time availability, and complete visibility into workspace utilisation.

A Three-Tier Brand Architecture Built on One Principle ...

India's enterprise workspace market does not have a single profile. It has a spectrum, from a lean startup team that needs focus and community to a GCC leadership unit that requires an environment indistinguishable from the parent organisation's global offices. Awfis' three-tier brand architecture serves that entire spectrum with the same underlying design discipline and operational standard, expressed at different levels of specification and service.

— by awfis —

Accessible to every ambition, our flagship workspace format is accessible across 18 cities and 58 micro-markets, built around smart zoning, collaborative open seating, private cabins, and well-proportioned common areas.

The foundation of the network and the entry point through which tomorrow's enterprise clients begin their Awfis relationship.

Where the workday is elevated, Awfis Gold occupies the space between functional productivity and genuine workplace distinction. Located in premium Tier-I micro-markets, Gold centres are defined by elevated design language, curated material finishes, and a service standard that reflects the standing of the organisations they house. 27 Gold centres operational, with 60%+ of new supply signed with institutional landlords.

The global benchmark in India. 8 Elite centres across 8 GCC hubs. Designed for GCCs and multinational leadership teams. Private Alcoves, Lounges, Biophilic Pods, Zen Rooms, Executive Suites, and premium concierge. Korean Automotive Major, American Technology Major, Australian Financial Services Firm, and Global Audio-Visual Technology Firm feature among FY26 Elite additions.

TRANSFORM BY AWFIS – DESIGN & BUILD ...

Transform by Awfis is the Company's Design & Build (D&B) vertical, the business that plans, designs, and executes end-to-end workspace fit-outs. This capability has now evolved into a standalone, commercially independent growth engine: Transform now wins and delivers full-service design-and-build mandates directly for corporate clients spanning space planning, interior design, and project execution for both internal and external clients.

This evolution, from an internal enabler to an external, revenue-generating business line, is a deliberate strategic priority for the Company. It diversifies Awfis' revenue base beyond flexible workspace leasing, deepens client relationships across formats, and positions Transform to capture a much larger addressable market of corporate fit-out spend in India.

Our Design Philosophy ...

Underpinning Transform's approach to design & build is a philosophy rooted in design thinking, a structured way of solving complex workplace problems by understanding human behaviour, rather than defaulting to standard templates. This approach rests on three principles applied consistently across every project: empathy for the user, ideation for creativity, and experimentation for innovation.

This philosophy draws on deep, ongoing research into how people behave, their preferences, and what are the evolving needs of the modern workforce. Awfis today is home to more than 3,500 companies and a combined workforce of over 1.75 lakh people, spanning geographies, genders, and generations, giving the Company a uniquely broad vantage point on evolving workplace behaviour. Through

internal research, focus group discussions, and structured surveys, Awfis has built a rich body of insight into what today's workforce actually values from its workspace, and this insight directly informs how Transform designs every space it builds.

This has also reshaped how Transform thinks about layout and format. Employees across generations consistently look for a balance between focused, individual spaces and collaborative, shared spaces, and Transform designs with this balance in mind rather than defaulting to either format. More broadly, the design process starts with the recognition that work no longer ends when a task list is complete; it flows into moments of culture, energy, and community through the day. Rather than treating a workspace as simply a desk, with Wi-Fi and coffee, Transform by Awfis maps the complete workday journey of an

employee, from arrival, through meals and breaks, to incidental work needs and the way the day winds down, and designs for each of these touchpoints, recognising that this journey is rarely linear and differs from person to person and day to day.

This reflects a broader realisation that guides the vertical's work: Awfis sees itself as being in the business of human potential, not simply real estate or workplace technology. Every space Transform design, every technology it deploys, and every project it executes is evaluated against a single question: Does this unlock human potential for the people who use the space? It is this people-first, evidence-based approach, more than square footage or specification alone, that Transform brings to every client and every Awfis centre it designs and builds.

The Single-Window Advantage ...

From space planning and design conceptualisation through procurement, construction, and fit-out delivery, a single accountable partner manages the entire journey. Every project is delivered by LEED and WELL-certified professionals who embed sustainability and human wellbeing into the brief from the first conversation, not as premium additions but as standard delivery

requirements. For GCCs and large enterprises expanding into new geographies, this single-window capability eliminates vendor fragmentation and accelerates timelines. 80% of external D&B revenue comes from existing Awfis Flex clients, validating the compounding flywheel.

AI in Design: A New Layer of Speed and Precision ...

Transform by Awfis has begun embedding artificial intelligence directly into its design workflow, using it to accelerate how ideas move from concept to build space without compromising design quality. On the visualisation side, AI-based rendering tools allow the team to bypass the traditional, time-intensive rendering pipeline: starting from a single design geometry, multiple colour schemes and material palettes can be generated almost instantly, giving clients a wider range of aesthetic options within the same project timeline. AI is also used to convert hand-drawn conceptual sketches directly into realistic 3D visualisations, allowing the team to align internally on design intent early, before committing to detailed modelling.

Beyond visualisation, Transform is pairing machine learning with its Revit-based design ecosystem to automate high-volume, repetitive

tasks. Once zoning and space-programming parameters are defined for a project, automated tools generate populated floor layouts directly, removing the manual effort of placing individual assets one by one and allowing efficient plans to be produced at speed.

The intent behind this adoption is deliberately narrow: AI is being used to remove friction from repetitive production work, not to replace designers' judgement. By automating layout generation and rendering iteration, the kind of task that might otherwise mean re-rendering an entire scene just to test a different carpet colour. Transform's architects are able to spend more of their time on creative exploration, spatial experience, and problem-solving for clients. The result is a design process that is both faster and more considered, translating directly into a higher-quality built environment for the clients Transform serves.

Business Momentum ...

Transform by Awfis delivered a strong overall performance over FY24–FY26. Total D&B revenue grew to ₹2,566 Mn in FY26. Within this, revenue from third-party clients — i.e., mandates won independently of any existing Awfis coworking relationship— has grown consistently and now forms the core of the business, rising to ₹1,520 Mn over the same period, a compound annual growth rate of 27%. Third-party mandates now account for 59% of total D&B revenue, up from 47% two years ago, underlining Transform's growing standing as an independent commercial business rather than a purely internal function.

Importantly, this growth has come with an improving quality of business rather than simply higher volumes. The revenue from third-party projects has grown, as average ticket sizes have effectively doubled over two years — a clear and deliberate shift toward fewer, larger, and more strategic mandates. Transform is increasingly being recognised as the partner of choice for large-format, complex fit-outs — a positioning that should support both revenue quality and margin durability going forward.

Why This Growth Is Structural ...

The growth in the Design & Build vertical is structural rather than cyclical, underpinned by five reinforcing factors

Sector diversification

Delivering across BFSI, Pharma, Telecom, Industrials, Consulting, and Aviation clients, Transform has meaningfully diversified its sector mix, growing coverage while reducing concentration risk relative to any single industry.

Larger, more strategic mandates

Marquee global enterprises are increasingly selecting Awfis for multi-city, national fit-out programmes, rather than one-off, single-location assignments — a validation of the Company's execution capability at scale.

Multi-city national footprint

Transform projects were executed across more than 20 cities in FY26 alone, demonstrating proven scale and delivery capability on a pan-India, multi-location basis.

Cross-sell flywheel

Awfis' existing flex (coworking) relationships are increasingly converting into Transform mandates, while Transform clients in turn anchor future flex and managed-office (MO) demand — a self-reinforcing effect across the Company's business lines.

Delivering larger, complex mandates

Average ticket size has doubled in two years, with a clear migration toward large-format, multi-floor, and multi-city projects that carry higher strategic value for both Awfis and its clients.

Business Outcome ...

Cross-Format Account Penetration

The account has expanded across both flexible workspace and design-and-build formats within a single client relationship, capturing a larger share of overall spend.

Inter-City Replicable Model

The centre roll-out approach — proven in one city and then repeated in the next — has created a replicable playbook for scaling with the same client across geographies.

Deep Client Relationship

Cumulative D&B revenue of approximately ₹72 crore from this single account, together with a pipeline of 1.5–2 lakh sq. ft. for FY27, reflects a deep and durable client relationship.

Outlook

Transform by Awfis has moved beyond serving internal needs. It now operates as a standalone growth engine for third-party clients, with its own revenue trajectory, expanding client base, and clear pipeline visibility. The combination of sector diversification, larger and more complex mandates, an expanding multi-city footprint, and a strengthening cross-sell flywheel with the Company's flexible workspace business gives management confidence that this growth is durable rather than opportunistic. With a robust FY27 pipeline already visible from existing marquee accounts, Transform is well positioned to remain a meaningful contributor to the Company's overall growth and margin profile in the years ahead.

ALLIED SERVICES ...

awfis TechLabs

Awfis TechLabs, the Company's technology infrastructure and managed services arm, expanded its scope significantly in FY26. Beyond its established suite of services—including Internet Leased Line (ILL) connectivity, infrastructure, wired and wireless network setup, and endpoint device provisioning, AV solutions, and helpdesk support, TechLabs added CCTV surveillance, access control systems, and IT manpower services to its portfolio, enabling it to offer a broader, more integrated range of technology solutions to clients. The business also continued to build out its client base, onboarding more than 20 new enterprise and

GCC clients during the year, with an average infrastructure setup time of under 2 weeks following handover of critical rooms, reflecting the efficiency of TechLabs' deployment processes.

Operationally, TechLabs delivered a marked improvement in service quality during the year. Ticket volumes fell by approximately 37% overall, with consistent quarter-on-quarter reductions of around 18%, 15%, and 10%. The team closed 99.9% of all incidents and 100% of all change requests within the reporting period, while maintaining an average network uptime of 99.29% across all centres in

India, underscoring the reliability of the infrastructure it manages. On the financial front, TechLabs exceeded its annual revenue target, roughly three times its performance in the previous year. Going forward, TechLabs plans to roll out cybersecurity services toward the end of the current financial year, alongside a broader effort to strengthen its internal risk management and compliance framework, including working toward ISO/IEC 27001:2022 certification and aligning its practices with the Digital Personal Data Protection (DPDP) Act.

Awfis operates a suite of on-demand workspace products under its Mobility Solutions umbrella, giving professionals and teams flexible, pay-as-you-need access to its pan-India network without requiring a long-term commitment. The portfolio spans six formats: Meeting Rooms, bookable by the hour or day for client meetings, discussions, and board meetings; Day Passes and Cabin Day Passes, offering open-desk or private access to a centre for business travellers, hybrid workers, drop-in workdays, and solo focus work; Training Rooms, reconfigurable into classroom, theatre, or U-shape layouts for training programmes, hackathons, and town halls; Weekend Access, which extends any Awfis space to weekend

bookings for seminars, recruitment drives, and cultural events; and Virtual Office, which provides a prestigious business address for mail handling, GST registration, and company incorporation, paired with monthly day-access and meeting-room credits, making it particularly suited to companies entering new cities, lean and remote teams, and startups pursuing multi-city expansion.

Together, these formats extend Awfis' addressable market beyond dedicated seat occupiers to a broader base of mobile professionals, influencers, start-ups and growing businesses, allowing the Company to monetise its network more fully across varying durations of use. Global partnerships

include IPC Aggregators such as myhq, Qdesq, Stylework, GoFloaters, Desana, Upflex, Liquidspace, Despass, and Instant Office. This extends access to international booking ecosystems and serves enterprise clients with professionals moving across borders.

These efforts translated into mobility revenue growth of 177.78% for the year, making it one of the fastest-growing allied service lines in the portfolio.

F&B Revenue Growth

The Awfis café network continued its strategic expansion through FY26, scaling from 195 locations in the previous year with a particular focus on high-density enterprise hubs. Demand remained consistently strong through the year; overall café activity grew in line with a 28% increase in F&B revenue for the year. Café services have become a fundamental part of the everyday workplace experience, with more than 65% of centre occupants engaging with Awfis' F&B offerings daily.

The engagement calendar continued to evolve to balance revenue-driven activity with community-building initiatives and curated events launched in partnership with Biryani By Kilo, Socials, and Domino's, alongside a growing focus on healthier snacking through brands such as

Eat Better, Farmley, Let's Try, Growing Giraffe, and Sweet Karam Coffee, coupled with continued product sampling, all of which saw strong adoption across the Company's SME and startup communities.

During the year, Awfis expanded its food and beverage ecosystem by introducing curated food programmes and strategic brand collaborations across its centres. The Company partnered with leading brands such as Smoke House Deli, Salad Days, Social, Rebel Foods, Biryani By Kilo, Domino's, along with healthy snacking partners including Eat Better, Farmley, Let's Try, Growing Giraffe, and Sweet Karam Coffee, offering members a wider range of dining experiences, product sampling, and community engagement initiatives. Collectively, these initiatives generated ₹1.7

crore in revenue from approximately 89,000 orders during the year. The external delivery channel remains in an optimisation phase, with the Company continuing to balance broader market reach while maintaining the premium service standards expected by its members.

Going forward, Awfis Cafe will be shifting toward a "hospitality-first" format, with in-centre F&B kiosks being deployed across 18 cities and a strategic move toward institutional B2B café management, with particular focus on bulk F&B sales and bespoke customisation for Managed Office clients on a pan-India basis.

Awfis Go ...

Awfis' transport service, delivered through partners ECO Mobility, RouteMatic, and ValetEZ, saw strong penetration during the year, with nearly 35% of active workspace users adopting ride-sharing and managed parking solutions. Adoption was highest in CBD locations, where commuting constraints are most pronounced, and users reported a marked improvement in commuter experience through faster, more reliable, and more efficient access options.

Events ...

Community events continued to see strong traction through the year, with active participation from SMEs, startups, and entrepreneurial communities and increasing repeat attendance at knowledge-sharing, networking, and industry-interaction formats. The Company onboarded multiple national-level clients for events and community meetups through new alliances with quick-commerce platforms such as Swish and Bistro and expanded

member benefits through a strategic partnership with The District by Zomato, giving members exclusive live-event access, early-bird bookings, curated group experiences, and complimentary sports and entertainment passes, including IPL tickets plus, onboarding of national-level clients for specialised events such as Automation Anywhere, and an expanded wellness partner network including health screening providers.

FY26 marked the founding year for Frame, Awfis' foray into designing and manufacturing furniture for the modern workplace. Conceived as a capex-light, partnership-based model, Frame was built around a contract manufacturing setup with more than five vendors, allowing the Company to scale production without owning manufacturing infrastructure directly. Through the year, Frame's product range, spanning seating, workstations, and collaborative furniture designed specifically for coworking and managed-office environments, was rolled

out across all Awfis centres, giving the Company greater control over design, cost, and quality within its own network. Beyond internal rollout, Frame also secured early external traction, closing multiple corporate deals with clients outside the Awfis network

during the year. As a natural extension of Awfis' broader design philosophy, Frame represents a new avenue of growth for the Company — one that turns in-house furniture design and manufacturing expertise, built over years of fitting out Awfis' own centres, into a standalone commercial opportunity.

Service Excellence ...

Service excellence remained a central operating priority for Awfis through FY26, with a structured set of KPIs tracked across customer experience, operational efficiency, and asset optimisation, spanning client satisfaction, issue-resolution turnaround, preventive maintenance compliance, audit and operational compliance, new-centre handover readiness, and revenue growth from ancillary services.

Performance across these metrics improved through the year: average CSAT stood at over 9.2, ~98% of centre facilities desk (CFD) issues were resolved within SLA, preventive maintenance compliance across assets reached ~ 98%, and internal audit compliance stood at over 95%.

New centre handovers were delivered on schedule, supported by standardised project handover processes, while client

retention and renewal held at 78%. These operational gains were achieved alongside continued cost discipline, with average OPEX savings of ₹1.5 per sq. ft. By year-end, Awfis' operating scale had grown to 240 centres and 5.7 million sq. ft. under management across 18 cities, serving 3,500 enterprise clients, with 175K+ seats under management and daily member footfall of approximately 1 lakh.

FY26 also saw the company strengthen its operating structure to support this scale of network expansion. Regional and city leadership was reinforced, ownership was pushed further down to the cluster and centre level, and specialised teams were dedicated to driving Ancillary Services Revenue (ASR) as a distinct growth lever. This was supported by closer cross-functional collaboration between Operations, Sales, Projects, and Customer Success teams, ensuring that service delivery, commercial outcomes, and client experience were managed in a more integrated manner

across the network. Learning and development remained a key enabler of this service model. During the year, Awfis delivered over 3,170 training hours across more than 2,275 training instances, with a completion rate of approximately 75%. Programming spanned customer experience excellence, leadership capability development, safety and compliance, and sales enablement to equip operations teams for renewals, expansions, and ancillary revenue growth, alongside a dedicated leadership programme for the CXO team. Role-based learning interventions and periodic refresher sessions were conducted consistently across locations throughout the year.

Significant emphasis was also placed on institutionalising best practices across the network, through standardised operational playbooks, replication of successful customer engagement initiatives across cities, a structured pre-renewal engagement process for enterprise clients ensuring timely and

proactive account management, and centralised tracking of operational excellence and continuous improvement initiatives.

Client experience was further supported by continued enhancements to the Awfis App and internal digital platforms, including improved service request management, digital booking journeys for meeting rooms and mobility products, better visibility of member services and engagement initiatives, and growing adoption of digital workflows for operational efficiency. Client feedback and escalations, in turn, are managed through a structured, multi-layered governance framework, spanning centre-level engagement, cluster and city reviews, and regional governance reviews, with critical escalations tracked against defined SLAs and reviewed regularly with Business Heads and CXOs, and, for key enterprise relationships, with leadership including the CMD.

PEOPLE & CULTURE: KEY HR INITIATIVES ...

At Awfis, our people philosophy is built on the belief that growth, recognition, wellbeing, and inclusion must move together. Over the year, we introduced and strengthened a range of initiatives that support our teammates through every stage of their journey with us.

PROFESSIONAL EDUCATION ASSISTANCE PROGRAM

This initiative supports teammates who wish to pursue professional courses, certifications, or skill-building programs that enhance their current role or contribute to future career growth within Awfis. Applications are evaluated on multiple factors, including relevance of the program to the current role, immediate on-the-job applicability, measurable business impact, and available sponsorship slots for the cycle. A committee

of three to four senior leaders assesses shortlisted applications against a structured scoring framework, followed by an internal calibration call with the HR team to finalise sponsored applications.

SPONSORSHIPS FOR HIGH-POTENTIAL TALENT

High-potential teammates receive targeted support, learning opportunities, and recognition to prepare them for larger roles, leadership responsibilities, and specialised expertise. Our approach goes beyond formal training — we actively invest in exceptional talent when they demonstrate excellence, ambition, and impact.

For instance, when a teammate from our design team achieved a Gold Medal in B.Arch from SPA, we recognised not just the academic milestone but the potential it represented. We facilitated a special recognition of excellence award for her and added a performance-based bonus to her compensation — a gesture that reflects our belief that extraordinary effort deserves extraordinary support.

DEI-FOCUSED LEARNING ACROSS THE JOURNEY

Across all stages of the employee lifecycle, DEI-focused learning reinforces inclusive behaviours and equal opportunity. Our #IAMRemarkable workshops helped women teammates build confidence, visibility, and self-advocacy. By designing learning across the entire employee journey, from onboarding to leadership readiness, Awfis ensures that teammates get adequate guidance to navigate growth, with each stage supported by relevant learning, capability-building, and readiness interventions.

This lifecycle-based approach enables faster integration for new hires, stronger

performance in current roles, fair and capability-led promotions, and confident, people-centric leaders. Rewarding Contribution with the Same Intent as Growth.

We believe that growth and recognition must move together. Just as we invest deliberately in building capability and leadership, we are equally intentional about recognising effort, innovation, and sustained contribution. Our reward philosophy is rooted in fairness, transparency, and inclusiveness, ensuring that recognition is driven by impact, not visibility or hierarchy.

#ThriveAtAwfis (EWAP)

We recognise that the wellbeing of our teammates directly shapes the experience of our clients, a belief that is central to our Community First philosophy. Rather than positioning wellbeing as a benefit, we treat it as a collective responsibility that supports individuals, families, teams, and the broader community. #ThriveAtAwfis (our Employee Wellbeing Assistance Programme) provides confidential mental health and wellbeing support, with family coverage ensuring care extends beyond the individual.

Flexible work practices and work from

the nearest-centre option respect life realities and personal responsibilities. We believe in offering a holistic approach to the wellbeing of our employees, and hence, when teammates are mentally and physically well, they show up with greater empathy, positive energy, and a sense of ownership, creating workspaces where colleagues and clients alike feel supported, welcomed, and cared for. During the year, we conducted targeted sessions, including #IAMRemarkable for our women team members and POSH training for our Internal Committee, to strengthen awareness and nurture a workplace culture grounded in safety, dignity, and trust.

WELL CERTIFICATE

Wellness at Awfis goes beyond policies and programs — it is embedded in how we design, operate, and govern our workplaces. As a people- and client-facing organisation, we believe that a healthy physical environment is fundamental to employee wellbeing, psychological safety, and sustainable performance. This commitment is

reinforced by Awfis becoming the first coworking company to achieve all three globally recognised WELL certifications, validated by the International WELL Building Institute, providing independent, globally benchmarked validation that wellness at Awfis is systemic, measurable, and leadership-driven.

WELL HEALTH-SAFETY RATING (HSR)

The WELL Health-Safety Rating validates excellence in health, hygiene, safety, and emergency preparedness across our centres, through standardised high-frequency cleaning and sanitisation protocols, ongoing indoor air quality monitoring, regular water quality testing, defined emergency preparedness and response plans, and clear visibility of health and safety resources at every centre — ensuring safe and hygienic environments for employees and clients alike.

WELL EQUITY RATING

The WELL Equity Rating validates that Awfis has integrated fairness, inclusion, and accessibility into both policy and workspace design. This includes inclusive hiring and HR

practices, universal and accessible design enabling barrier-free movement, safety and dignity protection protocols against harassment and bias, dedicated support

systems for women, persons with disabilities, and diverse user groups, and transparent feedback and community engagement mechanisms — ensuring our workplaces are inclusive, respectful, and accessible to all.

WELL COWORKING RATING

The WELL Coworking Rating validates our leadership in delivering coworking environments that promote physical, mental, and social wellbeing. Key practices include defined indoor air and water quality standards, healthy and clearly labelled nourishment options, lighting and circadian design for visual comfort, ergonomic and movement-friendly workspace design, thermal and acoustic comfort controls, and access to calming, mindfulness-supportive spaces — all directly supporting daily wellbeing, comfort, and productivity.

Together, these certifications demonstrate that wellness at Awfis is not aspirational or incidental but intentionally built into our operating model,

ensuring a consistent, safe, and supportive experience for teammates across locations.

We strongly believe that a great workplace is not created by policies alone, but by everyday experiences that make teammates feel valued, heard, and empowered. Through structured fairness practices such as internal benchmarking and objective

performance management, transparent forums like townhalls, Growth Meets, and leadership connects, continuous learning and enablement programs, customer-centric capability building, and holistic wellbeing initiatives, an environment has been intentionally shaped where people can truly thrive.

These practices ensure that every teammate experiences fairness in decisions, clarity in growth, trust in leadership, and safety in expressing their voice. As a result, a culture has been built where performance and people progress together, diversity of thought is respected, and collaboration is deeply embedded — creating not just a high-growth organisation, but a community where individuals grow with purpose, contribute with confidence, and feel a genuine sense of belonging.

INCLUSIVE BENEFITS & POLICIES

Our benefits are designed to respect personal choices and identities. For example, our insurance coverage extends to diverse family structures, reflecting our commitment to inclusivity across personal choices and preferences.

Seamless Work Experience

To reduce everyday anxieties, we provide corporate Uber access for teammates, enabling hassle-free business travel without personal financial concerns, as payments are managed directly by the company.

Flexible Work Arrangements

Flexibility is designed to support wellbeing, energy management, and work-life balance, while continuing to meet business and client needs. Our flexible work practices include an early-in/early-out option that lets teammates manage personal commitments while maintaining productivity, and a work-from-nearest-centre option for up to four days a month, allowing teammates to reduce commute stress and manage time more efficiently. These arrangements are role-based and trust-led, ensuring flexibility is applied fairly while maintaining accountability and performance standards.

Structured Onboarding for a Confident Start

New Hire Orientation – Every new hire begins their journey at Awfis with a Day-1 New Hire Orientation covering our culture, values, HR and IT policies, and ways of working. This is complemented by a structured Functional Onboarding Program that helps new hires gain deep role clarity and stakeholder understanding through exposure to departmental SOPs and hands-on learning by shadowing senior team members — enabling teammates to quickly understand processes, responsibilities, and cross-functional dependencies.

Buddy Program – Every new hire is also paired with an experienced teammate through our Buddy Program for the first month, providing guidance, support, and informal learning during the initial transition period. The Buddy Program helps new hires navigate their roles, understand team dynamics, and feel connected from day one, strengthening confidence and accelerating integration into the organisation.

WE TRACK THE EFFECTIVENESS OF THESE INITIATIVES THROUGH MEASURABLE INDICATORS:

CONTINUOUS GROWTH, MERITOCRACY & ENABLEMENT

Growth at Awfis is performance-driven, yet people-first. Teammates are supported through clear goals, regular feedback, and equal access to development opportunities. Key initiatives include a transparent performance

philosophy with clearly defined expectations, structured appraisal cycles anchored on outcome-based metrics, equal access to learning and development opportunities across roles and levels, and

the launch of the Professional Education Assistance Program to support teammates' learning and career advancement through structured opportunities.

The following measurable indicators help us track progress:

RECOGNITION THAT REINFORCES GROWTH AND PRIDE

This ensures growth decisions are objective, merit-based, and consistently applied

We believe that recognising contribution strengthens engagement and motivates continued performance. At the core of our culture is the belief that appreciation should come not only from leadership but also from peers. To reinforce this, we revamped our Rewards & Recognition framework with 16 award categories that celebrate diverse forms of contribution across roles, teams, and functions.

Alongside formal recognition, we actively encourage peer-to-peer appreciation through digital platforms such as the Employee Wall, where teammates openly acknowledge and celebrate each other's efforts. Volunteering and collaborative initiatives are also recognised, reinforcing a culture where supporting others and contributing beyond one's role is valued. Special recognition is given to teammates who go the extra mile to support colleagues and demonstrate exceptional commitment beyond the call of duty.

CUSTOMER OBSESSION: FROM “CUSTOMER FIRST” TO “CUSTOMER OBSESSED”

At Awfis, growth has never been just about scale — it has always been about impact. During Growth Meet 2025, we reflected on our journey and asked a fundamental question: are we truly customer-first, or are we ready to become customer-obsessed? This reflection led to a cultural shift, from serving customers well to designing every experience around them. Our Just Cause Statement reflects our belief in shaping the future of work in India by building a connected workspace ecosystem — a trusted platform where businesses thrive, people feel empowered, and every working day is made simpler through thoughtful, customer-centric solutions. To bring this belief to life, we

embedded customer obsession not as a function, but as a shared responsibility across the organisation.

We followed a structured methodology to build this mindset: systematically mapping customer touchpoints, both internal and external; enabling each department to identify key customer-related challenges and create structured problem statements; assigning cross-functional solution ownership with clear accountability for implementing changes; and forming a cross-functional core council for governance, to monitor progress and ensure continuity of the initiative across the organisation.

To strengthen mindset and skills, we rolled out

Customer Centricity training across teams, starting with Operations and followed by IT, focusing on empathy, communication, and real-life customer scenarios. We also embedded customer obsession into hiring and onboarding by equipping hiring managers with structured frameworks, role-specific competencies, and assessment tools to evaluate customer orientation in customer-facing roles. Customer obsession has moved beyond a concept to a shared way of working at Awfis, with teammates increasingly viewing customer experience as a collective responsibility.

WELLBEING & PSYCHOLOGICAL SAFETY

Wellbeing is treated as a business enabler, not a benefit. As a deeply client-facing organisation operating across 250+ centres, we recognise that employee wellbeing directly influences client experience, decision-making, and long-term performance. Leadership has made a conscious shift from a reactive health approach to a prevention-led, holistic wellbeing strategy, especially given our predominantly young workforce and high-growth environment. We actively work to remove the stigma

around mental health and create an environment where teammates feel safe, respected, and supported in all aspects of their lives, recognising that true wellbeing is holistic — covering mental, emotional, social, and practical dimensions of work and life. We encourage open conversations around mental wellbeing and extend support beyond employees to their families, promoting early intervention, openness, and stigma-free access to support.

These efforts contributed to Awfis being recognised as a Great Place to Work® for the sixth consecutive year, alongside continued recognition for operational excellence and customer-centric workplace solutions, reflecting the strength of the governance and operating standards underpinning the Company's growth.

SOCIAL IMPACT ...

Our responsibility extends beyond the confines of our centres. Through Impact with Awfis, our flagship community initiative, we are dedicated to nurturing environmentally conscious communities by creating inclusive platforms for participation, education and collective action.

Our community initiatives are built around three pillars: awareness, engagement and strategic partnerships that drive tangible, lasting impact. On the social front, we ran clothing donation drives in partnership with NGO partners alongside health and wellness initiatives, including blood donation camps and cancer awareness walks

ESG — INTEGRATED ECO-RESPONSIBILITY FRAMEWORK

Environment stewardship is not a standalone objective at Awfis. It is a mindset embedded into how we design, operate and evolve our spaces. As we scale, we remain focused on minimising our environmental impact while enhancing wellbeing for all users. Our long-term vision is to foster regenerative environments that contribute positively to the communities we serve.

Our environmental efforts encompassed

e-waste collection and responsible recycling drives, tree plantation and urban greening programmes, and digital-first paper-reduction practices embedded across our operations. Through teammate volunteering programmes with NGO partners, neighbourhood clean-up and improvement drives, mentorship and career-guidance sessions for students and young professionals, and

professionals, and health awareness camps, our teams engaged directly with the communities around them.

By integrating awareness with meaningful action, our strategy is designed to make sustainability more participative and inclusive. Through consistent, small-scale interactions, the initiative promotes healthier cities, nurtures greater communities and strengthens environmental consciousness across our network.

Economic Overview ...

GLOBAL ECONOMY

Global growth remained resilient but uneven through CY2025, even as an escalation of conflict in the Middle East (West Asia) unsettled energy markets and revived inflation pressures. The International Monetary Fund estimates world output grew about **3.2% in CY2025**. Growth is projected at **3.0% in CY2026 and 3.4% in CY2027**, with the near-term softness reflecting the war shock—felt most acutely by energy importers—partly offset by an artificial-intelligence-led technology upcycle that is lifting economies integrated into the global technology value chain.

After a steady disinflation since early 2024, global disinflation has stalled. Headline inflation is now expected to rise from about **4.1% in CY2025 to 4.7% in CY2026**—driven mainly by higher energy

and food prices—before easing to **3.9% in CY2027**. Risks are more balanced than earlier in the year, though a renewed escalation in West Asia and a repricing of financial markets remain the principal downside risks. Divergence across regions persists, with several emerging economies in Asia continuing to outpace the global average.

INDIAN ECONOMY

India retained its position as the fastest-growing major economy and remained relatively insulated from the global energy shock. On the Ministry of Statistics' provisional estimates (2022–23 base), real GDP grew **7.7% in FY2025–26**, up from **7.1% in FY2024–25**, with nominal GDP rising about 8.9%. Fourth-quarter real GDP growth was estimated at 7.8%.

Growth was anchored by strong domestic demand and a broad-based investment cycle. **Public capital expenditure** remained a central driver, with sustained government spending on roads, railways, ports, airports and urban infrastructure crowding in private activity. **Industrial and manufacturing momentum** continued to build, supported by production-linked incentive (PLI) schemes, rising capacity utilisation and a gradual revival in **private capital expenditure**. A resilient services sector—led by IT, financial services and global capability centres—together with healthy consumption underpinned the expansion. Inflation eased materially through the year on the back of a prolonged decline in food prices, giving the Reserve Bank of India room to lower the policy repo rate to **5.25%** by the second half of the year while maintaining adequate system liquidity. While the global energy shock is a factor to watch for imported inflation, a benign domestic inflation trajectory, a stable currency and continued infrastructure and industrial investment provide a supportive backdrop for corporate demand.

OUTLOOK

India is expected to remain among the fastest-growing large economies, with growth anchored by domestic consumption, public and private capital formation, a maturing services sector and the continued expansion of global capability centres (GCCs). For the commercial real-estate and flexible-workspace industry in which the Company operates, this macro

backdrop—resilient growth, a sustained investment cycle and contained domestic inflation—remains constructive. Global energy prices,

trade-policy and geopolitical developments in West Asia remain the principal external risks to monitor.

Industry Overview ...

INDIA'S OFFICE MARKET

India's commercial office market recorded another landmark year. Gross office leasing across the leading cities reached a record **82.6 million sq ft in CY2025**—its third consecutive record year—while new Grade A completions touched a peak of about **58.9 million sq ft**. Momentum carried into the new calendar year, with first-quarter CY2026 gross leasing of about **21.9 million sq ft, up roughly**

13% year-on-year, despite a noisy global environment. Demand was led by technology and BFSI occupiers and, increasingly, by **global capability centres (GCCs)**, which now account for **more than 40% of commercial real-estate leasing** and have become the single most important driver of net absorption. Bengaluru, Hyderabad, Pune, Chennai, Delhi-NCR and

Mumbai remained the core demand centres, with Tier-II markets emerging as the next frontier of expansion. Healthy demand, a moderating supply pipeline in prime micro-markets and firming rentals point to a landlord-favourable cycle, while vacancy in Grade A assets has trended lower in the leading cities.

INDUSTRY OUTLOOK

The medium-term outlook for India's office market is constructive. Occupier demand is expected to remain healthy, underpinned by the structural expansion of GCCs, the continued

build-out of technology and financial-services capacity, and India's cost and talent advantages. Grade A and sustainability-certified assets should command a growing share of

demand, and flexible workspace is expected to take an increasing proportion of overall leasing as occupiers prioritise agility and capital

efficiency. Tier-II cities are likely to see disproportionately faster growth from a smaller base.

THE FLEXIBLE WORKSPACE OPPORTUNITY

Flexible workspace has moved from a start-up enabler to a core element of corporate real-estate strategy. Flex leasing reached about **18.6 million sq ft in CY2025**—roughly eight times its 2017 level—and the flex share of total office leasing has risen from about 5% eight years ago to **around 21%**,

with leading estimates pointing to **~25% by 2027**. More than half of domestic and global occupiers now include flex in their portfolios, and India's flexible-workspace stock has grown roughly 3.5x since 2020.

The shift is being driven by a combination of structural forces:

enterprises and GCCs increasingly prefer managed, capital-light workspaces that offer speed to occupancy, flexibility to scale up or down, and a superior, fully serviced employee experience without the burden of long-dated capital commitments. Hybrid working, hub-and-spoke portfolio

strategies, and the desire to convert fixed real-estate costs into variable, outcome-based expenditure have all

deepened adoption. Demand is broadening beyond the technology sector into BFSI, consulting, manufacturing and

professional services, and beyond the largest cities into Tier-II markets.

FLEX OUTLOOK

The flexible-workspace segment is expected to remain among the fastest-growing parts of the office market, with penetration continuing toward **~25% of leasing by 2027**.

Growth is likely to be led by enterprises and GCCs signing larger, longer-tenure managed-office and

dedicated-centre mandates, a continued shift toward Grade A/A+ and premium, sustainability-certified space, and consolidation in favour of scaled, well-capitalised operators with pan-India networks and design-and-build capability. These trends play directly to the Company's strengths.

GLOBAL CAPABILITY CENTRES — A STRUCTURAL DEMAND ENGINE

India hosts the world's largest GCC ecosystem, and the tailwind is structural rather than cyclical. On industry estimates for FY26, India had over **2,100 GCCs across ~3,728 units**, generating aggregate revenue of about **USD 98 billion** and employing installed talent of roughly **2.36 million professionals**. GCCs now represent more than 40% of commercial real-estate leasing, and India adds an

estimated 20–30 first-time GCCs every quarter. Artificial-intelligence capability is deepening the base: more than 1,200 GCCs in India already have active AI/ML capabilities. The fast-growing mid-market GCC segment (roughly 25–200 seats) is among the most underpenetrated categories—directly aligned with the Company's flexible, managed and enterprise offerings.

Opportunities And Challenges ...

OPPORTUNITIES

- **Rising flex penetration:** a structural shift toward flexible and managed workspaces as occupiers prioritise agility, capital efficiency and employee experience.
- **GCC and enterprise demand:** Sustained, multi-year demand from global capability centres and large enterprises, including the underpenetrated mid-market GCC segment.
- **Premiumisation:** Growing occupier preference for Grade A/A+ assets.
- **Tier-2 expansion:** Emerging demand across smaller cities broadening the addressable market.

CHALLENGES

- **Macroeconomic and geopolitical uncertainty:** Global trade-policy shifts, the West Asia conflict, energy-price volatility and visa-policy changes could weigh on occupier sentiment and the pace of MNC and GCC expansion decisions.
- **Interest-rate and real-estate cycle:** Movements in interest rates, construction costs and commercial rentals influence both occupier demand and the cost of capacity addition across the industry.
- **Quality-supply availability:** The availability and timing of Grade A/A+ supply in preferred micro-markets.
- **Regulatory and policy environment:** Changes in taxation, real-estate regulation, GST treatment and workplace norms could affect the operating environment.

Company Overview ...

Awfis Space Solutions Limited is one of India's foremost providers of flexible-workspace ecosystems, catering to the evolving needs of contemporary organisations across the country. With a strong presence in major metropolitan areas and emerging Tier-II cities, the Company offers a comprehensive portfolio spanning coworking spaces, customised managed offices, design-and-build services, and a suite of allied services including food and beverage, IT

infrastructure management, mobility solutions and concierge services. Its progressive workplace models and strategic alliances have positioned it as a trusted partner to start-ups, SMEs, large domestic corporates, multinationals and global capability centres alike.

The Company is strategically positioned to benefit from the escalating demand for flexible workspace by methodically expanding its pan-India presence and elevating its client-centric value proposition.

It aims to consolidate its leadership by leveraging its asset-light managed-aggregation model, premium services and a strong ecosystem that encompasses advanced workspace design and comprehensive support solutions. Through FY26 the Company operated across **18 cities** and the leading micro-markets within them, serving **3,500+ clients**, with enterprise and MNC occupiers now representing 64% of the client base.

BUSINESS PORTFOLIO

The Company has curated a comprehensive service portfolio that caters to the shifting requirements of modern enterprises. Its flexible-workspace offerings are structured into two principal business segments: **Space Solutions**—offering coworking spaces, enterprise and managed-

office solutions and a suite of allied services; and **Transform by Awfis** which delivers design, construction and fit-out services for workspace projects. During the year the Company also began scaling **Frame by Awfis**, a capital-light furniture and fit-out offering.

SPACE SOLUTIONS AND ALLIED SERVICES

Awfis offers a versatile array of flexible workspace solutions, thoughtfully designed to accommodate a broad spectrum of client requirements, ranging from individual desks to bespoke office spaces with dedicated

access. Beyond conventional workspace infrastructure, the Company has broadened its allied-services portfolio to elevate the overall workplace experience—including Awfis Café for community engagement,

TechLabs for IT and network solutions, and premium, sustainable employee-transportation partnerships. Together with event management, mobility and concierge support, these initiatives

COWORKING SOLUTIONS

With a focus on flexibility and convenience, the Company provides coworking solutions accommodating a range of booking durations, from daily and weekly access to monthly, yearly and extended fixed-term arrangements. Its diverse clientele spans freelancers, start-ups, SMEs and larger corporates across industries such as IT and IT-enabled services, banking, financial services, insurance and consulting. Reservations can be

ENTERPRISE AND MANAGED-OFFICE SOLUTIONS

The Company specialises in customised enterprise workspace solutions, delivering a comprehensive suite of services encompassing workspace design, construction and ongoing management. Each office environment is tailored in close collaboration with client teams to reflect the client's specifications and brand identity, resulting in fully equipped, ready-to-occupy spaces, including dedicated and partial-managed configurations for GCCs and multinationals. end amenities such as personalised catering, concierge services and curated wellness programmes. Strategically situated in prime micro-markets, these centres reinforce Awfis' position as an end-to-end provider across the value chain. The Company closed FY26 with **35 premium centres**

TRANSFORM BY AWFIS (DESIGN AND BUILD)

The vertical delivers turnkey design-and-build (D&B) services to both the Company's own centres and external clients, spanning space planning, interior design, project management and turnkey execution, with a strong presence in the IT/ITeS and BFSI sectors and increasing reach into retail, hospitality and institutional projects. For external assignments, the Company enters into formal client

FRAME BY AWFIS

Frame by Awfis is a newer, capital-light furniture and fit-out offering built on a network of contract-manufacturing partners. It is being integrated as a default component of new coworking centres and a growing share of design-and-build deployments, with

WORKSPACE SOURCING MODEL

Awfis employs a strategic approach across the entire commercial real-estate market—organised and unorganised, institutional and non-institutional, and across property grades—giving it flexibility

in centre size and location and access to a broad portfolio of spaces. The Company sources and procures workspace through two models: **Straight Lease:** developers or space owners lease space to

(27 Gold and 8 Elite) and made premiumisation the default for new supply, with 100% of new centres signed in Grade A/A+ assets. Awfis also became the first coworking brand in India to achieve three simultaneous WELL certifications.

agreements typically involving an initial advance of 15–20% of contract value, with subsequent payments tied to project milestones. During FY26 the business was deliberately sharpened toward larger, higher-value mandates: third-party D&B revenue rose to ~₹1,520 million (from ~₹1,290 million), lifting the third-party share to ~59%, with five orders above ₹100 million executed across 20+ cities.

the operator under traditional terms, including fixed monthly rental, common-area maintenance, security deposit, lock-in, tenure and escalations, with

Awfis assuming the fit-out capital expenditure.

Managed Aggregation (MA): developers or property owners bear all or part of the fit-out cost, and instead of fixed rentals the arrangement typically involves a minimum guarantee coupled with a revenue-

or profit-share, over tenures generally of five to nine years. Over time the Company has deliberately shifted toward this asset-light, lower-risk model, which reduces upfront capital intensity and occupancy risk while enabling rapid expansion. The Company

intends to maintain an approximately **60:40 MA-to-straight-lease mix** and is extending managed aggregation into Grade A/A+ assets through forward leasing and developer partnerships.

OPERATIONAL HIGHLIGHTS — FY26

The Company delivered a record operational performance in FY26. Net revenue rose **24% to ₹14,935 million** and operating EBITDA grew **37% to ₹5,498 million**, with margin expanding to 36.8%. The national footprint grew to **~250 operational centres and ~167,000 operational seats across ~8.1 million sq ft** in 18 cities, with signed supply (including under fit-out and signed LOIs) of ~266 centres and

~184,000 seats. During the year the Company added ~30,000 gross seats (~22,000 net of closures) across 41 new centres, with 100% of new supply in Grade A/A+ assets, and sold 58,000+ seats across the platform.

Blended occupancy stood at ~76% and mature-centre (>12 months) occupancy at ~84%. The client base deepened, with enterprise and MNC

clients at 64%, multi-centre clients at ~48%, and weighted-average tenure of ~37 months (lock-in ~26 months). The Company served **100+ GCC clients across 9 cities, contributing ~23% of rental revenue**, and closed 14 major GCC mandates during the year. The credit rating was upgraded to A+ (Stable), and the Company remained in a net-cash position throughout FY26.

Growth Strategy ...

The Company's FY26 performance and forward strategy are organised around five reinforcing growth engines:

- **Premiumisation at scale** — Grade A/A+ supply, larger-format centres and design-led, WELL-certified environments that lift realisations and client quality.
- **Multi-format supply** — A revamped managed-aggregation engine using forward leasing, an emerging developer-partnership model (shared capital, Awfis-run operations), and enterprise supply via partial-managed and premium managed-office mandates.

- **GCC as a structural demand engine** — deepening penetration of global capability centres, with a particular focus on the underpenetrated mid-market segment.
- **Network compounding** — Growing revenue from the existing network through multi-centre clients and cross-sell across coworking, managed office and design-and-build.
- **Value beyond flex** — Scaling adjacencies, principally Awfis Transform (design and build) and Frame by Awfis (furniture and fit-out).

Financial Performance ...

The discussion below is on a consolidated basis and figures are presented in ₹ million, consistent with the audited financial statements.

Amounts are drawn from the

Company's FY 26 reported consolidated financial statements. Figures may not sum precisely due to rounding.

ANALYSIS OF THE FINANCIAL PERFORMANCE

FY26 was a record year on every principal measure. **Revenue from operations grew 24% to ₹14,935 million**, led by the core coworking and allied-services segment, which rose 35% to ₹12,369 million. **Operating EBITDA grew 37% to ₹5,498 million**, with margin expanding by about 350

basis points to 36.8%. **Profit after Tax before exceptional items grew ~66% to ₹709 million** on a reported basis, profit after tax was ₹709 million versus ₹679 million in FY25 (which included a ₹251 million exceptional gain relating to the exit of the Awfis Care business, and hence a lower like-for-like base).

Profit and Loss (₹ million)	FY26	FY25	Y-o-Y

Notes: ¹ Total operating expenses (revenue from operations less operating EBITDA) exclude depreciation & amortisation and finance costs. ² The FY25 exceptional item of ₹250 million relates to the exit of the Awfis Care business; profit after tax before exceptional items grew ~66% year-on-year, while reported PAT grew ~4% given the higher FY25 base. ³ Figures are reported/indicative and to be reconciled to the audited statement of profit and loss; totals may not sum due to rounding.

Construction and fit-out projects (D&B)	2,566	2,783	–8%
Others	–	132	–
Total	14,935	12,075	+24%

Revenue from operations rose 24% year-on-year to ₹14,935 million, directed by momentum across service segments. The **coworking and allied-services segment grew 35% to ₹12,369**

million—an incremental ~₹3,208 million—and now contributes ~83% of total revenue. This was primarily fuelled by the sale of newly added seats, sustained improvement in occupancy

at mature centres, premiumisation of the network, and continued traction in allied services such as food and beverage. The **construction, fit-out and design-and-build segment** contributed ₹2,566 million, modestly lower year-on-year on account of

Expenses

Total operating expenses rose broadly in line with scale. **Depreciation and amortisation increased ~39% to ₹3,839 million**, and **finance costs rose ~37% to ₹1,863 million**, reflecting new-centre additions, the associated right-of-use assets and lease liabilities recognised under Ind AS 116. other operating costs increased with the Company's broader operational scale and its investments in new centres, workforce and technology. Notwithstanding these increases, operating leverage drove margin expansion, with operating EBITDA margin improving to 36.8% from 33.3%.

- Project count optimised deliberately; average ticket size doubled in 2 years — a clear shift toward higher-value, strategic mandates.
- Emerging as the partner of choice for large-format fit-outs — 5 orders above ₹100 Mn closed in FY26 vs. 1 each in FY24 and FY25; 17 orders above ₹50 Mn in FY26 vs. 11 in the prior 2 years combined.

BALANCE SHEET

The balance sheet strengthened over the year, reflecting continued scale-up underpinned by strategic investment in infrastructure and capacity. **Net worth rose to ~₹5,524 million** (from ~₹4,592 million) and **total assets grew**

THE STRUCTURAL CASE FOR TRANSFORM

Transform's growth is not opportunistic, it is structural. The business now spans BFSI, Pharma, Telecom, Industrials, Consulting and Aviation, cutting concentration risk while global enterprises increasingly choose Awfis for national, multi-city fit-outs. FY26 alone saw delivery across 20+ cities, and average ticket size has doubled in two years as mandates shift toward large-format, multi-floor projects. Underpinning all of it is a flywheel: flex relationships convert into Transform, and Transform clients anchor future flex and MO demand.

to ~₹29,102 million (from ~₹25,070 million). The increase was driven by higher investment in property, plant and equipment (~₹6,344 million, from ~₹5,083 million) supporting the rollout of new centres. **Right-of-use assets**

were broadly stable at ~₹10,629 million (from ~₹10,705 million); the marginal decline reflects amortisation during the year and the exit of certain leases broadly offsetting additions from new centres, consistent with the Company's continued shift toward managed-aggregation arrangements

(which are not always structured as leases). Lease liabilities moved in line with the lease portfolio. The Company remained in a **net-cash position** throughout the year, with gross borrowings of ~₹509 million against cash and bank balances of ~₹896 million.

Balance Sheet (₹ million)	Mar-26	Mar-25
Net worth (total equity)	5,524	4,592
Property, plant & equipment	6,344	5,083
Right-of-use assets	10,629	10,705

Total assets	29,102	25,070

KEY RATIOS

Ratio	FY26	Remarks
Return on capital employed (ROCE)	~60%	among the best in listed flex peers
Return on Equity (ROE)	~17%	
Net debt / equity	(0.20)	net-cash position
Gross debt / equity	0.09	
Fixed-asset turnover	1.5x	revenue to gross fixed assets
Interest coverage	~11x	see note below
Cost of borrowing	9.05%	incremental cost ~8.5% (down ~45 bps)
Credit rating	A+ (Stable)	upgraded during FY26

Basis of computation: ROCE = (Ind AS EBITDA less actual lease payments) ÷ average capital employed (net worth + borrowings - cash and cash equivalents, including fixed deposits). Return on Equity = profit after tax ÷ average shareholders' equity (net worth). Interest coverage = earnings before interest and tax, excluding the Ind AS 116 lease-accounting impact, ÷ finance cost on borrowings. Fixed-asset turnover = revenue from operations ÷ gross fixed assets.

The Company's liquidity and debt management remained strong, with a net-cash position maintained through the year. ROCE was sustained above

60% (FY25: ~62%)—among the highest of listed flexible-workspace peers—reflecting the capital efficiency of the managed-aggregation model.

Risk Management ...

The Board of Directors holds overarching responsibility for the Company's risk-governance framework. It defines the Company's risk appetite, oversees the

- **Occupancy and expansion risk** — rapid capacity addition can temporarily depress blended occupancy until centres mature; mitigated through disciplined, demand-led site selection, forward leasing and active renewal and churn management.
- **Client concentration risk** — large, highly customised dedicated centres carry re-leasing and refurbishment risk at the end of lock-in periods; mitigated by a selective approach to very large back-to-back deals and a diversified, multi-centre client base.
- **Execution / project-timing risk** — design-and-build revenue is exposed to project deferrals,

identification and monitoring of significant risks, and reviews internal-audit findings and mitigation plans. The principal risks the Company manages include:

execution delays and regulatory factors; mitigated by a stronger order book and a shift toward larger, higher-value mandates.

- **Lease and financing risk** — rising lease liabilities and finance costs accompany network growth; managed through the capital-light managed-aggregation model, a net-cash balance sheet and a strong credit rating.
- **Macroeconomic and policy risk** — global energy prices, the West Asia conflict, trade-policy and visa developments could affect occupier sentiment; the Company's diversified client and city mix provides resilience.

Human Resources ...

The Company continued to strengthen its leadership and functional teams across design, project delivery, business development and enterprise sales, and to invest in a collaborative, customer-centric culture. It maintains an Equal Employment Opportunity Policy and provides a comprehensive benefits framework covering

insurance, leave and retirement provisions. During the year the Company was recognised as a Great Place to Work and achieved three simultaneous WELL certifications—the first coworking brand in India to do so—reflecting its commitment to employee and occupier wellbeing.

Internal Control Systems and their Adequacy ...

The Company has internal control systems commensurate with the nature and size of its operations, designed to safeguard assets, ensure the accuracy and completeness of accounting records, promote operational efficiency and support compliance with applicable laws and regulations. The framework includes a

defined organisational structure, documented policies and authority levels, and budgetary controls. The internal-audit function reviews the adequacy and effectiveness of controls and reports its findings, together with recommendations, to the Audit Committee, which monitors implementation.

Outlook ...

The Company enters FY27 with strong momentum, a deep and diversified client base and good forward visibility. Management remains focused on profitable, capital-efficient growth—prioritising the quality of revenue and returns over headline seat count. The core coworking and

allied-services business is expected to remain the principal growth driver, supported by continued **premiumisation** of the network, deeper penetration of enterprise and GCC demand, and the compounding effect of a growing multi-centre client base. The Company intends to scale its **multi-format**

supply model—extending managed aggregation into Grade A/A+ assets through forward leasing and advancing its developer-partnership approach at lower net capital intensity—while continuing to build its adjacencies, Transform by Awfis and Frame by Awfis, under the “value

beyond flex" strategy. Management expects the disciplined, asset-light model to sustain the

Company's industry-leading capital efficiency and to support a gradual improvement in

profitability and occupancy over the medium term.

Your Company has adopted a Whistle Blower Policy and has established the necessary vigil mechanism for directors and employees in confirmation with Section 177 of the Companies Act, 2013 and

Regulation 22 of SEBI LODR Regulations, to facilitate reporting of genuine concerns about unethical or improper activity, without fear of retaliation. The vigil mechanism of your Company provides for adequate safeguards against victimization of whistle blowers who avail of the mechanism and also provides for direct access to the Chairman of the Audit Committee in exceptional cases.

The said policy is provided at website of the Company at <https://www.awfis.com/investor-relations/initial-public-offer/statutory-policies>.

During the year under review, your Company has not received any complaints under the vigil mechanism and accordingly, there was no instance of denying the access to the Chairman of the Audit Committee.

19) COMPANY'S POLICY RELATING TO DIRECTORS' APPOINTMENT, PAYMENT OF REMUNERATION AND DISCHARGE OF THEIR DUTIES

Pursuant to the provisions of Section 178(3) of the Act and the applicable provisions of the SEBI LODR Regulations, the Company has in place a Nomination and Remuneration Policy ("NRC Policy"), which provides a framework for the appointment, remuneration, evaluation, succession planning and removal of Directors, Key Managerial Personnel ("KMP") and Senior Management Personnel ("SMP").

The NRC Policy, inter alia, lays down the criteria for determining qualifications, skills, expertise, experience, positive attributes and independence of Directors and provides for an objective and transparent framework for the appointment and remuneration of Directors, KMP and SMP. The Policy is designed to ensure that the level and composition of remuneration is reasonable, sufficient and linked to individual performance, responsibilities, industry practices and the long-term interests of the Company and its stakeholders.

The Policy also provides for Board diversity, succession planning for Directors and Senior Management Personnel, annual performance evaluation of the Board, its committees and individual Directors, and the criteria for evaluating the performance and continued independence of Independent Directors.

The Nomination and Remuneration Committee identifies and recommends individuals possessing the requisite integrity, qualifications, expertise and experience for appointment to the Board and senior leadership positions and reviews the implementation of the succession planning framework from time to time.

The Nomination and Remuneration Policy is provided at website of the Company at <https://www.awfis.com/investor-relations/initial-public-offer/statutory-policies>.

Further, pursuant to Section 134(3)(n) of the Act and Regulation 17(9) of the SEBI LODR Regulations, the Company has formulated and adopted the Risk Management Policy which provides a structured framework for identification, assessment, monitoring and mitigation of risks across the organization. The framework is designed to promote a proactive approach towards risk management and supports informed decision-making, business continuity and sustainable value creation.

This Risk Management Policy is applicable to all the functions, departments and geographical locations

of the Company. The purpose of this policy is to define, design and implement a risk management framework across the Company to identify, assess, manage and monitor risks. Aligned to this, purpose is also to identify potential events that may affect the Company and manage the risk within the risk appetite and provide reasonable assurance regarding the achievement of the Company's objectives and business continuity.

Based on the assessment carried out during the year under review, the Board is of the opinion that there are no material risks which may threaten the existence of the Company.

21) DISCLOSURE UNDER THE SEXUAL HARASSMENT OF WOMEN AT WORKPLACE (PREVENTION, PROHIBITION AND REDRESSAL) ACT, 2013:

Your Company has zero-tolerance policy towards cases of sexual harassment at workplace. Accordingly, an Internal Committee has been constituted, having female Chairperson, also a member of our senior management team and an external female member who is a lawyer. The Internal Committee ensures that all matters are resolved in a timely manner.

There is a robust internal mechanism and policy on 'Prevention of Sexual Harassment at Workplace' to deal with such matters. All employees are sensitized to the policy right from the day of employment. We also conduct awareness programs for employees on the policy and have awareness posters with details of how to report a complaint along with the details of the Internal Committee members, which are displayed across all our working locations. The Internal Committee ensures that all cases reported are resolved in a timely manner, in accordance with the POSH Act.

All investigations are handled in a very objective, sensitive, and fair manner without attaching any prima-facie guilt to the respondent merely upon receipt of a complaint against the employee and utmost confidentiality is maintained while handling these matters.

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Awfis Space Solutions Limited (CIN L74999DL2014PLC274236)** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's Books, Papers, Minute Books, Forms and Returns filed and other records maintained by the Company and also the information provided by the Company, its officers, and authorized representatives during the conduct of Secretarial Audit, the explanations and clarifications given to me and the representations made by the Management, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2026 ("audit period") complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2026, according to the provisions of:

- The Companies Act, 2013 (the Act) and the rules made thereunder;
- The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment, and External Commercial Borrowings. As there was neither any transaction of Direct Investment, External Commercial Borrowings nor any transaction of Overseas Direct Investment, therefore, no reporting is required to be made.

- The following Regulations prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-

- The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
- The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
- *The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
- The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;
- *The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021;
- *The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- *The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021;
- *The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018;
- The Securities and Exchange Board of India (Listing Obligations and Disclosures requirements) Regulations, 2015 (herein after referred as SEBI LODR); and
- Securities and Exchange Board of India (Depository and Participants) Regulations, 2018;

* No event took place under these regulations during the audit period.

- vi) Laws specifically applicable to the industry to which the Company belongs, as identified by the management:
- Information Technology Act, 2000 (the "IT Act") and the rules made thereunder;
 - Food Safety and Standards (Licensing and Registration of Food Businesses) Regulations, 2011;
 - Food Safety and Standards (Packaging and Labelling) Regulations, 2011;
 - Food Safety and Standards (Food Product Standards and Food Additives) Regulations, 2011;
 - Food Safety and Standards (Prohibition and Restriction on Sales) Regulations, 2011;
 - Food Safety and Standards (Contaminates, Toxins and Residues) Regulations, 2011;
 - Food Safety and Standards (Laboratory and Sampling Analysis) Regulations, 2011; and
 - Digital Personal Data Protection Act, 2023

I have also examined compliance with the applicable clauses of the Secretarial Standards (SS 1 & SS 2) issued by The Institute of Company Secretaries of India.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has during the financial year ended March 31, 2026 complied with the aforesaid laws.

Based on the information received and records made available I further report that;

- The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors, Independent Directors and Women Directors. No changes in the composition of the Board of Directors that took place during the financial year under review, were carried out in compliance with the provisions of the Act and the SEBI LODR Regulations.
- Adequate notice(s) were given to all directors regarding holdings of Board Meetings. Agenda and detailed notes on agenda were sent at least seven days in advance to all Directors. A system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting;
- All the decisions at the Board Meetings and Committee meetings were carried through with requisite majority as recorded in the minutes of the meetings of the Board of Directors or Committees

of the Board, as the case may be. The dissenting members' views, if any, were captured and recorded as part of the minutes.

- As per the records, the Company filed all the forms, returns, documents and resolutions as were required to be filed with the Registrar of Companies and other authorities and all the formalities relating to the same is in compliance with the Act.
- There are adequate systems & processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations & guidelines.

I have checked the compliance management system of the Company to obtain reasonable assurance about the adequacy of systems in place to ensure compliance of specifically applicable laws and this verification was done on test basis. I believe that the Audit evidence which I have obtained is sufficient and appropriate to provide a basis for my audit opinion. Except elsewhere mentioned in this report, in my opinion and to the best of my information and according to explanations given to me, I believe that the compliance management system of the Company is adequate to ensure compliance of laws specifically applicable to the Company.

I further report that during the audit period, no major events/ actions have taken place having a major bearing on the Company's affairs in pursuance to the above referred laws, rules, regulations, guidelines, standards etc., except that the following:

(b) Conservation of energy

At AWFIS, we are committed to sustainability and minimizing our environmental footprint through various energy conservation initiatives. Here's an overview of the steps we have taken:

1. Energy-Efficient Lighting:

- **LED Conversion:** We have replaced traditional lighting with energy-efficient LED bulbs throughout all AWFIS spaces. LEDs consume significantly less energy and have a longer lifespan, reducing maintenance needs.

2. Smart HVAC Systems:

- **Thermostat Optimization:** Implementing smart thermostats allows us to regulate heating, ventilation, and air conditioning (HVAC) systems more efficiently. This ensures that energy is used only when necessary and maintains optimal comfort levels for our occupants.
- **Regular Maintenance:** Scheduled maintenance of HVAC systems ensures they operate at peak efficiency, reducing energy waste.

3. Natural Light Utilization:

- **Design Considerations:** AWFIS spaces are designed to maximize natural light penetration. This reduces reliance on artificial lighting during daylight hours, thereby conserving electricity.

4. Energy-Efficient Equipment:

- **Appliances and Electronics:** We prioritize the use of Energy Star-rated appliances and energy-efficient office equipment to minimize energy consumption without compromising productivity.

5. Employee Awareness and Engagement:

- **Training Programs:** Regular training sessions are conducted to educate employees on energy conservation practices and encourage them to adopt energy-saving habits.

- **Feedback Mechanisms:** Employees are encouraged to provide feedback and suggestions for improving energy efficiency in the workplace.

6. Monitoring and Analytics:

- **Energy Usage Monitoring:** Utilization of advanced energy monitoring systems helps us track and analyze energy consumption patterns across AWFIS locations. This data enables us to identify opportunities for further optimization.

7. Renewable Energy Integration:

- **Solar Power:** Where feasible, we integrate solar panels to harness renewable energy sources, reducing our reliance on grid-based electricity and lowering carbon emissions.

8. Waste Reduction and Recycling:

- **Comprehensive Recycling Programs:** AWFIS promotes recycling initiatives for paper, plastic, glass, and other materials, contributing to overall resource conservation efforts.

9. Green Building Certifications:

- **Certification Pursuits:** AWFIS strives to obtain green building certifications such as LEED (Leadership in Energy and Environmental Design) to validate our commitment to sustainability.

10. Partnerships and Community Involvement:

- **Collaboration:** We collaborate with vendors, suppliers, and local communities to explore innovative solutions and promote sustainable practices beyond our immediate operations.

These initiatives underscore AWFIS's dedication to energy conservation, sustainability, and creating environmentally responsible co-working spaces. By implementing these measures, we aim to minimize our carbon footprint while fostering a productive and healthy work environment for all our stakeholders.

Pursuant to Section 134 of Companies Act, 2013 and Rule 8 of Companies (Accounts) Rules, 2014, the report of the Board shall contain the following information and details, namely:-

- (i) the steps taken or impact on conservation of energy:- **As mentioned above**
- (ii) the steps taken by the company for utilising alternate sources of energy:- **As mentioned above**

(iii) the capital investment on energy conservation equipment is Nil.

(c) Technology Absorption:

In our continuous pursuit of excellence, our company has embraced cutting-edge technologies to enhance operational efficiency and customer experience. Our AI-based technology development framework is accelerating product innovation, enabling faster go-to-market cycles and intelligent automation across core business functions, building systems that learn, adapt, and continuously improve with every interaction.

Central to our digital strategy is AI-driven data democracy – making data accessible, actionable, and meaningful across all levels of the organisation. By breaking down data silos and empowering every team with real-time insights, we are fostering a culture of informed decision-making available to all stakeholders.

Our tech-driven design and build capability ensures that every product and platform is rooted in user research, built with scalable architecture, and delivered with engineering precision. Cross-functional teams of designers, engineers, and product managers collaborate to ship solutions that are technically robust and intuitively simple for end users.

Finally, we are building a 360-degree view of the customer journey by capturing and unifying data across every touchpoint – from the first digital interaction to on-site visits, transactions, support engagements, and post-service feedback. This holistic customer intelligence enables us to personalise experiences, anticipate needs, and deliver consistent value at every stage of the customer lifecycle.

Moreover, the adoption of software defined wide area network (SD-WAN) with hub architecture has streamlined our network operations, enabling faster deployment of new sites and applications, improved application performance, and significant cost

savings on network expenses. The integration of information technology (IT) management tools such as ManageEngine, SolarWinds has strengthened our IT management capabilities. This comprehensive approach ensures all IT management needs are met within a single ecosystem.

Lastly, our enhanced security measures fortify our network against potential threats, ensuring data integrity and compliance with regulatory standards. The future outlook for our technology absorption includes further integration of AI and machine learning, a shift to cloud-based solutions, enhanced internet of things (IoT) management, and a continued emphasis on automation and orchestration. These advancements will bolster our IT infrastructure and support our strategic goals, ensuring we remain at the forefront of technological innovation.

Pursuant to Section 134 of Companies Act, 2013 and Rule 8 of Companies (Accounts) Rules, 2014, the report of the Board shall contain the following information and details, namely: –

- (i) the efforts made towards technology absorption: **As mentioned above**

Anchored in a culture of integrity and responsible innovation, Awfis Space Solutions Limited is deeply committed to upholding the highest standards of ethical conduct, transparency, and accountability. Our governance approach is rooted in principled leadership and inclusive stakeholder engagement, ensuring that every aspect of our operations reflects fairness, trust, and long-term value creation.

26. Overview of the entity's material responsible business conduct issues

Material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to our business, rationale for identifying the same approach to adapt or mitigate the risk along-with its financial implications:

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative)
1	Corporate Governance, Integrity and Responsible Business Practices	Risk/ Opportunity	Inadequate governance, ethical misconduct or non-compliance with the Code of Conduct may result in regulatory action, financial loss, reputational damage and erosion of stakeholder trust. Strengthening corporate governance, ethical business practices, and adherence to the Code of Conduct enhances stakeholder confidence, reinforces the Company's reputation, supports sustainable long-term value creation.	The Company reinforces compliance with its Code of Conduct through regular communication, monitoring and periodic reviews. It also conducts awareness and training programmes on ethical conduct, regulatory compliance and governance requirements, supported by appropriate internal controls and oversight mechanisms.	Positive Strong governance and ethical conduct enhance stakeholder trust, reputation and long-term business resilience. Negative Governance or compliance failures may lead to penalties, financial losses, reputational damage and operational disruption.

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative)
2	Cyber Security and Data Privacy	Risk/ Opportunity	Increasing digitalization, evolving regulatory requirements and rising cyber threats present material risks relating to data breaches, operational disruption, financial loss, regulatory penalties and reputational damage. Conversely, strengthening cybersecurity and data privacy frameworks through robust governance, advanced technologies and regulatory compliance can safeguard critical information assets, enhance data integrity, improve operational resilience and reinforce stakeholder confidence.	The Company maintains information security policies, access controls and monitoring mechanisms, supported by periodic security audits, vulnerability assessments, penetration testing and employee awareness programs. It also monitors compliance with applicable data protection requirements.	Positive Strong cybersecurity and data privacy practices protect critical information, enhance regulatory compliance and support operational resilience and stakeholder trust. Negative Security or privacy failures may result in service disruption, penalties, legal liabilities, financial loss and reputational damage.
3	Human Capital Development, Inclusion and Local Workforce Engagement	Opportunity	Developing a skilled, diverse and locally represented workforce enables Awfis to strengthen employee engagement, improve service delivery and build deeper connections with the communities in which it operates.	The Company invests in building a skilled and engaged workforce through structured learning and development, performance management, employee engagement, and inclusive hiring practices while prioritizing local recruitment, wherever feasible.	Positive Enhanced employee productivity, retention and service quality, together with lower recruitment costs and improved operational continuity, can support sustainable business growth.
4	Encouraging Entrepreneurial Culture	Opportunity	The presence of an entrepreneurial ecosystem presents an opportunity for the Company, as startups and early-stage enterprises seek infrastructural support. Engagements with such entities may provide exposure to emerging business models and evolving market requirements.	The Company seeks to support the startup ecosystem by offering flexible workspace solutions for startups and small enterprises, engaging with entrepreneurial communities, fostering ecosystem relationships, and incorporating member insights to enhance workspace formats and services.	Positive Such engagements may contribute to incremental revenue opportunities and client diversification over time, subject to business conditions and client demand.

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative)
5	Health, Safety and Workplace Well-being	Risk/ Opportunity	Health and safety incidents, communicable diseases and adverse workplace conditions may affect employee well-being, workforce availability, productivity, service delivery and business continuity. Conversely, maintaining safe, hygienic and well-ventilated workspaces supports employee engagement, client confidence and operational resilience.	The Company follows established health and safety practices, including workplace hygiene, employee wellness initiatives, preventive measures and contingency planning. It also coordinates with relevant facility teams to support appropriate ventilation and healthy workplace conditions.	Positive Effective health and safety practices can improve employee well-being, productivity, service continuity and stakeholder confidence. Negative Investment on safety, wellness and workplace infrastructure may increase operating costs; however, such investments help reduce disruption-related risks and support long-term business resilience.
6	Board Transparency	Opportunity	Transparent and effective Board oversight strengthens accountability, supports informed decision-making and enhances stakeholder confidence in the Company's governance framework.	The Company promotes Board effectiveness through clearly defined roles and responsibilities, regular Board and Committee meetings, timely circulation of relevant information, transparent disclosures and ongoing engagement with stakeholders.	Positive Effective Board oversight and transparent governance can enhance stakeholder trust, strengthen the Company's reputation, improve access to capital and support sustainable long-term growth.
7	Macroeconomic and Geopolitical Risk	Risk	Fluctuations in global and domestic macroeconomic conditions, including geopolitical uncertainties, may impact interest rates, inflation, and overall economic stability. Such developments may influence consumer purchasing behavior, moderate demand, increase operating costs, and create market uncertainty, potentially affecting the Company's revenue and long-term growth.	The Company endeavors to mitigate concentration risk by diversifying vendor and service dependencies, closely monitoring geopolitical developments for potential business implications, and maintaining operational flexibility to effectively respond to evolving market conditions.	Negative Rising operating costs and market volatility may impact financial performance. The Company focuses on proactive risk management to mitigate financial exposure and maintain long-term business stability.

* The term wages here denote the salary paid by the company.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes. The Company has a dedicated internal committee/individual responsible for overseeing and addressing human rights-related matters. This committee/individual functions as part of the broader governance and compliance framework, ensuring that human rights considerations are embedded across operational practices. It is tasked with monitoring potential impacts, guiding policy implementation, and ensuring alignment with applicable legal and ethical standards.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Company has established a well-defined grievance redressal framework to address concerns related to human rights. Stakeholders including employees, vendors, customers, and others are provided with accessible and confidential channels to report any potential or actual breaches of ethical standards, legal requirements, or Company policies. Non-permanent employees can raise concerns directly through designated communication lines, while all individuals are also empowered to report sensitive matters through the Whistle Blower mechanism. This framework ensures confidentiality, protection from retaliation, and timely review of all concerns, reinforcing the Company's commitment to upholding human rights and ethical integrity across its operations.

6. Number of Complaints on the following made by employees and workers:

	FY 2025-26 (Current Financial Year)			FY 2024-25 (Previous Financial Year)

Note: As per the IMF's purchasing power parity (PPP) conversion rate for India per international dollar for year 2026 is 20.34, we have applied this exchange rate to compute the adjusted turnover.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Not Applicable. As services company, Awfis Space Solutions Limited operates in a low-energy-intensive sector and does not have any manufacturing or industrial facilities that fall under the category of Designated Consumers (DCs) as defined by the Performance, Achieve and Trade (PAT) Scheme of the Government of India. Accordingly, the provisions of the PAT Scheme are not applicable to the Company's operations.

3. Provide details of the following disclosures related to water, in the following format:

Water consumption within the Company's office premises is exclusively allocated for human use, and the Company has taken measures to promote responsible water usage. While no formal monitoring system for water utilization is currently in place, the Company has implemented energy efficient faucets and fixtures to encourage mindful consumption.

Awfis Space Solutions Limited operates its centres within commercially managed buildings and does not maintain independent water discharge systems. All wastewater generated at Awfis centres is managed through the centralized sewage treatment infrastructure of the respective buildings. Accordingly, the Company does not directly discharge water into any natural water bodies or external facilities.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Given the Company's operational profile as service provider, its activities do not generate industrial effluents or process wastewater and therefore do not require a Zero Liquid Discharge (ZLD) mechanism. Water usage is minimal and limited to domestic purposes within office premises. Nonetheless, the Company remains committed to sustainable resource management and continually seeks opportunities to enhance efficiency and reduce environmental impact across its centres.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Awfis Space Solutions Limited follows responsible waste management practices across its centres. Office waste, including paper and plastic, is segregated at source and placed in designated common disposal areas provided by the respective building managements. The collection and disposal of such waste are handled by building authorities through authorized waste management partners, in accordance with applicable municipal regulations. The Company's operations do not involve manufacturing activities or the use of hazardous or toxic chemicals. For routine facility management and housekeeping activities, approved consumables and low-toxicity cleaning agents are used to ensure a safe working environment and environmentally responsible operations.

11. Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity		-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not applicable since Company's premises are not situated near ecologically sensitive areas.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Use of Origami Eco-Friendly Paper Products	Awfis has shifted to Origami brand paper products across centres. These products are made from recycled and responsibly sourced materials, reducing dependence on virgin paper and supporting sustainable procurement practices.	Reduced paper-related environmental footprint, improved recyclability, and contribution to overall waste reduction.
2	Use of Ecolab Environment-Friendly Housekeeping Materials	Awfis has adopted Ecolab's low-toxicity, biodegradable cleaning solutions for housekeeping operations. These products comply with global environmental and safety standards, reducing reliance on harsh chemicals.	Lower chemical discharge, reduced hazardous waste generation, improved indoor environmental quality, and enhanced health and safety for staff and occupants.
3	Strengthened Waste Management Practices	Waste from DG servicing (such as used oil and filters) is fully handled by authorized vendors as per regulatory norms. Daily paper and plastic waste is segregated at source and disposed through the building's centralized waste management system.	Safe disposal of hazardous waste, zero direct discharge into the environment, improved waste segregation, and alignment with regulatory compliance.
4	Collection of Waste Wrappers & Paper for NGO Upcycling Program	Awfis recently executed a waste collection drive across centres, where used paper, wrappers, and other dry waste were gathered and handed over to an NGO. The NGO upcycles this waste to create saleable artifacts such as handmade products, stationery items, and decorative pieces, thereby extending the lifecycle of waste materials.	Reduced dry waste sent to landfill, promotion of circular economy practices, support to NGO livelihood programs, and increased employee participation in sustainability initiatives.
5	Encouraging Digital Documentation & Reduced Printing	Awfis has promoted digital-first processes for internal communication, approvals, documentation, and reporting. Printing is minimized across centres, and default printer settings are set to double-sided printing where required. Also, we have introduced HP secure printing in all our centers where we focus to minimize unnecessary unattended print outs.	Lower paper consumption, reduced waste generation, and overall improvement in resource efficiency.

- Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

The Company website provides detailed information about its wide range of services.

Link: <https://www.awfis.com/>

- Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

As a service-based organization providing office spaces, we ensure that all our members are informed and educated about the responsible usage of our services through a comprehensive onboarding process. Each member signs an agreement outlining the inclusions and exclusions of the services provided.

Additionally, we offer Quick Response Guides (QRGs) at our centers, which are shared with members during onboarding. Each center is managed by a dedicated Community Manager (CM) who is responsible for assisting members with any queries and ensuring they are well-informed about the available services. We also keep our members regularly updated with relevant and useful information to enhance their experience.

- Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

Awfis Space Solutions Limited has established structured mechanisms to keep members informed of any disruption or discontinuation of essential services such as office access, internet connectivity, utilities, or facility management. Members are proactively notified in advance through email communications for planned maintenance or scheduled downtime, while unexpected service interruptions are communicated in real time via email or phone, along with indicative resolution timelines and alternative arrangements, where applicable. Additionally, members have access to dedicated support channels for clarification and assistance, with centre managers and operations teams engaged to ensure timely resolution and minimal impact, thereby maintaining transparency, service continuity, and member trust.

- Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

As a service-oriented entity, Awfis Space Solutions Limited does not offer physical products and, accordingly, product-level information disclosures are not applicable. However, the Company provides members with essential operational information through centre-level brochures and onboarding materials, including dos and don'ts, fire safety guidelines (including the use of fire extinguishers), and details of administrative and support services. In addition, the Company conducts periodic consumer satisfaction surveys through an automated mechanism, with feedback collected twice a month via email and app notifications on key service aspects such as connectivity, workspace quality, centre staff, events, and overall experience. The feedback is reviewed by the respective Centre Managers and used to take timely corrective or improvement actions, supporting continuous enhancement of service quality and member satisfaction.

Independent Auditor’s Report

To the Members of
Awfis Space Solutions Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1.
- We have audited the accompanying standalone financial statements of Awfis Space Solutions Limited (‘the Company’), which comprise the Standalone Balance Sheet as at 31 March 2026, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Cash Flow and the Standalone Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including material accounting policy information and other explanatory information.
2.
- In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (‘the Act’) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (‘Ind AS’) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2026, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3.
- We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (‘ICAI’) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4.
- Key audit matters are those matters that, in our professional judgment were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

5.
- We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matters
Revenue recognition from Rental Income and Income from construction and fit-out projects Refer note 4A to the standalone financial statements for material accounting policy information and note 22 for details of revenue recognized and related disclosures. Revenue from leased out co-working space (Rental Income) is recognised on a straight-line basis over the non-cancellable period in case of operating leases and is recognised over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor’s net investment in the lease in case of finance leases, in accordance with the principles of Ind AS 116, Leases (‘Ind AS 116’). Significant management judgement is required in assessing whether the lease arrangement is an operating lease or a finance lease and in estimation of ‘lease term’ to allocate the lease income on a systematic basis over the period of lease.	Our audit procedures on revenue recognition included, but were not limited to the following: a) Evaluated the appropriateness of accounting policy for revenue recognition of rental income in accordance with Ind AS 116 and revenue recognition from construction and fit-out projects in accordance with Ind AS 115; b) Obtained an understanding of the systems, processes and controls implemented by the management for computing and recording revenue and related contract assets and contract liabilities; c) Evaluated the design and implementation, and tested the operating effectiveness of controls over the revenue recognition;

Key audit matters	How our audit addressed the key audit matters
Revenue from construction and fit-out projects is recognised over a period of time using output method of measuring progress towards complete satisfaction of performance obligation in accordance with the principles of Ind AS 115, Revenue from contracts with customers. Significant management judgement is required in identification of performance obligations, determination of the Company’s rights to receive payments for performance completed till date, determination of progress of the performance obligations as per contract and impact due to contract modifications, if any. Changes in these judgements and the related estimates as contracts progress can result in material adjustments to revenue and margins. Considering the materiality of amounts and significance of management judgement in estimates involved, revenue recognition from rental income and income from construction and fit-out projects is identified as a key audit matter for the current year audit.	d) For a sample of lease contracts: - Evaluated management’s classification of leases into operating lease and finance lease, based on our review of the contractual terms of the lease arrangements; - Ensured the lease term determined by the management is in accordance with the principles of Ind AS 116; - Recomputed the lease income recognised on a straight-line basis over the lease term and related lease equalization reserve, in case of operating leases; - Assessed appropriateness of the models used by the management to recognise finance income on a systematic and rational basis over the lease term, reflecting a constant periodic rate of return on the lessor’s net investment in the lease, in case of finance leases; - Tested the mathematical accuracy of management workings. e) Evaluated the appropriateness of the management’s assessment that the satisfaction of performance obligations relating to construction and fit-out projects is over time in accordance with Ind AS 115; f) Understood the process for determining the progress of performance obligations which has been reviewed periodically by independent experts based on surveys of the construction and fit-out projects and approved by appropriate levels of management; g) Assessed the professional competence and objectivity of the management’s expert; h) Tested on a sample basis and recomputed revenue recognised during the year with respect to ongoing and completed construction and fit-out projects, by inspecting underlying contracts, work completion certificates supporting the progress of satisfaction determined by the management’s expert for ongoing projects and handover documents for completed projects; i) Performed substantive analytical procedures on revenue which included centre and project-wise analysis, occupancy analysis, margin analysis, customer analysis, etc. to determine any unusual variances; j) Performed other substantive audit procedures including obtaining debtor confirmations on a sample basis and reconciling revenue recorded during the year with statutory returns; k) Tested unusual non-standard journal entries impacting revenue recorded during the year based on risk-based criteria; and l) Ensured the adequacy and appropriateness of the disclosures made in the standalone financial statements in accordance with the requirements of applicable accounting standards.

Key audit matters	How our audit addressed the key audit matters
Accounting for leases Refer note 4M to the standalone financial statements for material accounting policy information and note 38 for lease related disclosures. As at 31 March 2026, the carrying value of right-of-use assets and lease liabilities amounts to ₹10,629.31 million and ₹ 14,502.69 million representing 37% and 50% of total assets, respectively. The Company applies Ind AS 116, Leases to account for lease contracts which requires the Company to recognise ‘lease liabilities’ representing the obligation with respect to unpaid lease payments under such contracts, and ‘right-of-use assets’ representing the right to use the underlying assets for the lease term. Significant management judgement is required in determining whether a contract contains a lease, assessment of lease term and determination of appropriate discount rate. The Company has multiple lease contracts with varying terms which requires significant effort to ensure compliance with the accounting standard requirements. Considering the materiality of amount involved and large volume of individual lease agreements that require significant management and auditor judgement and efforts, accounting for leases is identified as a key audit matter for current year audit.	Our audit procedures on accounting for leases included, but were not limited to the following: a) Assessed the appropriateness of the Company’s accounting policy for leases in accordance with the requirements of Ind AS 116; b) Obtained an understanding of the management’s process for identification and accounting of leasing arrangements as per Ind AS 116. Evaluated the design and implementation, and tested the operating effectiveness of management’s controls relating to identification and accounting of lease contracts; c) Obtained and examined, on a sample basis, the lease agreements that were new or modified during the current financial year to verify that the particulars considered for calculation of right-of-use assets and lease liabilities as at the reporting date were consistent with the corresponding terms of such contracts. Further, for such new or modified contracts, evaluated whether management’s determination of the lease term is accurate, including assessment of appropriateness of management’s estimation relating to the probability of management exercising lease renewal options given under such contracts, basis our discussion with the management and understanding of the business plans; d) Assessed the appropriateness of the discount rate used for determining the present value of unpaid lease payments for calculating the lease liabilities at initial recognition; e) Assessed the integrity and appropriateness of the model used by the management to account for leases as per Ind AS 116, including its mathematical accuracy. On a sample basis, recalculated the amount of lease liability, right-of-use assets, depreciation and interest expense recorded by the Company for the current financial year; and f) Ensured the adequacy and appropriateness of disclosures made in the standalone financial statements in accordance with the requirements of applicable accounting standards.

Information other than the Standalone Financial Statements and Auditor's Report thereon

6. The Company’s Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor’s report thereon. The Annual Report is expected to be made available to us after the date of this auditor’s report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company’s Board of Directors. The Company’s Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
8. In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. The Board of Directors is also responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

11. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors’ use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
16. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the **Annexure A**, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
17. Further to our comments in **Annexure A**, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - Except for the matters stated in paragraph 17(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - The standalone financial statements dealt with by this report are in agreement with the books of account;
 - In our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;

- On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2026 from being appointed as a director in terms of section 164(2) of the Act;
- The qualification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 17(b) above on reporting under section 143(3)(b) of the Act and paragraph 17(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).
- With respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2026 and the operating effectiveness of such controls, refer to our separate report in **Annexure B** wherein we have expressed an unmodified opinion; and
- With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - The Company, as detailed in note 33 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2026;
 - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2026;
 - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2026;
 - The management has represented that, to the best of its knowledge and belief, as disclosed in note 47(v) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Company to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries') or provide

any guarantee, security or the like on behalf the Ultimate Beneficiaries;

- The management has represented that, to the best of its knowledge and belief, as disclosed in note 47(v) to the standalone financial statements, no funds have been received by the Company from any persons or entities, including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- Based on such audit procedures performed as considered reasonable and appropriate in the circumstances,

nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.

- The Company has not declared or paid any dividend during the year ended 31 March 2026.
- As stated in Note 45 to the standalone financial statements and based on our examination which included test checks, except for instance mentioned below, the Company, in respect of financial year commencing on 1 April 2025, has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with other than the

consequential impact of the exception given below. Furthermore, except for the instance mentioned below, the audit trail has been preserved by the Company as per the statutory requirements for record retention:

Nature of exception noted	Details of exception
Instances of accounting software maintained by a third party where we are unable to comment on the audit trail feature at database level	The accounting software used for maintenance of accounting records is operated by a third-party software service provider. In the absence of any information on existence of audit trail (edit logs) for any direct changes made at the database level in the 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with SAE 3402, Assurance Reports on Controls at a Service Organization), we are unable to comment on whether audit trail feature with respect to the database of the said software was enabled and operated throughout the year.

Annexure A referred to in paragraph 16 of the Independent Auditor's Report of even date to the members of Awfis Space Solutions Limited on the standalone financial statements for the year ended 31 March 2026

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, capital work-in-progress and relevant details of right-of-use assets.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment, capital work-in-progress and relevant details of right-of-use assets under which the assets are physically verified in a phased manner over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain property, plant and equipment, capital work-in-progress and relevant details of right-of-use assets were verified during the year and no material discrepancies were noticed on such verification.
- (c) The Company does not own any immovable property (including investment properties) (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee). Accordingly, reporting under clause 3(i)(c) of the Order is not applicable to the Company.
- (d) The Company has adopted cost model for its Property, Plant and Equipment including right-of-use assets and intangible assets. Accordingly, reporting under clause 3(i)(d) of the Order is not applicable to the Company.
- (e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.
- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed as compared to book records
- (b) As disclosed in Note 17 to the standalone financial statements, the Company has been sanctioned a working capital limit in excess of ₹ 5 crores, by banks on the basis of security of current assets. Pursuant to the terms of the sanction letter, till the time such limit remains unutilised/undrawn the Company is not required to file any quarterly return or statement with such banks.
- (iii) The Company has not provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or any other parties during the year. The Company has also not made any investment in firms, Limited Liability Partnerships (LLPs) or any other parties during the year. The Company has made investments in a Company during the year.
- (a) The Company has not provided any loans or provided any advances in the nature of loans, or guarantee, or security to any other entity during the year. Accordingly, reporting under clauses 3(iii)(a) of the Order is not applicable to the Company.
- (b) The Company has not provided any guarantee or given any security or granted any loans or advances in the nature of loans during the year. However, the Company has made investment in 1 entity amounting to ₹ 0.10 million (year-end balance ₹ 0.10 million) and in our opinion, and according to the information and explanations given to us, such investment made is, prima facie, not prejudicial to the interest of the Company.
- (c) The Company does not have any outstanding loans and advances in the nature of loans at the beginning of the current year nor has granted any loans or advances in the nature of loans during the year. Accordingly, reporting under clauses 3(iii)(c), 3(iii)(d), 3(iii)(e) and 3(iii)(f) of the Order is not applicable to the Company.
- (iv) In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act in respect of investments made, as applicable. Further, the Company has not entered into any transaction covered under section 185 and section 186 of the Act in respect of loans granted, guarantees and security provided by it.
- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there are no amounts which have been deemed to be deposits within the meaning of sections 73 to 76 of the Act and the

Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.

- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of section 148 of the Act, in respect of Company's products/ services/ business activities. Accordingly, reporting under clause 3(vi) of the Order is not applicable.
- (vii) (a) In our opinion and according to the information and explanations given to us, undisputed

statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, cess and other material statutory dues, as applicable, have generally been regularly deposited with the appropriate authorities by the Company, though there have been slight delays in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us, we report that there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except for the following:

Name of the statute	Nature of dues	Gross Amount (₹ in millions)	Amount paid under Protest (₹ in millions)	Period to which the amount relates	Forum where dispute is pending

Goods and Service Tax Act, 2017	Goods and services tax on certain transactions	6.25	-	FY 2017-18	Deputy Commissioner of State Tax, Maharashtra

- viii) According to the information and explanations given to us, we report that no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been previously recorded in the books of accounts.

- (ix) (a) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of its loans or borrowings or in the payment of interest thereon to any lender.

- (b) According to the information and explanations given to us including representation received from the management of the Company, and on

the basis of our audit procedures, we report that the Company has not been declared a willful defaulter by any bank or financial institution or government or any government authority.

- (c) In our opinion and according to the information and explanations given to us, money raised by way of term loans were applied for the purposes for which these were obtained.

- (d) In our opinion and according to the information and explanations given to us, the Company has not raised any funds on short term basis during the year. Accordingly, reporting under clause 3(ix)(d) of the Order is not applicable to the Company.

- (e) In our opinion and according to the information and explanations given to us and on an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- (f) In our opinion and according to the information and explanations given to us, the Company has not raised any loans during the year on the pledge of securities held in its subsidiaries.
- (x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Further, in our opinion and according to the information and explanations given to us, money raised in the previous year by way of initial public offer were applied for the purposes for which these were obtained, though idle funds which were not required for immediate utilization have been invested in readily realizable liquid investments.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no fraud on the Company has been noticed or reported during the period covered by our audit.
- (b) According to the information and explanations given to us including the representation made to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.
- (c) According to the information and explanations given to us including the representation made to us by the management of the Company, there are no whistle-blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- (xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company with the related parties are in compliance with sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the standalone financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act.
- (xiv) (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system which is commensurate with the size and nature of its business as required under the provisions of section 138 of the Act.
- (b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.
- (xv) According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and accordingly, reporting under clause 3(xv) of the Order with respect to compliance with the provisions of section 192 of the Act are not applicable to the Company.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under clauses 3(xvi) (a), (b) and (c) of the Order are not applicable to the Company.
- (d) Based on the information and explanations given to us and as represented by the management of the Company, the Group (as defined in Core Investment Companies (Reserve Bank) Directions, 2016) does not have any CIC.
- (xvii) The Company has not incurred any cash losses in the current financial year as well as the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year. Accordingly, reporting under clause 3(xviii) of the Order is not applicable to the Company.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information in the standalone financial statements, our knowledge of the plans of the Board of Directors and management and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We,

however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

- (xx) According to the information and explanations given to us, the Company has met the criteria as specified under sub-section (1) of section 135 of the Act read with the Companies (Corporate Social Responsibility Policy) Rules, 2014, however, in the absence of average net profits in the immediately three preceding years, there is no requirement for the Company to spend any amount under sub-section (5) of section 135 of the Act. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

- (xxi) The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of standalone financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.

Annexure B to the Independent Auditor's Report of even date to the members of Awfis Space Solutions Limited on the standalone financial statements for the year ended 31 March 2026

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Awfis Space Solutions Limited ('the Company') as at and for the year ended 31 March 2026, we have audited the internal financial controls with reference to standalone financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Standalone Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls

with reference to standalone financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with Reference to Standalone Financial Statements

6. A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Standalone Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and

such controls were operating effectively as at 31 March 2026, based on internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Material accounting policy information and other explanatory notes to Standalone Financial Statements

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

1. Corporate information

Awfis Space Solutions Limited (the 'Company') was incorporated on 17 December 2014 with its registered office at C-28-29, Kissan Bhawan, Qutab Institutional Area, New Delhi-110016. The Company is primarily engaged in the business of providing workspace on rent, integrated facility management income (facility management services) and enterprise workspace designing and building services (construction and fit-out projects).

The Company has completed its Initial Public Offer (IPO) and accordingly the Company's equity shares were listed on National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) on 30 May 2024.

The standalone financial statements were approved for issue in accordance with resolutions of directors on 25 May 2026.

2. Basis of preparation

These standalone financial statements are prepared in accordance with the Indian Accounting standards (Ind AS) as notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (Ind AS Compliant Schedule III), as applicable to the standalone financial statements.

The material accounting policies, as set out in the following paragraphs of this note, have been consistently applied by the Company to all the periods presented in the said standalone financial statements.

The preparation of the said standalone financial statements requires the use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Company's accounting policies. The areas where estimates are significant to the standalone financial statements, or areas involving a higher degree of judgment or complexity, are appropriately disclosed.

All the amounts included in the said standalone financial statements are reported in millions of Indian Rupees and are rounded to the nearest million, except per share data and unless stated otherwise.

Basis of measurement

The standalone financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in

India. Further, the standalone financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies. Fair valuations related to financial assets and financial liabilities are categorised into level 1, level 2 and level 3 based on the degree to which the inputs to the fair value measurements are observable. Accounts have been prepared using accrual basis of accounting.

Going concern

The Company has a net current liability position of ₹ 3,388.14 million as at 31 March 2026 (31 March 2025: ₹ 2,140.98 million). The board of directors have considered the financial position of the Company at 31 March 2026, the projected cash flows and financial performance of the Company for at least twelve months from the date of approval of these financial statements as well as planned cost and cash improvement actions, and believe that the plan for sustained profitability remains on course. The board of directors have taken adequate steps such as raising additional funds, generation of cash flow from operations that it needs to settle its liabilities as they fall due and optimizing the working capital requirements to ensure that appropriate long-term cash resources are in place at the date of signing the accounts to fund the company's operations. In the view of this, these standalone financial statements have been prepared on a going concern basis.

3. Significant accounting judgements, estimates and assumptions

The preparation of standalone financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these standalone financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates. Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods affected.

Use of estimates and judgements

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts

Material accounting policy information and other explanatory notes to Standalone Financial Statements

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Also, the Company has made certain judgements in applying accounting policies which have an effect on amounts recognized in the standalone financial statements.

i) Contingencies:

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal and other claims. By virtue of their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgements and the use of estimates regarding the outcome of future events.

ii) Defined benefit obligations (DBO):

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

iii) Useful lives of property, plant and equipment:

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

iv) Capitalisation of fit-out period:

Cost (depreciation on right-of-use asset, interest expense on lease liability and project and design related employee cost) for the fit-out period is capitalized as a part of leasehold improvement, considering, this cost if attributable to bring the asset in necessary condition for its intended use.

v) Leases:

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease

adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain.

The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Company's operations taking into account the location of the underlying building and the availability of suitable alternatives.

The initial recognition of lease liabilities at present value requires the identification of an appropriate discount rate. The Company has determined the incremental borrowing rate based on considerations specific to the leases or for a portfolio of leases with similar characteristics by taking consideration of the risk-free borrowing rates as adjusted for country / company specific risk premiums (basis the readily available data points).

Where the Company is the lessor, the treatment of leasing transactions is mainly determined by whether the lease is considered to be an operating or finance lease. In making this assessment, management looks at the substance of the lease, as well as the legal form, and makes a judgement about whether substantially all of the risks and rewards of ownership are transferred. Arrangements which do not take the legal form of a lease but that nevertheless convey the right to use an asset are also covered by such assessments. The management's estimates and assessments were based in particular on assumptions regarding the development of the economy as a whole and the development of the basic legal parameters.

Amounts due from lessees under finance leases are recorded as receivables classified under Financial Asset at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

vi) Deferred taxes:

Deferred tax assets can be recognized for deductible temporary differences (including unused tax losses) only to the extent that it is probable that taxable profit will be available against which the deductible

Material accounting policy information and other explanatory notes to Standalone Financial Statements

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

temporary difference can be utilized. Management has assessed that as at 31 March 2026 it is not probable that such deferred tax assets can be realised in excess of available temporary differences and hence has recognized deferred tax assets to the extent of deferred tax liabilities. Management re-assesses unrecognized deferred tax assets at each reporting date and recognizes to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered. For details about deferred tax assets, refer note 39.

vii) Revenue from contract with customers:

The Company has applied judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers. Refer note 4A for further details.

viii) Impairment of non-financial assets:

The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

ix) Impairment of financial assets:

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit losses on outstanding receivables and advances.

4. Summary of material accounting policies

A. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from contracts with customers:

- Revenue is recognized on the basis of approved contracts regarding the transfer of goods or services to a customer for an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services.
- Revenue is measured at the amount of transaction price after taking into account the amount of discounts, incentives, volume rebates, outgoing taxes on sales. Any amounts receivable from the customer are recognised as revenue after the control over the goods sold are transferred to the customer.

- Variable consideration – This includes incentives, volume rebates, discounts etc. It is estimated at contract inception considering the terms of various schemes with customers and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. It is reassessed at the end of each reporting period.

Satisfaction of performance obligations:

An entity shall recognise revenue when (or as) the entity satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset. For each performance obligation identified, an entity shall determine at contract inception whether it satisfies the performance obligation over time or satisfies the performance obligation at a point in time. If an entity does not satisfy a performance obligation over time, the performance obligation is satisfied at a point in time.

For performance obligations that an entity satisfies over time, an entity shall disclose both of the following:

- the methods used to recognise revenue (for example, a description of the output methods or input methods used and how those methods are applied); and
- an explanation of why the methods used provide a faithful depiction of the transfer of goods or services.

For performance obligations satisfied at a point in time, an entity shall disclose the significant judgements made in evaluating when a customer obtains control of promised goods or services.

Rental income

Revenue from leased out co-working space (Rental income) under an operating lease is recognized on a straight-line basis over the non-cancellable period ('Lease term for revenue'), except where there is an uncertainty of ultimate collection. After lease term for revenue or where there is no non-cancellable period, rental revenue is recognized on an accrual basis, in accordance with the terms of the respective contract as and when the Company

Material accounting policy information and other explanatory notes to Standalone Financial Statements

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

satisfies performance obligations by delivering the services as per contractual agreed terms.

Unbilled revenue represents revenues recognized after the last invoice raised to customer to the period end. These are billed in subsequent periods based on the terms and conditions specified in the agreement with the customers. The Company presents service revenue net of indirect taxes in its Standalone Statement of Profit and Loss.

Integrated facility management income ('Facility management services')

Revenue from facility management services is recognized monthly, on accrual basis, in accordance with the terms of the respective agreement as and when services are rendered.

Enterprise workspace designing and building services ('Construction and fit-out projects')

Construction and fit-out projects where the Company is acting as a contractor, revenue is recognized in accordance with the terms of the construction agreements. Under such contracts, assets created does not have an alternative use and the Company has an enforceable right to payment.

The Company uses output method for measuring progress for performance obligation satisfied over time. Under this method, the Company recognizes revenue in proportion of progress of the performance obligations as per contract and impact due to contract modifications, if any. The management reviews and revises its measure of progress periodically and are considered as change in estimates and accordingly, the effect of such changes in estimates is recognised prospectively in the period in which such changes are determined. However, when the total project cost is estimated to exceed total revenues from the project, the loss is recognized immediately.

As the outcome of the contracts cannot be measured reliably during the early stages of the project, contract revenue is recognized only to the extent of costs incurred in the statement of profit and loss.

Sale of food items

Revenue from sale of food items (goods) is recognised on transfer of control of ownership of goods to the buyer and when no significant uncertainty exists regarding the amount of consideration that will be derived.

Other services

Revenue from contracts with customers for other allied services is recognized when control of the goods or services are transferred or rendered to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services, in accordance with the terms of the respective agreement.

Contract balances

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in note 4Q (i) Financial instruments – recognition and subsequent measurement.

As the period of time between customer payment and performance will always be one year or less, the Company applies the practical expedient in Ind AS 115.63 and does not adjust the promised amount of consideration for the effects of financing.

Contract liabilities

When either party to a contract has performed its obligation, an entity shall present the contract in the balance sheet as a contract asset or a contract liability, depending on the relationship between the company's performance and the customer's payment.

B. Borrowing costs

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

C. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

Assets:

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading

Material accounting policy information and other explanatory notes to Standalone Financial Statements

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

- iii) Expected to be realised within twelve months after the reporting period, or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Liabilities:

A liability is current when:

- (i) It is expected to be settled in normal operating cycle
- (ii) It is held primarily for the purpose of trading
- (iii) It is due to be settled within twelve months after the reporting period, or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating Cycle:

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

D. Fair value measurement

Fair value is the price at the measurement date at which an asset can be sold or paid to transfer a liability, in an orderly transaction between market participants. The Company's accounting policies require, measurement of certain financial/ non-financial assets and liabilities at fair values (either on a recurring or non-recurring basis). Also, the fair values of financial instruments measured at amortised cost are required to be disclosed in the said standalone financial statements.

The Company is required to classify the fair valuation method of the financial/ non-financial assets and liabilities, either measured or disclosed at fair value in the standalone financial statements, using a three level fair value hierarchy (which reflects the significance of inputs used in the

measurement). Accordingly, the Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The three levels of the fair value hierarchy are described below:

Level 1: Quoted (unadjusted) prices for identical assets or liabilities in active markets

Level 2: Significant inputs to the fair value measurement are directly or indirectly observable

Level 3: Significant inputs to the fair value measurement are unobservable.

E. Property, plant and equipment ('PPE')

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work in progress are stated at cost net of impairment loss, if any. It includes direct costs comprise of purchase price, taxes, duties, freight and other incidental expenses (including cost incurred during fit out periods). Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

Depreciation is recognized on a straight-line basis over the estimated useful lives of the respective assets as under:

S. no.	Property, plant and equipment	Useful life as prescribed by Schedule II of the Companies Act, 2013 (in years)	Estimated useful life (in years)
1	Computers	3	3

Material accounting policy information and other explanatory notes to Standalone Financial Statements

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

S. no.	Property, plant and equipment	Useful life as prescribed by Schedule II of the Companies Act, 2013 (in years)	Estimated useful life (in years)
2	Office equipments	5	5 to 10 years depending upon the useful life of the components.
3	Furniture and fixtures	10	10
4	Vehicles	8	8
5	Leasehold improvements	On lease term	5 to 10 years depending upon the useful life of the components.

* Leasehold improvements includes partition works, flooring, fit-out works, civil and painting works, electrical installations and other components.

Useful life of assets different from prescribed in Schedule II has been estimated by the management supported by technical assessment.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period and the effect of any changes in estimate is accounted for prospectively.

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

F. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial

recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Depreciation is recognized on a straight-line basis over the estimated useful lives of the intangible assets as under:

Category of assets	Useful life estimated by management
Computer software	5 years

G. Impairment of non-financial assets

The Company's non-financial assets other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents smallest group of assets that generates cash inflows that are largely independent of the cash inflows or other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value

(All amounts in ₹ millions, unless otherwise stated)

using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit and loss. In respect of assets for which impairment loss has been recognized in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss has been recognized.

H. Investment in subsidiaries

The Company records the investment in equity instrument of subsidiaries at cost less impairment loss, if any. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amount is recognised in the statement of profit and loss.

I. Foreign currency translations

(i) Functional and presentation currency

Items included in the standalone financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The standalone financial statements are presented in Indian rupee (₹), which is the Company's functional and presentation currency.

(ii) Translations and balances

Foreign currency transactions are translated into functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the year end exchange rates are generally recognised in profit or loss.

Foreign exchange gains and losses are presented in the statement of profit and loss on a net basis.

J. Inventories

Stock of food items and furniture and other work from home solutions are valued at lower of cost and net realisable value and cost is determined on first-in-first out ('FIFO') basis.

The cost is determined by considering the purchase price and direct material costs. Net realisable value is the estimated selling price in the ordinary course of business less estimated cost of completion to make the sale.

K. Employee benefits

(i) Defined contribution plan

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the standalone balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the standalone balance sheet date, then excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payment or a cash refund.

(ii) Defined benefit plan

The Company's net obligation in respect of gratuity is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market

Material accounting policy information and other explanatory notes to Standalone Financial Statements

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

yields on Government securities as at the standalone balance sheet date.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Compensated absences

Accumulated leaves which is expected to be utilized within the next 12 months is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that is expects to pay as a result of unused entitlement that has accumulated at the reporting date. The Company treats accumulated leave expected to be carried forward beyond 12 months, as long-term employee benefits for measurement purpose. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit-credit method at the year-end. The related re-measurements are recognized in the statement of profit and loss in the period in which they arise. The Company presents the entire amount as current liability in standalone balance sheet since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

(iv) Share-based payments

Employees of the Company receives remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using Black Scholes valuation model. The grant date fair value of options granted to employees is recognised as employee expense with a corresponding increase in employee stock options reserve, over the period in which the eligibility conditions are fulfilled and the employees unconditionally become entitled to the awards. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate

of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

L. Income taxes

The income tax expense comprises of current and deferred income tax. Income tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or directly in equity, in which case the related income tax is also recognised accordingly.

(i) Current tax

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess/(shortfall) of the Company's income tax obligation for the period are recognised in the standalone balance sheet as current income tax assets/liabilities. Any interest, related to accrued liabilities for potential tax assessments are not included in Income tax charge or (credit), but are rather recognised within finance costs.

Current income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the standalone balance sheet, if and only when, (a) the Company currently has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) when it relates to income tax levied by the same taxation authority and where there is an intention to settle the current income tax balances on net basis.

(ii) Deferred tax

Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the standalone financial statements.

Deferred tax assets are recognised only to the extent that it is probable that future taxable

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

profit will be available against which the temporary differences can be utilised.

The unrecognised deferred tax assets/carrying amount of deferred tax assets are reviewed at each reporting date for recoverability and adjusted appropriately. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement". The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

M. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Where the Company is the lessee

The Company applies a single recognition and measurement approach for all leases, except

for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment.

(ii) Lease liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Where the Company is the lessor

Leases in which the Company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the Company apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss.

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in property, plant and equipment. Management recognised lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term on reasonable basis. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Contingent rents are recognized as revenue in the period in which they are earned.

N. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period including ordinary shares that will be issued upon the conversion of a mandatorily convertible instrument. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

O. Provisions and contingent liabilities

Provision

A provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the standalone financial statements.

(All amounts in ₹ millions, unless otherwise stated)

P. Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Q. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets

Recognition and initial measurement

At initial recognition, financial asset is measured at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- at amortized cost; or
- at fair value through other comprehensive income; or
- at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Amortized cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

Fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortized cost or FVTOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Impairment of financial assets

In accordance with Ind AS 109, Financial Instruments, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are measured at amortized cost and FVTOCI.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payment is more than 30 days past due.

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109 'Financial Instruments', which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In standalone balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the standalone balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

A financial asset is derecognized only when:

- the rights to receive cash flows from the financial asset is transferred or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

(ii) Financial liabilities

Recognition and initial measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition

Material accounting policy information and other explanatory notes to Standalone Financial Statements

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

R. Segment reporting

The Company has the policy of reporting the segments in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The chief operating decision maker is considered to be the Board of Directors who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

S. Convertible preference shares/ debentures

Convertible preference shares / debentures are separated into liability and equity components based on the terms of the contract.

On issuance of the convertible preference shares / debentures, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption.

The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for conversion right. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the conversion option is not re-measured in subsequent years.

Transaction costs are apportioned between the liability and equity components of the convertible preference shares / debentures based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

T. Standards issued/amended and became effective

The MCA notified new standards or amendment to existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. The Company has applied following amendments for the first-time during the current year which are effective from 01 April 2025.

Amendments to Ind AS 1 – Classification of liabilities as current or non-current liabilities with covenants

MCA via notification dated 13 August 2025 announced amendments to Ind AS 1, Presentation of Financial Statements, which elaborate on guidance set out in Ind AS 1 by:

- Clarifying that the right to defer settlement of a liability for at least 12 months after the reporting period;
 - Must have substance; and
 - Must exist at the end of the reporting period;
- Stating that management's expectations around whether the settlement of a liability would be deferred or not, does not impact the classification of the liability;
- Including requirements of liabilities that can be settled using an entity's own instruments; and
- Stating that at the reporting date, the entity does not consider covenants that will need to be complied with in the future when considering the classification of the debt as current and non-current.

In addition an entity is required to disclose when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

The Company has reviewed the new pronouncement and based on its evaluation has determined that these amendments do not have a significant impact on the Company's standalone financial statements.

Amendments to Ind AS 21 – Lack of exchangeability

MCA via notification dated 07 May 2025, announced amendments to Ind AS 21, The effects of Changes in Foreign Exchange Rates, to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate

Material accounting policy information and other explanatory notes to Standalone Financial Statements

for the year ended 31 March 2026

(All amounts in ₹ millions, unless otherwise stated)

when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The Company has reviewed the new pronouncement and based on its evaluation has determined that these amendments do not have a significant impact on the Company's standalone financial statements.

Amendments to Ind AS 7 and Ind AS 107 – Supplier finance arrangements.

MCA via notification dated 13 August 2025 announced amendments to Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instrument: Disclosures and which introduced disclosure requirements with the objective to enable users of financial statements to assess how supplier finance arrangements affects an entity's liabilities, cashflows and exposure to liquidity risk.

The Company has reviewed the new pronouncement and based on its evaluation has determined that these amendments do not have a significant impact on the Company's standalone financial statements.

Amendments to Ind AS 12 – International tax reform – pillar two model rules

MCA via notification dated 13 August 2025 announced amendments to Ind AS 12, Income taxes, which includes:

- A temporary exception to the recognition and disclosure of deferred taxes arising

from the implementation of the pillar two model rules; and

- Additional disclosure requirements targeted at a reporting entity's exposure to income taxes in period in which the pillar two model legislation is enacted or substantively enacted but not yet in effect.

The Company has reviewed the new pronouncement and based on its evaluation has determined that these amendments do not have a significant impact on the Company's standalone financial statements.

U. Standards notified but not yet effective

MCA has issued Ind AS 118 – Presentation and Disclosure in Financial Statements, which will replace Ind AS 1 – Presentation of Financial Statements and is effective for annual reporting periods beginning on or after 01 April 2027.

Ind AS 118 introduces revised presentation requirements in the statement of profit and loss and enhanced disclosure requirements. The standard is expected to impact presentation and disclosures but not the recognition and measurement.

The Company is currently evaluating the impact of this standard on the standalone financial statements.

All other new standards or amendments that are not yet effective that have been issued by the MCA are not applicable or material to the Company.

22 Revenue from operations (Contd..)

(a) Performance obligation

During the year, the Company has not entered into long term contracts with customers and accordingly disclosure of unsatisfied or remaining performance obligation (which is affected by several factors like changes in scope of contracts, periodic revalidations, adjustment for revenue that has not been materialized, tax laws etc.) is not applicable to the Company.

(b) Disaggregation of revenue

In the following tables, revenue is disaggregated by geography. This is consistent with the revenue information that is disclosed for each reportable segment under Ind AS 108 (refer note 42). The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

33 Contingent liabilities and commitments

(i) Contingent liabilities

The Company has certain legal proceedings including direct taxation, indirect taxation, vendors, customer, erstwhile shareholders and others. While these legal proceedings are currently ongoing against the Company, however, based on a detailed evaluation of the facts and circumstances of each case, including, where applicable, legal opinions obtained, the management believes that the ultimate outcome of these proceedings is expected to be favourable to the Company and hence the likelihood of an economic outflow is remote. Accordingly, these matters do not meet the recognition or disclosure criteria of a contingent liability under Ind AS 37 and no provision has been considered necessary in the standalone financial statements in this regard.

(ii) Capital commitments

Particulars	As at 31 March 2026	As at 31 March 2025

34 Capital management

For the purpose of the Company's capital management, capital includes issued equity share capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value.

The Company's management reviews the capital structure of the Company on a regular basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital requirements and maintenance of adequate liquidity. The Company is not subject to externally imposed capital requirements.

The Company's adjusted net debt to equity ratio was as follows:	As at 31 March 2026	As at 31 March 2025
Borrowings	509.03	233.76
Less: Cash and cash equivalents	(560.88)	(394.81)
Less: Bank balances other than cash and cash equivalents**	(329.78)	(415.70)

*Disclosed as 0.00% for the year ended 31 March 2026 and 31 March 2025 since the same is negative as the Company is funded majority through own funds and equity investments.

**The Company has fixed deposits of ₹711.40 (31 March 2025 : ₹485.46) with banks having original maturity period of more than 12 months which are not considered for the purpose of calculating 'Net debt'.

35 Employee benefits

(a) Other long-term benefits

The Company has a defined benefit leave encashment plan for its employees. Under this plan, they are entitled to encashment of earned leaves subject to certain limits and other conditions specified for the same. The liabilities towards leave encashment have been provided on the basis of actuarial valuation.

(b) Defined contribution plans

The Company makes Provident Fund contributions to defined benefit plan for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

Particulars (pertaining to continuing operations)	For the year ended 31 March 2026	For the year ended 31 March 2025

(All amounts in ₹ millions, unless otherwise stated)

35 Employee benefits (Contd..)

The liability or asset recognised in the Standalone Balance Sheet in respect of provident fund plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The discount rate used for determining the present value of the obligation under defined benefit plans is based on the market yields on government bonds as at the date of actuarial valuation. Actuarial gains and losses (net of tax) are recognised immediately in the Other Comprehensive Income (OCI).

The following table summarises the components of net benefit expense recognised in the Standalone Statement of Profit and Loss and the amounts recognised in the Standalone Balance Sheet:

*This includes ₹ 4.32 million (classified as non-current: ₹ 3.48 millions and classified as current: ₹ 0.84 millions as on 31 March 2026 representing liabilities transferred to and included within Liabilities included in disposal group classified as held for sale.

**The figures disclosed above represent the total defined benefit obligation, actuarial assumptions, service cost, interest expense and related disclosures in respect of the gratuity plan of the Company, as determined by an independent actuary in accordance with Ind AS 19 – Employee Benefits.

Of the total employees covered under the above actuarial valuation, some employees form part of the disposal group classified as 'held for sale' in accordance with Ind AS 105 – Non-current Assets Held for Sale and Discontinued Operations. The gratuity expense attributable to such employees has been allocated to the discontinued operation and is disclosed separately as part of the results of the discontinued operation [refer note 40].

Since the actuarial valuation has been carried out for the Company as a whole, a separate bifurcation of the defined benefit obligation, plan assets, and actuarial gains / losses attributable solely to the employees to be transferred to the disposal group is not practicable. The obligation in respect of such employees will be dealt with at the time of completion of the sale transaction, in accordance with the terms of the definitive agreement.

(iv) The principal assumptions used in determining obligations for the Company's plan are shown below:

Particulars	As at 31 March 2026		As at 31 March 2025	
	Rental and others	Facility management	Rental and others	Facility management
Discount rate (in %)	7.85	7.85	6.92	6.92

From 31 to 44 years	25%	40%	28%	56%
Above 44 years	30%	40%	41%	56%

The discount rate is based on the prevailing market yields of Government of India securities as at the standalone balance sheet date for the estimated term of obligations. The estimate of future salary increases considered, takes into account the inflation, seniority, promotion, increments and other relevant factors.

(v) Sensitivity analysis

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	As at 31 March 2026		As at 31 March 2025	
	Rental and others	Facility management	Rental and others	Facility management
Gratuity plan				
Effect of +50 basis points in rate of discounting	(0.84)	(0.01)	(0.59)	(0.01)
Effect of -50 basis points in rate of discounting	0.87	0.02	0.61	0.01
Effect of +50 basis points in rate of salary increase	0.66	0.02	0.49	0.01
Effect of -50 basis points in rate of salary increase	(0.65)	(0.02)	(0.48)	(0.01)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Sensitivity due to mortality and withdrawal are not material to the standalone financial statements and hence impact of change not calculated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the Standalone Balance Sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

(vi) The following payments are expected contributions to the defined benefit plan in future years:

Particulars	As at 31 March 2026		As at 31 March 2025	
	Rental and others	Facility management	Rental and others	Facility management
Within the next 12 months	8.94	0.48	9.68	0.30
Between 2 and 5 years	24.70	0.83	22.06	0.60
Between 5 and 10 years	13.92	0.16	8.54	0.08
Total expected payments	47.56	1.47	40.28	0.98

The average duration of the defined benefit plan obligation at the end of the reporting year is: Rental and others : 3.13 years and Facility management : 1.91 years (31 March 2025: Rental and others: 2.62 years and Facility management: 1.12 years).

(vii) Risk exposure:

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Interest Risk: The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.

Notes to the Standalone Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

35 Employee benefits (Contd..)

Liquidity Risk: This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts.

36 Financial instruments – Fair values and risk management

A. Financial instruments by category

The Company's financial liabilities comprise mainly of borrowings, lease liabilities, trade payables and other payables. The Company's financial assets comprise mainly of investments, trade receivables, cash and cash equivalents, other bank balances and other receivables. The fair value of financial instruments has been classified into three categories depending on the inputs used in the valuation technique as referred to in note B below.

The accounting classification of each category of financial instruments, and their carrying amounts, are set out below:

Particulars	Notes	As at 31 March 2026			As at 31 March 2025		
		Amortised cost	FVTPL	FVTOCI	Amortised cost	FVTPL	FVTOCI

B. Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Notes to the Standalone Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

36 Financial instruments – Fair values and risk management (Contd..)

Measurement of fair value

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

To provide an indication about the reliability of inputs used in determining fair value, the Company has classified its financial instrument into three levels prescribed under the accounting standard. There are no assets and liabilities which have been fair valued through profit and loss or fair valued through other comprehensive income for the year ended 31 March 2026 and year ended 31 March 2025.

Fair value of instruments measured at amortised cost:

Fair value of instruments measured at amortised cost for which fair value is disclosed is as follows, these fair values are calculated using Level 3 inputs:

Particulars	31 March 2026		31 March 2025	
	Carrying value	Fair value	Carrying value	Fair value
Non-current and current financial assets				
Trade receivables	450.91	450.91	1,207.96	1,207.96

Trade payables	1,731.15	1,731.15	2,016.40	2,016.40
Other financial liabilities	4,214.96	4,214.96	3,218.50	3,218.50

C. Financial risk management

The Company's activities expose it to credit risk, liquidity risk and market risk. The Company's management oversees the management of these risks. The Company's senior management is supported by a Risk Management Compliance Board that advises on financial risks and the appropriate financial risk governance framework for the Company. The financial risk committee provides assurance to the Company's management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The management reviews and agrees policies for managing each of these risks, which are summarised below:

i. Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by trade receivables, cash and cash equivalents, bank balance other than cash and cash equivalents and other financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

Notes to the Standalone Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

36 Financial instruments – Fair values and risk management (Contd..)

(a) Credit risk management

The Company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

- (i) Low credit risk
- (ii) Moderate credit risk
- (iii) High credit risk

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in the Standalone Statement of Profit and Loss (if any).

The Company provides for expected credit loss based on the following:

Asset group	Asset class exposed to credit risk	Provision for expenses credit loss
Low credit risk	Cash and cash equivalents, bank balance other than cash and cash equivalents and other financial assets measured at amortised cost	12 month expected credit loss/ life time expected credit loss
High credit risk	Trade receivables	Trade receivables – Life time expected credit loss or specific provision whichever is higher

(b) Expected credit losses for financial assets

(i) Financial assets (other than trade receivables)

Company provides for expected credit losses on financial assets other than trade receivables by assessing individual financial instruments for expectation of any credit losses.

For cash and cash equivalents and bank balance other than cash and cash equivalents – Since the Company deals with only high-rated banks and financial institutions, credit risk in respect of cash and cash equivalents, bank balance other than cash and cash equivalents and bank deposits is evaluated as very low.

For security deposits paid – Credit risk is considered low because the Company is in possession of the underlying asset.

Notes to the Standalone Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

36 Financial instruments – Fair values and risk management (Contd..)

For other financial assets – Credit risk is evaluated based on Company knowledge of the credit worthiness of those parties and loss allowance is measured. For such financial assets, the Company policy is to provide for 12 month expected credit losses upon initial recognition and provide for lifetime expected credit losses upon significant increase in credit risk.

(ii) Expected credit loss for trade receivables under life time expected credit loss approach

Customer credit risk is managed by the respective department subject to Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on individual credit limits as defined by the Company. Outstanding customer receivables are regularly monitored. As at 31 March 2026, the top 10 accounts receivables accounted for 61.66% (31 March 2025: 42.74%) of all the receivables outstanding.

The ageing analysis of trade receivables as of the reporting date is as follows:

ii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts. The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

(a) Financing arrangements

The Company has access to the following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at 31 March 2026	As at 31 March 2025
Working capital demand loan	-	200.00
Rupee term loan	790.00	-
Overdraft facility	300.00	100.00

(b) Maturities of financial liabilities

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts disclosed in the table are the contractual undiscounted cash flows:

As at 31 March 2026	Contractual cash flows

	9,362.69	24,300.74	8,091.49	5,059.45	9,188.85	1,960.95

The interest payments on variable interest rate borrowings in the table above reflect current interest rates at the reporting date and these amounts may change as market interest rates change.

iii. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company does not uses derivatives to manage market risks.

a) Currency risk

The currency risk is the exchange-rate risk, arises from the change in price of one currency in relation to another.

There is no foreign currency exposure as at 31 March 2026 and 31 March 2025.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company having a fixed and floating interest rates borrowings, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	As at 31 March 2026	As at 31 March 2025
Variable rate borrowings	506.27	230.02
Fixed rate borrowings	2.76	3.74
Total	509.03	233.76

Sensitivity

Profit or loss and equity is sensitive to higher/ lower interest expense from borrowings as a result of changes in interest rates.

Particulars	As at 31 March 2026	As at 31 March 2025
Interest sensitivity		
Increase by 1%	5.06	2.30
Decrease by 1%	(5.06)	(2.30)

c) Price risk

The Company exposure to price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income or at fair value through profit or loss. To manage the price risk arising from investments, the Company diversifies its portfolio of assets.

There are no investments held by the company which are measured at fair value either through profit and loss or fair value through other comprehensive income, hence the Company is not exposed to price risk.

37 Employees' stock option plan

The Company has two ESOP Schemes namely "Awfis Space Solutions Employee Stock Option Scheme - 2024 ("Scheme")" and "Awfis Employees' Stock Option Scheme 2015 ('EDSOP 2015')".

The Nomination and Remuneration committee ("Committee") of the Company formulated and approved "Awfis Space Solutions Employee Stock Option Scheme - 2024 ("Scheme") at its meeting held on 11 November 2024 which is also approved by the board of director of the Company at its meeting held on 11 November 2024. Under this scheme, the maximum number of options that can be granted to any eligible employee during one year shall not be equal to or exceed 1% of the issued equity share capital of the Company at the time of grant. The committee decide to grant such number of options equal to or exceeding 1% of the issued equity share capital to any eligible employee as the case may be, subject to the separate approval of the shareholders in a general meeting. The maximum number of options that may be granted in one or more tranches, pursuant to this scheme shall not exceed twenty two lakhs options which shall be convertible into equal number of shares not exceeding twenty two lakhs equity shares having face value of ₹10 each.

The shareholders of the Company approved "Awfis Employees' Stock Option Scheme 2015 ('EDSOP 2015')" at the Extraordinary General Meeting held on 15 June 2015 to grant a maximum of not exceeding 5% of the equity share capital of the Company to specified categories of employees of the Company. Each option granted and vested under EDSOP 2015 shall entitle the holder to acquire one equity share of face value of ₹10 each of the Company.

The fair value of the share options is estimated at the grant date using the Black- Scholes option pricing model, taking into account the terms and conditions upon which the share options were granted. However, the above performance condition is only considered in determining the number of instruments that will ultimately vest.

38 Leases (Contd..)

Cash flows from operating activities include cash flows from short-term lease and leases of low-value assets. Cash flows from financing activities include the payment of interest and the principal portion of lease liabilities.

The Company has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised.

The Company has elected not to recognise a lease liability for short term leases (leases with an expected term of 12 months or less) or for leases of low value assets. Payments made under such leases are expensed as incurred. In addition, certain variable lease payments are not permitted to be recognised as lease liabilities and are expensed as incurred.

(II) Company as lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

a) Finance leases

40 Discontinued operations

Pursuant to approval of the Board of Directors of the Company at their meeting held on 23 December 2025, the Company has entered into a Business Transfer Agreement ("BTA") with Awfis Transform Private Limited ('Acquirer'/'ATPL') a wholly-owned subsidiary of the Company, incorporated on 03 December 2025, for sale of the Company's segment engaged in the business of construction and fit-out project ('Undertaking'), as a going concern and on a slump sale basis for a consideration of ₹265.91 million ("Initial Purchase Price"). The same was approved by the shareholders through special resolution passed through postal ballot.

The Board of Directors at their meeting held on 26 February 2026 considered and approved the extension of the timeline for completion of the transfer of the Undertaking, which is now expected to be completed by 31 December 2026 due to procedural, administrative, operational and transition-related requirements. The Company will continue to operate the undertaking in the ordinary course of business until the revised completion date.

The consideration for the sale of the Business Undertaking shall be determined as per an updated valuation report for the Business Undertaking to be obtained by the Company in accordance with all applicable laws, with the reference date of valuation being the revised date of completion of the transaction and shall be discharged by ATPL as provided under the business transfer agreement executed between the company and ATPL.

Accordingly, the assets and liabilities as at 31 March 2026 related to undertaking have been classified as "disposal group, held for sale" and the net results of undertaking for the current and previous year are disclosed separately as "discontinued operations" in the standalone statement of profit and loss, as required by Ind AS 105 and Division II of Schedule III of the Act.

44 The Government of India has consolidated 29 existing labour legislations into a united framework comprising four Labour Code viz Code on wages 2019, Code on Social Security 2020, Industrial Relation Code 2020, Occupational Safety, Health and Working Condition Code 2020 (collectively referred to as the New Labour Codes). These Codes have been made effective from 21 November 2025. The Company has considered the impact for its own employees which is not material to the standalone financial statements for the year ended 31 March 2026. The Company will evaluate the impact on the measurement of employee benefits and provide the appropriate accounting treatment for any further notification and clarification issued by the authorities in this regard.

45 The Ministry of Corporate Affairs (MCA) has prescribed a requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules, 2021 requiring companies, which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled. The Company, in respect of the financial year commencing on 01 April 2025, has used an accounting software for maintaining books of accounts. The audit trail (edit log) was enabled and operated throughout the year at application level for such software. The Company has obtained the ‘Independent Service Auditor’s Assurance Report on the Description of Controls, their Design and Operating Effectiveness’ (Type 2 report’ issued in accordance with ISAE 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information) for the year commencing on 01 April 2025. However, the report of the service auditor did not demonstrate whether the audit trail feature specifically captures the details of what data was changed at the database level.

Further, the Company, has used accounting software for invoicing which is operated by a third-party software service provider. The audit trail (edit log) was enabled and operated throughout the year at application level and database level for such software. The Company has obtained the ‘Independent Service Auditor’s Assurance Report on the Description of Controls, their Design and Operating Effectiveness’ (Type 2 report’ issued in accordance with ISAE 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information) for the year commencing on 01 April 2025.

46A During the current year, India Ratings & Research (a Fitch Group Company), through its Rating Action Commentary dated 16 May 2025, has upgraded the credit rating assigned to our bank loan facilities. The revised rating now stands at IND A+ with a Stable Outlook, an improvement from the earlier rating of “IND A”. This reflects the improved credit profile of the Company and underscores the rating agency’s confidence in our financial stability, operational performance, and future growth prospects.

46B During the year ended 31 March 2026, one of the Company’s customers defaulted on its lease rental payment obligations despite the execution of a Memorandum of Understanding (MoU) providing for settlement of the outstanding dues through scheduled instalments. Consequently, the Company issued a demand notice under the Insolvency and Bankruptcy Code, 2016 and subsequently initiated recovery proceedings before the Hon’ble National Company Law Tribunal (NCLT), Hyderabad.

Considering the customer’s continued default and the uncertainty surrounding the ultimate recovery of the outstanding amounts, the Company, on a prudent basis, adjusted the related receivable balances against the corresponding lease liabilities and derecognised lease receivables amounting to ₹ 113.08 million during the year ended 31 March 2026 (31 March 2025: ₹ 188.65 million). Further, based on management’s assessment of the recoverability of the remaining balances, including amounts adjusted against security deposits, an additional impairment loss of ₹ 34.76 million has been recognised during the year (31 March 2025: Nil).

Independent Auditor’s Report

To the Members of
Awfis Space Solutions Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Awfis Space Solutions Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as listed in **Annexure 1**, which comprise the Consolidated Balance Sheet as at 31 March 2026, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiary, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group, as at 31 March 2026, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained together with the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 15 of the Other Matter section below, is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matters
Revenue recognition from Rental Income and Income from construction and fit-out projects Refer note 4A to the consolidated financial statements for material accounting policy information and note 21 for details of revenue recognized and related disclosures.	Our audit procedures on revenue recognition included, but were not limited to the following: a) Evaluated the appropriateness of accounting policy for revenue recognition of rental income in accordance with Ind AS 116 and revenue recognition from construction and fit-out projects in accordance with Ind AS 115; b) Obtained an understanding of the systems, processes and controls implemented by the management for computing and recording revenue and related contract assets and contract liabilities;

Key audit matters	How our audit addressed the key audit matters
Revenue from leased out co-working space (Rental Income) is recognised on a straight-line basis over the non-cancellable period in case of operating leases and is recognised over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease in case of finance leases, in accordance with the principles of Ind AS 116, Leases. Significant management judgement is required in assessing whether the lease arrangement is an operating lease or a finance lease and in estimation of 'lease term' to allocate the lease income on a systematic basis over the period of lease.	c) Evaluated the design and implementation, and tested the operating effectiveness of controls over the revenue recognition;
Revenue from construction and fit-out projects is recognised over a period of time using output method of measuring progress towards complete satisfaction of performance obligation in accordance with the principles of Ind AS 115, Revenue from contracts with customers ('Ind AS 115'). Significant management judgement is required in identification of performance obligations, determination of the Holding Company's rights to receive payments for performance completed till date, determination of progress of the performance obligations as per contract and impact due to contract modifications, if any. Changes in these judgements and the related estimates as contracts progress can result in material adjustments to revenue and margins.	d) For a sample of lease contracts: - Evaluated management's classification of leases into operating lease and finance lease, based on our review of the contractual terms of the lease arrangements; - Ensured the lease term determined by the management is in accordance with the principles of Ind AS 116; - Recomputed the lease income recognised on a straight-line basis over the lease term and related lease equalization reserve, in case of operating leases; - Assessed appropriateness of the models used by the management to recognise finance income on a systematic and rational basis over the lease term, reflecting a constant periodic rate of return on the lessor's net investment in the lease, in case of finance leases; - Tested the mathematical accuracy of management workings.
Considering the materiality of amounts and significance of management judgement in estimates involved, revenue recognition from rental income and income from construction and fit-out projects is identified as a key audit matter for the current year audit.	e) Evaluated the appropriateness of the management's assessment that the satisfaction of performance obligations relating to construction and fit-out projects is over time in accordance with Ind AS 115;
	f) Understood the process for determining the progress of performance obligations which has been reviewed periodically by independent experts based on surveys of the construction and fit-out projects and approved by appropriate levels of management;
	g) Assessed the professional competence and objectivity of the management's expert;
	h) Tested on a sample basis and recomputed revenue recognised during the year with respect to ongoing and completed construction and fit-out projects, by inspecting underlying contracts, work completion certificates supporting the progress of satisfaction determined by the management's expert for ongoing projects and handover documents for completed projects;
	i) Performed substantive analytical procedures on revenue which included centre and project-wise analysis, occupancy analysis, margin analysis, customer analysis, etc. to determine any unusual variances;
	j) Performed other substantive audit procedures including obtaining debtor confirmations on a sample basis and reconciling revenue recorded during the year with statutory returns;
	k) Tested unusual non-standard journal entries impacting revenue recorded during the year based on risk-based criteria; and
	l) Ensured the adequacy and appropriateness of the disclosures made in the consolidated financial statements in accordance with the requirements of applicable accounting standards.

Key audit matters	How our audit addressed the key audit matters
Accounting for leases	Our audit procedures on accounting for leases included, but were not limited to the following:
Refer note 4L to the consolidated financial statements for material accounting policy information and note 38 for lease related disclosures.	a) Assessed the appropriateness of the Holding Company's accounting policy for leases in accordance with the requirements of Ind AS 116;
As at 31 March 2026, the carrying value of right-of-use assets and lease liabilities amounts to ₹ 10,629.31 million and ₹14,502.69 million representing 37% and 50% of total assets, respectively.	b) Obtained an understanding of the management's process for identification and accounting of leasing arrangements as per Ind AS 116. Evaluated the design and implementation, and tested the operating effectiveness of management's controls relating to identification and accounting of lease contracts;
The Holding Company applies Ind AS 116, Leases to account for lease contracts which requires the Holding Company to recognise 'lease liabilities' representing the obligation with respect to unpaid lease payments under such contracts, and 'right-of-use assets' representing the right to use the underlying assets for the lease term.	c) Obtained and examined, on a sample basis, the lease agreements that were new or modified during the current financial year to verify that the particulars considered for calculation of right-of-use assets and lease liabilities as at the reporting date were consistent with the corresponding terms of such contracts. Further, for such new or modified contracts, evaluated whether management's determination of the lease term is accurate, including assessment of appropriateness of management's estimation relating to the probability of management exercising lease renewal options given under such contracts, basis our discussion with the management and understanding of the business plans;
Significant management judgement is required in determining whether a contract contains a lease, assessment of lease term and determination of appropriate discount rate. The Holding Company has multiple lease contracts with varying terms which requires significant effort to ensure compliance with the accounting standard requirements.	d) Assessed the appropriateness of the discount rate used for determining the present value of unpaid lease payments for calculating the lease liabilities at initial recognition;
Considering the materiality of amount involved and large volume of individual lease agreements that require significant management and auditor judgement and efforts, accounting for leases is identified as a key audit matter for current year audit.	e) Assessed the integrity and appropriateness of the model used by the management to account for leases as per Ind AS 116, including its mathematical accuracy. On a sample basis, recalculated the amount of lease liability, right-of-use assets, depreciation and interest expense recorded by the Holding Company for the current financial year; and
	f) Ensured the adequacy and appropriateness of disclosures made in the consolidated financial statements in accordance with the requirements of applicable accounting standards.

Information other than the Consolidated Financial Statements and Auditor's Report thereon

6. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

7. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for

the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

8. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
9. Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

11. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated

financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements, of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

15. We did not audit the financial statements of one subsidiary, whose financial statements reflect total assets of ₹142.31 million as at 31 March 2026, total revenues of ₹ 239.63 million and net cash outflows amounting to ₹ 1.65 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditor whose report has been furnished to us by the Holding Company's management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiary are based solely on the reports of the other auditor.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified

in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, based on our audit and on the consideration of the report of the other auditor, referred to in paragraph 15, on separate financial statements of the subsidiary, we report that the Holding Company has paid remuneration to their respective directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act. Further, we report that two subsidiaries incorporated in India whose financial statements have been audited under the Act have not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable in respect of such subsidiaries.
17. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order reports issued by us and by the respective other auditor as mentioned in paragraph 15 above, of companies included in the consolidated financial statements and covered under the Act we report that there are no qualifications or adverse remarks reported in the respective Order reports of such companies.
18. As required by section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditor on separate financial statements and other financial information of the subsidiary incorporated in India whose financial statements have been audited under the Act we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
 - b) Except for the matter stated in paragraph 18(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
 - c) The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;

- d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;
- e) On the basis of the written representations received from the directors of the Holding Company, its subsidiary and taken on record by the Board of Directors of the Holding Company, its subsidiary respectively, and the reports of the statutory auditor of its subsidiary, covered under the Act, none of the directors of the Holding Company and its subsidiaries are disqualified as on 31 March 2026 from being appointed as a director in terms of section 164(2) of the Act;
- f) The qualification relating to the maintenance of accounts and other matters connected therewith with respect to the consolidated financial statements are as stated in paragraph 18(b) above on reporting under section 143(3) (b) of the Act and paragraph 18(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended);
- g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, and its subsidiaries covered under the Act, and the operating effectiveness of such controls, refer to our separate report in 'Annexure A' wherein we have expressed an unmodified opinion; and
- h) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and other financial information of the subsidiaries incorporated in India whose financial statements have been audited under the Act:
- The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as detailed in Note 33 to the consolidated financial statements;
 - The Holding Company and its subsidiaries did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2026;
 - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiaries covered under the Act, during the year ended 31 March 2026;

- The respective managements of the Holding Company and its subsidiaries incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, other than as disclosed in note 45(v) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Holding Company or its subsidiaries to or in any person or entity, including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company, or any such subsidiaries ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
 - The respective managements of the Holding Company and its subsidiaries incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditor of such subsidiary respectively that, to the best of their knowledge and belief, other than as disclosed in the note 45(v) to the accompanying consolidated financial statements, no funds have been received by the Holding Company or its subsidiaries from any person or entity, including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company, or any such subsidiaries shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - Based on such audit procedures performed by us and that performed by the auditor of the subsidiary, as considered reasonable and appropriate in the circumstances, nothing has come to our or other auditor's notice that has caused us

or the other auditor to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.

- The Holding Company and its subsidiaries have not declared or paid any dividend during the year ended 31 March 2026; and
- As stated in Note 43 to the consolidated financial statements and based on our examination which included test checks and that performed by the auditors of the subsidiary, of the Holding Company which are companies incorporated in India and audited under the Act, except for instance mentioned below, the Holding Company and its subsidiaries, in respect of financial year commencing on 1 April

2025, have used an accounting software for maintaining their books of account which has/have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we and the auditor of the above referred subsidiary did not come across any instance of audit trail feature being tampered with other than the consequential impact of the exception given below. Furthermore, except for the instance mentioned below, the audit trail have been preserved by the Holding Company and its subsidiaries as per the statutory requirements for record retention.

Nature of exception noted	Details of exception
Instances of accounting software maintained by a third party where we are unable to comment on the audit trail feature at database level.	The accounting software used for maintenance of accounting records by the Holding Company is operated by a third-party software service provider. In the absence of any information on existence of audit trail (edit logs) for any direct changes made at the database level in the 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with SAE 3402, Assurance Reports on Controls at a Service Organization), we are unable to comment on whether audit trail feature with respect to the database of the said software was enabled and operated throughout the year.

List of entities included in the statement:

Holding Company

- 1. Awfis Space Solutions Limited

Subsidiary Company

- 2. Awliv Living Solutions Private Limited
- 3. Awfis Transform Private Limited (from 3 December 2025)

Independent Auditor’s Report on the internal financial controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (‘the Act’)

- 1. In conjunction with our audit of the consolidated financial statements of Awfis Space Solutions Limited (‘the Holding Company’) and its subsidiaries (the Holding Company and its subsidiaries together referred to as ‘the Group’) as at and for the year ended 31 March 2026, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

- 2. The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (‘the Guidance Note’) issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company’s business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility for the Audit of the Internal Financial Controls with Reference to Consolidated Financial Statements

- 3. Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with

reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies as aforesaid.

Meaning of Internal Financial Controls with Reference to Consolidated Financial Statements

- 6. A company’s internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls with reference to consolidated financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Consolidated Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to consolidated financial statements of the subsidiary companies, the Holding Company and its subsidiary companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to consolidated financial statements and such controls were operating effectively as at 31 March 2026, based on the internal financial controls with reference to consolidated financial statements criteria established by the Holding Company considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

Other Matter

9. We did not audit the internal financial controls with reference to consolidated financial statements insofar as it relates to one subsidiary company, which is company covered under the Act, whose financial statements reflects total assets of ₹ 142.31 million as at 31 March 2026, total revenues of ₹ 239.63 million and net cash outflows amounting to ₹ 1.65 million for the year ended on that date, as considered in the consolidated financial statements. The internal financial controls with reference to consolidated financial statements in so far as it relates to such subsidiary company has been audited by other auditor whose report has been furnished to us by the management and our report on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements for the Holding Company and its subsidiary companies, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to such subsidiary company is based solely on the report of the auditor of such company. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the report of the other auditor.

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026
(All amounts in ₹ millions, unless otherwise stated)

1. Group overview

Awfis Space Solutions Limited (the 'Holding Company') was incorporated on 17 December 2014 with its registered office at C-28-29, Kissan Bhawan, Qutab Institutional Area, New Delhi-110016. The Holding Company along with its wholly-owned subsidiary Awliv Living Solutions Private Limited which was incorporated on 07 June 2016 with its registered office in New Delhi (collectively referred to as the "Group") is primarily engaged in the business of providing workspace on rent, integrated facility management income (facility management services) and enterprise workspace designing and building services (construction and fit-out projects).

The Holding Company has completed its Initial Public Offer (IPO) and accordingly the Holding Company's equity shares were listed on National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) on 30 May 2024.

The consolidated financial statements were approved for issue in accordance with resolutions of directors on 25 May 2026.

2. Basis of preparation

These consolidated financial statements are prepared in accordance with the Indian Accounting standards (Ind AS) as notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS Compliant Schedule III), as applicable to the financial statements.

The material accounting policies, as set out in the following paragraphs of this note, have been consistently applied by the Group to all the periods presented in the said financial statements.

The preparation of the said financial statements requires the use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Group's accounting policies. The areas where estimates are significant to the financial statements, or areas involving a higher degree of judgment or complexity, are appropriately disclosed.

All the amounts included in the said financial statements are reported in millions of Indian Rupees and are rounded to the nearest million, except per share data and unless stated otherwise.

Basis of measurement

The consolidated financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the consolidated financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies. Fair valuations related to financial assets and financial liabilities are categorised into level 1, level 2 and level 3 based on the degree to which the inputs to the fair value measurements are observable. Accounts have been prepared using accrual basis of accounting.

Going concern

The Group has a net current liability position of ₹ 3,127.70 million as at 31 March 2026 (31 March 2025: ₹ 2,110.86 million). The board of directors have considered the financial position of the Group at 31 March 2026, the projected cash flows and financial performance of the Group for at least twelve months from the date of approval of these financial statements as well as planned cost and cash improvement actions, and believe that the plan for sustained profitability remains on course. The board of directors have taken adequate steps such as raising additional funds, generation of cash flow from operations that it needs to settle its liabilities as they fall due and optimizing the working capital requirements to ensure that appropriate long-term cash resources are in place at the date of signing the accounts to fund the group's operations. In the view of this, these consolidated financial statements have been prepared on a going concern basis

Basis of consolidation

The consolidated financial statements comprises of the financial statements of the Holding Company and its subsidiary. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the Consolidated Financial Statement for like transactions and events in similar circumstances, appropriate adjustments were made to that Group member's summary statement in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The consolidated financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company.

Consolidation procedure for subsidiary:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are

based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate of intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group (profits or losses resulting from intra-group transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intra-group losses may indicate an impairment that requires recognition in the consolidated financial statement. Ind AS - 12 "Income Taxes" applies to temporary differences that arise from the elimination of profits and losses resulting from intra-group transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the summary statements of subsidiary to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

When the proportion of the equity held by non-controlling interests changes, the Group adjust the carrying amounts of the controlling and non-controlling interests to reflect the changes in their relative interests in the subsidiary. The Group recognises directly in equity any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received, and attribute it to the owners of the parent.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss

Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

3. Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates. Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods affected.

Use of estimates and judgements

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur. Also, the Group has made certain judgements in applying accounting policies which have an effect on amounts recognized in the consolidated financial statements.

i) Contingencies:

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Group, including legal and other claims. By virtue of their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgements and the use of estimates regarding the outcome of future events.

ii) Defined benefit obligations (DBO):

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

iii) Useful lives of property, plant and equipment:

The Group reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

iv) Capitalisation of fit-out period:

Cost (depreciation on right-of-use asset, interest expense on lease liability and project and design related employee cost) for the fit-out period is capitalized as a part of leasehold improvement, considering, this cost if attributable to bring the asset in necessary condition for its intended use.

v) Leases:

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain.

The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Group's operations taking into account the location of the underlying building and the availability of suitable alternatives.

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

The initial recognition of lease liabilities at present value requires the identification of an appropriate discount rate. The Group has determined the incremental borrowing rate based on considerations specific to the leases or for a portfolio of leases with similar characteristics by taking consideration of the risk-free borrowing rates as adjusted for country / Group specific risk premiums (basis the readily available data points).

Where the Group is the lessor, the treatment of leasing transactions is mainly determined by whether the lease is considered to be an operating or finance lease. In making this assessment, management looks at the substance of the lease, as well as the legal form, and makes a judgement about whether substantially all of the risks and rewards of ownership are transferred. Arrangements which do not take the legal form of a lease but that nevertheless convey the right to use an asset are also covered by such assessments. The management's estimates and assessments were based in particular on assumptions regarding the development of the economy as a whole and the development of the basic legal parameters.

Amounts due from lessees under finance leases are recorded as receivables classified under Financial Asset at the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

vi) Deferred taxes:

Deferred tax assets can be recognized for deductible temporary differences (including unused tax losses) only to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized. Management has assessed that as at 31 March 2025 it is not probable that such deferred tax assets can be realised in excess of available temporary differences and hence has recognized deferred tax assets to the extent of deferred tax liabilities. Management re-assesses unrecognized deferred tax assets at each reporting date and recognizes to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered. For details about deferred tax assets, refer note 39.

vii) Revenue from contract with customers:

The Group has applied judgements that significantly affect the determination of the amount and timing

of revenue from contracts with customers. Refer note 4A for further details.

viii) Impairment of non-financial assets:

The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

ix) Impairment of financial assets:

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit losses on outstanding receivables and advances.

4. Summary of material accounting policies

A. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

Revenue from contracts with customers:

- Revenue is recognized on the basis of approved contracts regarding the transfer of goods or services to a customer for an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services.
- Revenue is measured at the amount of transaction price after taking into account the amount of discounts, incentives, volume rebates, outgoing taxes on sales. Any amounts receivable from the customer are recognised as revenue after the control over the goods sold are transferred to the customer.
- Variable consideration - This includes incentives, volume rebates, discounts etc. It is estimated at contract inception considering the terms of various schemes with customers and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. It is reassessed at the end of each reporting period.

Satisfaction of performance obligations:

An entity shall recognise revenue when (or as) the entity satisfies a performance obligation by

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset. For each performance obligation identified, an entity shall determine at contract inception whether it satisfies the performance obligation over time or satisfies the performance obligation at a point in time. If an entity does not satisfy a performance obligation over time, the performance obligation is satisfied at a point in time.

For performance obligations that an entity satisfies over time, an entity shall disclose both of the following:

- (a) the methods used to recognise revenue (for example, a description of the output methods or input methods used and how those methods are applied); and
- (b) an explanation of why the methods used provide a faithful depiction of the transfer of goods or services.

For performance obligations satisfied at a point in time, an entity shall disclose the significant judgements made in evaluating when a customer obtains control of promised goods or services.

Rental income

Revenue from leased out co-working space (Rental income) under an operating lease is recognized on a straight line basis over the non-cancellable period ('Lease term for revenue'), except where there is an uncertainty of ultimate collection. After lease term for revenue or where there is no non-cancellable period, rental revenue is recognized on an accrual basis, in accordance with the terms of the respective contract as and when the Group satisfies performance obligations by delivering the services as per contractual agreed terms.

Unbilled revenue represents revenues recognized after the last invoice raised to customer to the period end. These are billed in subsequent periods based on the terms and conditions specified in the agreement with the customers. The Group presents service revenue net of indirect taxes in its Consolidated Statement of Profit and Loss.

Integrated facility management income ('Facility management services')

Revenue from facility management services is recognized monthly, on accrual basis, in accordance

with the terms of the respective agreement as and when services are rendered.

Enterprise workspace designing and building services ('Construction and fit-out projects')

Construction and fit-out projects where the Group is acting as a contractor, revenue is recognized in accordance with the terms of the construction agreements. Under such contracts, assets created does not have an alternative use and the Group has an enforceable right to payment.

The Group uses output method for measuring progress for performance obligation satisfied over time. Under this method, the Group recognizes revenue in proportion of progress of the performance obligations as per contract and impact due to contract modifications, if any. The management reviews and revises its measure of progress periodically and are considered as change in estimates and accordingly, the effect of such changes in estimates is recognised prospectively in the period in which such changes are determined. However, when the total project cost is estimated to exceed total revenues from the project, the loss is recognized immediately.

As the outcome of the contracts cannot be measured reliably during the early stages of the project, contract revenue is recognized only to the extent of costs incurred in the statement of profit and loss.

Sale of food items

Revenue from sale of food items (goods) is recognised on transfer of control of ownership of goods to the buyer and when no significant uncertainty exists regarding the amount of consideration that will be derived.

Other services

Revenue from contracts with customers for other allied services is recognized when control of the goods or services are transferred or rendered to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services, in accordance with the terms of the respective agreement.

Revenue from other services is recognized as and when the services are rendered in accordance with the terms of respective agreements.

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

Contract balances

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in note 4P (i) Financial instruments – recognition and subsequent measurement.

As the period of time between customer payment and performance will always be one year or less, the Company applies the practical expedient in Ind AS 115.63 and does not adjust the promised amount of consideration for the effects of financing.

Contract liabilities

When either party to a contract has performed its obligation, an entity shall present the contract in the balance sheet as a contract asset or a contract liability, depending on the relationship between the Group's performance and the customer's payment.

B. Borrowing costs

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

C. Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification.

Assets:

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Liabilities:

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle:

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

D. Fair value measurement

Fair value is the price at the measurement date at which an asset can be sold or paid to transfer a liability, in an orderly transaction between market participants. The Group's accounting policies require, measurement of certain financial/ non-financial assets and liabilities at fair values (either on a recurring or non-recurring basis). Also, the fair values of financial instruments measured at amortised cost are required to be disclosed in the said financial statements.

The Group is required to classify the fair valuation method of the financial/ non-financial assets and liabilities, either measured or disclosed at fair value in the financial statements, using a three level fair value hierarchy (which reflects the significance of inputs used in the measurement). Accordingly, the Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value,

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The three levels of the fair value hierarchy are described below:

Level 1: Quoted (unadjusted) prices for identical assets or liabilities in active markets

Level 2: Significant inputs to the fair value measurement are directly or indirectly observable

Level 3: Significant inputs to the fair value measurement are unobservable.

E. Property, plant and equipment ('PPE')

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work in progress are stated at cost net of impairment loss, if any. It includes direct costs comprise of purchase price, taxes, duties, freight and other incidental expenses (including cost incurred during fit out periods). Such cost also includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

Depreciation is recognized on a straight-line basis over the estimated useful lives of the respective assets as under:

S. no.	Property, plant and equipment	Useful life as prescribed by Schedule II of the Companies Act, 2013 (in years)	Estimated useful life (in years)
1	Computers	3	3
2	Office equipments	5	5 to 10 years depending upon the useful life of the components.
3	Furniture and fixtures	10	10

S. no.	Property, plant and equipment	Useful life as prescribed by Schedule II of the Companies Act, 2013 (in years)	Estimated useful life (in years)
4	Vehicles	8	8
5	Leasehold improvements	On lease term	5 to 10 years depending upon the useful life of the components.

* Leasehold improvements includes partition works, flooring, fit-out works, civil and painting works, electrical installations and other components.

Useful life of assets different from prescribed in Schedule II has been estimated by the management supported by technical assessment.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period and the effect of any changes in estimate is accounted for prospectively.

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

F. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method

Material accounting policies and other explanatory notes to Consolidated Financial Statements

(All amounts in ₹ millions, unless otherwise stated)

for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Depreciation is recognized on a straight-line basis over the estimated useful lives of the intangible assets as under:

Category of assets	Useful life estimated by management
Computer software	5 years

G. Impairment of non-financial assets

The Group's non-financial assets other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents smallest group of assets that generates cash inflows that are largely independent of the cash inflows or other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit and loss. In

respect of assets for which impairment loss has been recognized in prior periods, the Group reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss has been recognized.

H. Foreign currency translations

(i) Functional and presentation currency

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee (₹), which is the Group's functional and presentation currency.

(ii) Translations and balances

Foreign currency transactions are translated into functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the year end exchange rates are generally recognised in profit or loss.

Foreign exchange gains and losses are presented in the statement of profit and loss on a net basis.

I. Inventories

Stock of food items and furniture and other work from home solutions are valued at lower of cost and net realisable value and cost is determined on first-in-first out ('FIFO') basis.

The cost is determined by considering the purchase price and direct material costs. Net realisable value is the estimated selling price in the ordinary course of business less estimated cost of completion to make the sale.

J. Employee benefits

(i) Defined contribution plan

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

contribution payable to the provident fund. The Group recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the consolidated balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the consolidated balance sheet date, then excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payment or a cash refund.

(ii) Defined benefit plan

The Group's net obligation in respect of gratuity is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government securities as at the consolidated balance sheet date. When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Compensated absences

Accumulated leaves which is expected to be utilized within the next 12 months is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that is expects to pay as a result of unused entitlement that has

accumulated at the reporting date. The Group treats accumulated leave expected to be carried forward beyond 12 months, as long-term employee benefits for measurement purpose. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit-credit method at the year-end. The related re-measurements are recognized in the statement of profit and loss in the period in which they arise. The Group presents the entire amount as current liability in consolidated balance sheet since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

(iv) Share-based payments

Employees of the Group receives remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using Black Scholes valuation model. The grant date fair value of options granted to employees is recognised as employee expense with a corresponding increase in employee stock options reserve, over the period in which the eligibility conditions are fulfilled and the employees unconditionally become entitled to the awards. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

K. Income taxes

The income tax expense comprises of current and deferred income tax. Income tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or directly in equity, in which case the related income tax is also recognised accordingly.

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

(i) Current tax

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess/ (shortfall) of the Group's income tax obligation for the period are recognised in the consolidated balance sheet as current income tax assets/ liabilities. Any interest, related to accrued liabilities for potential tax assessments are not included in Income tax charge or (credit), but are rather recognised within finance costs.

Current income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the consolidated balance sheet, if and only when, (a) the Group currently has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) when it relates to income tax levied by the same taxation authority and where there is an intention to settle the current income tax balances on net basis.

(ii) Deferred tax

Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the consolidated financial statements.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

The unrecognised deferred tax assets/carrying amount of deferred tax assets are reviewed at each reporting date for recoverability and adjusted appropriately. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Group recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Group recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement". The Group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period.

L. Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Where the Group is the lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

The right-of-use assets are also subject to impairment.

(ii) Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-

term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Where the Group is the lessor

Leases in which the Group transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the Group apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss.

Leases in which the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in property, plant and equipment. Management recognised lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term on reasonable basis. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Contingent rents are recognized as revenue in the period in which they are earned.

M. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period including ordinary shares that will be issued upon the conversion of a mandatorily convertible instrument. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable

(All amounts in ₹ millions, unless otherwise stated)

to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

N. Provisions and contingent liabilities

Provision

A provision is recognized when the Group has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the consolidated financial statements.

O. Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

P. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets

Recognition and initial measurement

At initial recognition, financial asset is measured at its fair value plus, in the case of a financial

asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- at amortized cost; or
- at fair value through other comprehensive income; or
- at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Amortized cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

Fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

Fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortized cost or FVTOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity instruments:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Impairment of financial assets

In accordance with Ind AS 109, Financial Instruments, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are measured at amortized cost and FVTOCI.

For recognition of impairment loss on financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payment is more than 30 days past due.

In respect of trade receivables, the Group applies the simplified approach of Ind AS 109 'Financial Instruments', which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In consolidated balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the consolidated balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

criteria, the Group does not reduce impairment allowance from the gross carrying amount.

A financial asset is derecognized only when:

- the rights to receive cash flows from the financial asset is transferred or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

(ii) Financial liabilities

Recognition and initial measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same

lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

Q. Segment reporting

The Group has the policy of reporting the segments in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The chief operating decision maker is considered to be the Board of Directors who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

R. Convertible preference shares/ debentures

Convertible preference shares / debentures are separated into liability and equity components based on the terms of the contract.

On issuance of the convertible preference shares / debentures, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption.

The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for conversion right. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the conversion option is not re-measured in subsequent years.

Transaction costs are apportioned between the liability and equity components of the convertible preference shares / debentures based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

S. Standards issued and made effective

The MCA notified new standards or amendment to existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. The Group has applied following amendments for the first-time during the current year which are effective from 01 April 2025..

Material accounting policies and other explanatory notes to Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

Amendments to Ind AS 1 – Classification of liabilities as current or non-current liabilities with covenants

MCA via notification dated 13 August 2025 announced amendments to Ind AS 1, Presentation of Financial Statements, which elaborate on guidance set out in Ind AS 1 by:

- Clarifying that the right to defer settlement of a liability for at least 12 months after the reporting period;
 - Must have substance; and
 - Must exist at the end of the reporting period;
- Stating that management's expectations around whether the settlement of a liability would be deferred or not, does not impact the classification of the liability;
- Including requirements of liabilities that can be settled using an entity's own instruments; and
- Stating that at the reporting date, the entity does not consider covenants that will need to be complied with in the future when considering the classification of the debt as current and non-current.

In addition an entity is required to disclose when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

The Group has reviewed the new pronouncement and based on its evaluation has determined that these amendments do not have a significant impact on the Group's consolidated financial statements.

Amendments to Ind AS 21 – Lack of exchangeability

MCA via notification dated 07 May 2025, announced amendments to Ind AS 21, The effects of Changes in Foreign Exchange Rates, to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the group's financial performance, financial position and cash flows.

The Group has reviewed the new pronouncement and based on its evaluation has determined that these amendments do not have a significant impact on the Group's consolidated financial statements.

Amendments to Ind AS 7 and Ind AS 107 – Supplier finance arrangements.

MCA via notification dated 13 August 2025 announced amendments to Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instrument: Disclosures and which introduced disclosure requirements with the objective to enable users of financial statements to assess how supplier finance arrangements affects an entity's liabilities, cashflows and exposure to liquidity risk.

The Group has reviewed the new pronouncement and based on its evaluation has determined that these amendments do not have a significant impact on the Group's consolidated financial statements.

Amendments to Ind AS 12 – International tax reform – pillar two model rules

MCA via notification dated 13 August 2025 announced amendments to Ind AS 12, Income taxes, which includes:

- A temporary exception to the recognition and disclosure of deferred taxes arising from the implementation of the pillar two model rules; and
- Additional disclosure requirements targeted at a reporting entity's exposure to income taxes in period in which the pillar two model legislation is enacted or substantively enacted but not yet in effect.

The Group has reviewed the new pronouncement and based on its evaluation has determined that these amendments do not have a significant impact on the Group's consolidated financial statements.

T. Standards notified but not yet effective

MCA has issued Ind AS 118 – Presentation and Disclosure in Financial Statements, which will replace Ind AS 1 – Presentation of Financial Statements and is effective for annual reporting periods beginning on or after 01 April 2027.

Ind AS 118 introduces revised presentation requirements in the statement of profit and loss and enhanced disclosure requirements. The standard is expected to impact presentation and disclosures but not the recognition and measurement.

The Group is currently evaluating the impact of this standard on the consolidated financial statements.

All other new standards or amendments that are not yet effective that have been issued by the MCA are not applicable or material to the Group..

(a) Performance obligation

During the year, the Group has not entered into long term contracts with customers and accordingly disclosure of unsatisfied or remaining performance obligation (which is affected by several factors like changes in scope of contracts, periodic revalidations, adjustment for revenue that has not been materialized, tax laws etc.) is not applicable to the Group.

(b) Disaggregation of revenue

In the following tables, revenue is disaggregated by geography. This is consistent with the revenue information that is disclosed for each reportable segment under Ind AS 108 (refer note 31). The Group believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

Notes:

(i) Corporate Social Responsibility ('CSR'):

As per Section 135 of the Companies Act, 2013, a Corporate Social Responsibility ('CSR') committee has been formed by the Board of Directors of the Holding Company. The primary function of the Committee is to assist the Board of Directors in formulating a CSR Policy and review the implementation and progress of the same from time to time. However, since the average net profits of the Holding Company computed in accordance with Section 198 of the Companies Act, 2013 for the three immediately preceding financial years is negative, the Holding Company is not required to spend any amount on activities related to corporate social responsibility for the year ended 31 March 2026. The provisions of Section 135 of the Companies Act, 2013 relating to corporate social responsibility are not applicable to the Subsidiary Company during the year ended 31 March 2026."

31 Segment information

A. Description of segments and principal activities

The Group considers business segment as the basis for primary segmental reporting. The Group is organized into several business segments:

- Providing co-working space on rent and allied services
- Facility management services
- Construction and fit-out services
- Other services

Certain Items like fixed deposit, balance with government authorities including advance tax and TDS, loan to employee, borrowings, interest on term loan, other finance charges etc. which cannot be allocated to any business segment are reflected in the column "Unallocated". Segments are consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM is considered to be the Board of Directors who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments, in accordance with reporting requirements of Ind AS - 108 on Segment Reporting. Facility management services and other services have been clubbed together as 'Others' as their revenue, segment result and segment assets are less than 10% of total revenue, total result and total assets of the Group.

33 Contingent liabilities and commitments

(i) Contingent liabilities

The Group has certain legal proceedings including direct taxation, indirect taxation, vendors, customer, erstwhile shareholders and others. While these legal proceedings are currently ongoing against the Group, however, based on a detailed evaluation of the facts and circumstances of each case, including, where applicable, legal opinions obtained, the management believes that the ultimate outcome of these proceedings is expected to be favourable to the Group and hence the likelihood of an economic outflow is remote. Accordingly, no provision has been considered necessary in the consolidated financial statements in this regard.

(ii) Capital commitments

Particulars	31 March 2026	31 March 2025
Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances) for property, plant and equipment and capital work in progress	148.23	175.73

34 Capital management

For the purpose of the Group's capital management, capital includes issued equity share capital and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value.

The Group's management reviews the capital structure of the Group on a regular basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital requirements and maintenance of adequate liquidity. The Group is not subject to externally imposed capital requirements.

The Group's adjusted net debt to equity ratio was as follows:	31 March 2026	31 March 2025
Borrowings	509.03	233.77
Less: Cash and cash equivalents	(564.22)	(399.70)
Less: Bank balances other than cash and cash equivalents**	(331.65)	(417.19)
Net debt*	(386.84)	(583.12)
*Negative represents excess of cash and bank balances over borrowings.

35 Employee benefits

(a) Other long-term benefits

The Holding Company has a defined benefit leave encashment plan for its employees. Under this plan, they are entitled to encashment of earned leaves subject to certain limits and other conditions specified for the same. The liabilities towards leave encashment have been provided on the basis of actuarial valuation.

(b) Defined contribution plans

The Holding Company makes Provident Fund contributions to defined benefit plan for qualifying employees. Under the Schemes, the Holding Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions payable to these plans by the Holding Company are at rates specified in the rules of the schemes.

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Employers contribution to provident fund	19.06	44.31
Employers contribution to employee state insurance scheme	0.21	6.93
Others	3.12	2.78
Total	22.39	54.02

(c) Defined benefit plans

The Holding Company's gratuity scheme provide for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days basic salary for each completed year of service or part thereof in excess of six months in terms of Provisions of Gratuity Act, 1972. Vesting occurs upon completion of five years of service.

The present value of defined benefit obligation and the related current service cost were measured using the projected unit credit method with actuarial valuations being carried out at each consolidated balance sheet date. The liability or asset recognised in the Consolidated Balance Sheet in respect of provident fund plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The discount rate used for determining the present value of the obligation under defined benefit plans is based on the market yields on government bonds as at the date of actuarial valuation. Actuarial gains and losses (net of tax) are recognised immediately in the Other Comprehensive Income (OCI).

The following table summarises the components of net benefit expense recognised in the Statement of Profit and Loss and the amounts recognised in the Consolidated Balance Sheet:

(i) Amount recognised in statement of profit and loss and other comprehensive income:

(v) Sensitivity analysis

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	For the year ended 31 March 2026		For the year ended 31 March 2025	
	Rental and others	Facility management	Rental and others	Facility management
Gratuity plan				
Effect of +50 basis points in rate of discounting	(0.84)	(0.01)	(0.59)	(0.01)
Effect of -50 basis points in rate of discounting	0.87	0.02	0.61	0.01
Effect of +50 basis points in rate of salary increase	0.66	0.02	0.49	0.01
Effect of -50 basis points in rate of salary increase	(0.65)	(0.02)	(0.48)	(0.01)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Sensitivity due to mortality and withdrawal are not material to the consolidated financial statements and hence impact of change not calculated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the Consolidated Balance Sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

(vi) The following payments are expected contributions to the defined benefit plan in future years:

Particulars	For the year ended 31 March 2026		For the year ended 31 March 2025	
	Rental and others	Facility management	Rental and others	Facility management
Within the next 12 months	8.94	0.48	9.68	0.30
Between 2 and 5 years	24.70	0.83	22.06	0.60
Between 5 and 10 years	13.92	0.16	8.54	0.08
Total expected payments	47.56	1.47	40.28	0.98

The average duration of the defined benefit plan obligation at the end of the reporting year is: Rental and others : 3.13 years and Facility management : 1.91 years (31 March 2025: Rental and others: 2.62 years and Facility management: 1.12 years).

(vii) Risk exposure:

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

Interest Risk: The plan exposes the Group to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

35 Employee benefits (Contd..)

Liquidity Risk: This is the risk that the Group is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts.

36 Financial instruments – Fair values and risk management

A. Financial instruments by category

"The Group's financial liabilities comprise mainly of borrowings, lease liabilities, trade payables and other payables. The Group's financial assets comprise mainly of investments, trade receivables, cash and cash equivalents, other bank balances and other receivables. The fair value of financial instruments has been classified into three categories depending on the inputs used in the valuation technique as referred to in note (B) below.

The accounting classification of each category of financial instruments, and their carrying amounts, are set out below:

Particulars	Notes	As at 31 March 2026			As at 31 March 2025

Total financial liabilities		22,411.87	-	-	19,357.67	-	-

B. Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Measurement of fair value

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

36 Financial instruments – Fair values and risk management (Contd..)

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

To provide an indication about the reliability of inputs used in determining fair value, the Group has classified its financial instrument into three levels prescribed under the accounting standard. There are no assets and liabilities which have been fair valued through profit and loss or fair valued through other comprehensive income for the year ended 31 March 2026 and year ended 31 March 2025.

Fair value of instruments measured at amortised cost:

Fair value of instruments measured at amortised cost for which fair value is disclosed is as follows, these fair values are calculated using Level 3 inputs:

Particulars	31 March 2026		31 March 2025	
	Carrying value	Fair value	Carrying value	Fair value
Non-current and current financial assets				
Trade receivables	1,377.28	1,377.28	1,207.71	1,207.71

Other financial liabilities	4,323.12	4,323.12	3,218.50	3,218.50

C. Financial risk management

The Group's activities expose it to credit risk, liquidity risk and market risk. The Group's management oversees the management of these risks. The Group's senior management is supported by a Risk Management Compliance Board that advises on financial risks and the appropriate financial risk governance framework for the Group. The financial risk committee provides assurance to the Group's management that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The management reviews and agrees policies for managing each of these risks, which are summarised below:

i. Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Group. The Group's exposure to credit risk is influenced mainly by trade receivables, cash and cash equivalents, bank balance other than cash and cash equivalents and other financial assets measured at amortised cost. The Group continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

(a) Credit risk management

The Group assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Group assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

36 Financial instruments – Fair values and risk management (Contd..)

(i) Low credit risk

(ii) Moderate credit risk

(iii) High credit risk

Based on business environment in which the Group operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Group. The Group continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in the Consolidated Statement of Profit and Loss (if any).

The Group provides for expected credit loss based on the following:

Asset group	Asset class exposed to credit risk	Provision for expenses credit loss
Low credit risk	Cash and cash equivalents, bank balance other than cash and cash equivalents and other financial assets measured at amortised cost	12 month expected credit loss/ life time expected credit loss
High credit risk	Trade receivables	Trade receivables – Life time expected credit loss or specific provision whichever is higher

(b) Expected credit losses for financial assets

(i) Financial assets (other than trade receivables)

Group provides for expected credit losses on financial assets other than trade receivables by assessing individual financial instruments for expectation of any credit losses.

For cash and cash equivalents and bank balance other than cash and cash equivalents – Since the Group deals with only high-rated banks and financial institutions, credit risk in respect of cash and cash equivalents, bank balance other than cash and cash equivalents and bank deposits is evaluated as very low.

For security deposits paid – Credit risk is considered low because the Group is in possession of the underlying asset.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2026

(All amounts in ₹ millions, unless otherwise stated)

36 Financial instruments – Fair values and risk management (Contd..)

For other financial assets – Credit risk is evaluated based on Group knowledge of the credit worthiness of those parties and loss allowance is measured. For such financial assets, the Group policy is to provide for 12 month expected credit losses upon initial recognition and provide for lifetime expected credit losses upon significant increase in credit risk.

Particulars	31 March 2026			31 March 2025		
	Gross carrying amount	Expected credit losses	Carrying amount net of impairment provision	Gross carrying amount	Expected credit losses	Carrying amount net of impairment provision

(ii) Expected credit loss for trade receivables under life time expected credit loss approach

Customer credit risk is managed by the respective department subject to Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on individual credit limits as defined by the Group. Outstanding customer receivables are regularly monitored. As at 31 March 2026, the top 10 accounts receivables accounted for 42.93 % (31 March 2025: 42.74 %) of all the receivables outstanding.

The ageing analysis of trade receivables (billed) as of the reporting date is as follows:

ii. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts. The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments.

(a) Financing arrangements

The Holding Company has access to the following undrawn borrowing facilities at the end of the reporting period:

Increase by 1%	5.06	2.30
Decrease by 1%	(5.06)	(2.30)

c) Price risk

The Group exposure to price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income or at fair value through profit or loss. To manage the price risk arising from investments, the Group diversifies its portfolio of assets.

There are no investments held by the Group which are measured at fair value either through profit and loss or fair value through other comprehensive income, hence the Group is not exposed to price risk.

37 Employees' stock option plan

The Holding Company has two ESOP Schemes namely "Awfis Space Solutions Employee Stock Option Scheme - 2024 ("Scheme")" and "Awfis Employees' Stock Option Scheme 2015 ('EDSOP 2015')".

The Nomination and Remuneration committee ("Committee") of the Holding Company formulated and approved "Awfis Space Solutions Employee Stock Option Scheme - 2024 ("Scheme") at its meeting held on 11 November 2024 which is also approved by the board of director of the Holding Company at its meeting held on 11 November 2024. Under this scheme, the maximum number of options that can be granted to any eligible employee during one year shall not be equal to or exceed 1% of the issued equity share capital of the Holding Company at the time of grant. The committee decide to grant such number of options equal to or exceeding 1% of the issued equity share capital to any eligible employee as the case may be, subject to the separate approval of the shareholders in a general meeting. The maximum number of options that may be granted in one or more tranches, pursuant to this scheme shall not exceed twenty two lakhs options which shall be convertible into equal number of shares not exceeding twenty two lakhs equity shares having face value of ₹10 each.

The shareholders of the Holding Company approved "Awfis Employees' Stock Option Scheme 2015 ('EDSOP 2015')" at the Extraordinary General Meeting held on 15 June 2015 to grant a maximum of not exceeding 5% of the equity share capital of the Holding Company to specified categories of employees of the Holding Company. Each option granted and vested under EDSOP 2015 shall entitle the holder to acquire one equity share of face value of ₹10 each of the Holding Company.

The fair value of the share options is estimated at the grant date using the Black- Scholes option pricing model, taking into account the terms and conditions upon which the share options were granted. However, the above performance condition is only considered in determining the number of instruments that will ultimately vest.

38 Leases (Contd..)

The Holding Company has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Holding Company's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised.

The Holding Company has elected not to recognise a lease liability for short term leases (leases with an expected term of 12 months or less) or for leases of low value assets. Payments made under such leases are expensed as incurred. In addition, certain variable lease payments are not permitted to be recognised as lease liabilities and are expensed as incurred.

(b) Holding Company as lessor

Leases for which the Holding Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

42 The Government of India has consolidated 29 existing labour legislations into a united framework comprising four Labour Code viz Code on wages 2019, Code on Social Security 2020, Industrial Relation Code 2020, Occupational Safety, Health and Working Condition Code 2020 (collectively referred to as the New Labour Codes). These Codes have been made effective from 21 November 2025. The Group has considered the impact for its own employees which is not material to the consolidated financial statements for the year ended 31 March 2026. The Group will evaluate the impact on the measurement of employee benefits and provide the appropriate accounting treatment for any further notification and clarification issued by the authorities in this regard.

43 The Ministry of Corporate Affairs (MCA) has prescribed a requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules, 2021 requiring companies, which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled.

The Group, in respect of the financial year commencing on 01 April 2025, has used an accounting software for maintaining books of accounts. The audit trail (edit log) was enabled and operated throughout the year at application level for such software. The Holding Company has obtained the 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' (Type 2 report' issued in accordance with ISAE 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information) for the year commencing on 01 April 2025. However, the report of the service auditor did not demonstrate whether the audit trail feature specifically captures the details of what data was changed at the database level.

Further, the Group, has used accounting software for invoicing which is operated by a third-party software service provider. The audit trail (edit log) was enabled and operated throughout the year at application level and database level for such software. The Group has obtained the 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' (Type 2 report' issued in accordance with ISAE 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information) for the year commencing on 01 April 2025.

44A During the current year, India Ratings & Research (a Fitch Group Company), through its Rating Action Commentary dated 16 May 2025, has upgraded the credit rating assigned to our bank loan facilities. The revised rating now stands at "IND A+" with a Stable Outlook, an improvement from the earlier rating of "IND A". This reflects the improved credit profile of the Holding Company and underscores the rating agency's confidence in our financial stability, operational performance, and future growth prospects.

44B During the year ended 31 March 2026, one of the Group's customers defaulted on its lease rental payment obligations despite the execution of a Memorandum of Understanding (MoU) providing for settlement of the outstanding dues through scheduled instalments. Consequently, the Group issued a demand notice under the Insolvency and

(IST). The deemed venue for the AGM shall be the Registered Office of the Company situated at C-28-29, Kissan Bhawan, Qutab Institutional Area, New Delhi – 110016.

- Since the AGM is being held through VC/OAVM pursuant to the MCA Circulars and SEBI Circulars, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by Members pursuant to Section 105 of the Act shall not be available for this AGM. Consequently, the Proxy Form, Attendance Slip and Route Map to the venue of the AGM are not annexed to this Notice.
- Pursuant to the MCA Circulars read with the applicable provisions of the Act and the SEBI LODR Regulations, Members attending the AGM through VC/OAVM shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
- In case of joint holders attending the AGM, only such joint holders whose name appears first in the order of names as per the Register of Members/beneficial owners maintained by the Depositories shall be entitled to vote.
- The Company has appointed **National Securities Depository Limited ("NSDL")** to provide the VC/OAVM facility and electronic voting facility for convening the AGM.

The facility for joining the AGM through VC/OAVM shall be made available on a first-come-first-served basis for up to **1,000 Members**. This restriction shall not apply to large shareholders

holding 2% or more of the share capital, Promoters, Institutional Investors, Directors, Key Managerial Personnel, Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders' Relationship Committee, Auditors and such other persons who are entitled to attend the AGM without restrictions.

- Institutional shareholders/Body Corporates (i.e. other than individuals, HUFs, NRIs, etc.) are entitled to appoint authorized representatives to attend the AGM through VC/OAVM and cast their votes through remote e-voting or e-voting during the AGM. They are requested to send a scanned certified true copy (PDF/JPG format) of the relevant Board Resolution/Authority Letter/Power of Attorney together with the specimen signature(s) of the duly authorized representative(s) to the Scrutinizer at rsbhatia@cs.com, with a copy marked to evoting@nsdl.com. Alternatively, the same may also be uploaded by clicking on "**Upload Board Resolution/Authority Letter**" under the e-Voting tab in the NSDL portal.
- The Board of Directors has appointed Mr. Rupinder Singh Bhatia, Practicing Company Secretary (Membership No. FCS-2599; Certificate of Practice No. F2514), as the Scrutinizer to scrutinize the remote e-voting process and e-voting during the AGM in a fair and transparent manner.

GENERAL INFORMATION

KYC Updation for Members holding Physical Shares

- SEBI, vide its Master Circular, no. HO/38/13/(4)2026-MIRSD-POD/1/4298/2026 dated February 06, 2026, as amended from time to time ("SEBI Master Circular"), has mandated that holders of physical

securities update the following details in respect of their folios: (a) PAN (linked with Aadhaar); (b) Postal Address with PIN Code; (c) Mobile Number; (d) E-mail Address; (e) Bank Account Details; (f) Specimen Signature; and (g) Nomination details.

Members holding shares in physical form are requested to update the aforesaid details with the Company's RTA at the earliest.

- Members whose folios are not updated with the aforesaid KYC details shall be eligible to: (a) receive any payment, including dividend, interest or redemption amount (wherever applicable), only through electronic mode; and (b) lodge grievances or avail investor service requests only after completion of KYC updation in accordance with the SEBI Master Circular.
- For updating PAN, KYC details, nomination or for processing investor service requests, Members may submit the applicable prescribed forms, including ISR-1, ISR-2, ISR-3, ISR-4, ISR-5, SH-13 and SH-14, together with the supporting documents, to the RTA. The prescribed forms are available on the website of the Company at www.awfis.com; and the website of Bigshare Services Private Limited at www.bigshareonline.com.
- Members holding shares in dematerialized form are requested to update their PAN, bank account details, e-mail address, mobile number, nomination and other KYC particulars directly with their respective Depository Participants.
- Members are encouraged to register their nomination in respect of their shareholding to facilitate smooth transmission of securities and to prevent accumulation of unclaimed assets.

DEMATERIALISATION OF SHARES

- Pursuant to Regulation 40 of the SEBI LODR Regulations read with the SEBI Master Circular, no. HO/38/13/(4)2026-MIRSD-POD/1/4298/2026 dated February 06, 2026, requests relating to transfer, transmission, transposition, issue of duplicate securities certificates, renewal/exchange, endorsement, subdivision/splitting, consolidation of securities certificates/folios, claim from unclaimed suspense account and similar investor service requests shall be processed only in dematerialized form. Accordingly, Members holding shares in physical form are advised to dematerialize their shareholding at the earliest.
- Members desirous of dematerializing their physical shareholding are advised to approach any Depository Participant registered with SEBI. Explanatory Statement pursuant to Section 102(1) of the Act and SEBI LODR Regulations

The following Statement sets out all material facts relating to the Special Business mentioned in the Notice:

Item No. 3

Appointment of Mr. Abhishek Poddar (DIN: 00031175) as an Independent Director of the Company

Based on the recommendation of the Nomination and Remuneration Committee ("NRC"), the Board of Directors of the Company ("Board") through resolution by circulation, appointed Mr. Abhishek Poddar (DIN: 00031175) as an Additional Director in the category of Independent Director of the Company for a first term of five (5) consecutive years commencing from July 01, 2026, and ending on June 30, 2031 (both days inclusive), subject to the approval of the Members.

Mr. Abhishek Poddar began his career at Khaitan & Co. and later worked at Standard Chartered Bank before joining his family business in the late 1980s. Educated at The Doon School, Dehradun, and a Commerce graduate from St. Xavier's College, Calcutta University. The Poddar family had acquired Matheson Bosanquet, an 80-year-old company engaged in tea production, trading, exports, and shipping, in the 1960s.

Mr. Poddar is also a Director of Sua Explosives & Accessories Private Limited, a leading manufacturer of mining explosives and accessories for domestic and international markets. His business interests span trading, exports, retail, and technology, with a focus on advancing Indian technology to global standards. He has extensive experience in finance, administration, human resources, and general management.

A noted art collector and patron, Mr. Poddar has built one of India's significant collections of South Asian art, craft, antiquities, modern and contemporary art, and photography. He is the Founder-Trustee of the Museum of Art & Photography (MAP), Bengaluru, under the Art & Photography Foundation, and serves on the advisory committees of the Deccan Heritage Foundation, FIND (Foundation Inde-Europe de Nouveaux Dialogues), and the Lincoln Center Global Council, USA.

The Board is of the view that Mr. Poddar's extensive business acumen, leadership experience and strategic insights would be of significant value to the Company and would further strengthen the effectiveness and diversity of the Board. While recommending his appointment, the NRC and the Board have, inter alia, considered his qualifications, skills, expertise, experience, knowledge, integrity, independence and the skills and competencies required on the Board, having regard to the Company's business and governance framework.

Mr. Poddar satisfies the criteria of independence prescribed under Section 149(6) of the Companies Act, 2013 ("the Act") read with the Rules framed thereunder and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

("SEBI LODR Regulations") and is independent of the management of the Company. In the opinion of the Board, Mr. Poddar is a person of integrity and possesses the requisite qualifications, expertise, experience and proficiency for appointment as an Independent Director. The Board is satisfied that Mr. Poddar fulfils the conditions specified under the Act and the SEBI LODR Regulations for appointment as an Independent Director of the Company.

Pursuant to the provisions of Section 161 of the Act, Mr. Poddar holds office as an Additional Director up to the date of this Annual General Meeting. Further, pursuant to Regulations 17(1C) and 25(2A) of the SEBI LODR Regulations, the appointment of an Independent Director is required to be approved by the Members by way of a Special Resolution at the next general meeting or within a period of three months from the date of appointment, whichever is earlier.

The Company has received from Mr. Poddar:

- (i) consent to act as a Director in Form DIR-2 pursuant to Section 152 of the Act;
- (ii) intimation in Form DIR-8 confirming that he is not disqualified from being appointed as a Director under Section 164 of the Act;
- (iii) a declaration confirming that he meets the criteria of independence prescribed under Section 149(6) of the Act and Regulation 16(1)(b) of the SEBI LODR Regulations;
- (iv) a declaration confirming that he is not debarred from holding the office of Director by virtue of any order passed by the Securities and Exchange Board of India or any other authority;
- (v) confirmation that he is not aware of any circumstance or situation which exists or may reasonably be anticipated that could impair or impact his ability to discharge his duties as an Independent Director; and
- (vi) confirmation regarding his registration with the Independent Directors' Databank maintained by the Indian Institute of Corporate Affairs and compliance with the applicable provisions of the Companies (Appointment and Qualification of Directors) Rules, 2014.

The Company has also received a notice in writing under Section 160 of the Act proposing the candidature of Mr. Poddar for the office of Director of the Company.

The terms and conditions of appointment of Mr. Poddar as an Independent Director shall be available for inspection by the Members at the Registered Office of the Company during normal business hours on all working days up to and including the date of the Annual General Meeting and shall also be available on the website of the Company at <https://www.awfis.com/images/reports/disclosure-under-regulation/Profile%20of%20Director.pdf>.

pdf. The same shall also be available for inspection electronically by the Members in accordance with the applicable provisions of the Act.

The brief profile of Mr. Poddar and the additional information required pursuant to Regulation 36 of the SEBI LODR Regulations and Secretarial Standard on General Meetings (SS-2) issued by the Institute of Company Secretaries of India are set out in Annexure A to this Notice and form an integral part hereof.

Mr. Poddar shall be entitled to receive sitting fees for attending the meetings of the Board and Committees thereof and such other remuneration, if any, as may be approved by the Board from time to time, in accordance with the provisions of the Act, the SEBI LODR Regulations and other applicable laws.

Except Mr. Abhishek Poddar, none of the Directors, Key Managerial Personnel of the Company or their respective relatives are, in any way, concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 3 of the accompanying Notice, except to the extent of their shareholding in the Company.

The Board, based on the recommendation of the Nomination and Remuneration Committee, is of the opinion that the appointment of Mr. Abhishek Poddar as an Independent Director is in the best interests of the Company and recommends the Special Resolution set out at Item No. 4 of the accompanying Notice for approval of the Members.
